Consolidation Of Offices. The consolidation of the city offices, as a matter of convenience and pub-lic economy, was thought of by sev-eral councils, but it remained for the council this year to take the question uently during 1904. As a legacy from he council of 1903, the switch ques-Week to Buy In the council of 1903, the switch question in January commanded attention, and, as a preliminary to all that followed, the council asked for a publication of the correspondence in the case. In February an attempt was made to settle the question by referring it to a special committee with instruction that it consider at the same time the double tracking and paving of Princess street.

While this motion was pending a remark to observe office systems, and the council this year to take the question up in real earnest and carry it to a finish. Early in the new year the finish. Early in the new year the

cities, to observe office systems, and report upon them to the finance committee. This they did in May, giving their experience in Hamilton, Ottawa, London, and Brantford. Some of their recommendations have since been carried into the by-laws, regulations While this motion was pending a representative of the company made what was considered a threat, with regard to the withdrawal of the car, and the motion was dropped. Then the dispute went to the legislature, and before one of its committees an agreement was reached as to the position of the company and the right of the city to a specific performance.

In April the city engineer, unexpectedly, gave the street railway company permission to lay the switch on Princess street, and again the difficulty and motions of the counc

The sub-committee of the finance committee, composed of Alds. Meek, committee, composed of Alds. Meek, Toye and McLeod, submitted a rough sketch of the new offices, which sketch was approved by the finance commitas revived under most embarrassing roumstances. Eventually, through special committee of the council, an opening to finance committee be associated with which the switch was laid, a deposit it in carrying out the work. These of \$300 was made with the city, and facts have to be kept in mind in conthe company undertook that the sidering the new treasury department, street would be restored and main which has been completed, at a cost ained, and the surface and crossings of over \$3,000 and stands to-day as kept in good order and repair.

Ald. Carson, at one meeting, moved that the company should remove the snow and ice on that part of Princess per in which they have performed their street occupied by the switch. The motion was lost. Again Alds. Couper only, after all, put into effect the reand Carson moved that the work on commendations of the finance committee the switch should be suspended until tee, and after it had provided the an agreement was drawn up and sign-funds.

The treatry department will mean a great saving to the city. Here the treasurer will be found, and associated with him the collector of taxes, and the receivers for the electric light and gas and water departments. The work is harmonious, and there is no division between the departments. All the officials are under the supervision of Mr. Ireland, who is a most computered head, and who will protect the as interests of the city to the

the work of the former collector of taxes is now being performed by one of the old staff, and without any change in the salaries so far. The treaturer and his assistants, who have the work of the collector upon them, deserve some consideration, and will no doubt receive it at the hands of
