

Sawing Wood

While people are not by any means silent on the fuel question many of them are sawing wood if they have the wood to saw. Anything from the neighbor's fence to the parlor furniture will come in handy for firewood this winter, and if you are not already fixed you had better get a saw.

COMMERCIAL MATTERS.

What is Going on in the Business World—The Markets.

COMMERCIAL.

Prices of Canadian refined sugars have advanced 10c. per cwt.

The gross earnings of Canadian Pacific for the calendar year 1904 were \$45,669,219, as against \$45,409,002 in 1903, an increase of \$260,217.

Good orders for Canadian flour are still being received from Japan. Low grades are in best demand, and Canadian makes receive their quality well in that climate.

Speculation on Toronto change has gone into bank share channels of late, Imperial, Hamilton, and Dominion Stocks attracting attention. The last two have advanced five points in a week.

A statement has been published in Montreal showing the world's stock of wheat to be 1,199,952 boxes, against 1,207,743 a year ago, and 935,521 at the beginning of 1904. The stock of wheat in Canada is placed at 375,000 boxes, against 391,700 in 1904 and 360,000 in 1903. The English stocks are somewhat heavier than a year ago.

Canadian manufacturers of binder twine are in danger of being driven to the wall by the International Harvester company of Chicago, which has announced terms on which that independent manufacturer, both in Canada and the United States, are unable to compete. Their only real hope lies in the possibility of a favorable decision by the dominion government on their request for a protective duty.

The Late Mrs. Dean.

The remains of the late Mrs. E. C. Dean reached the city from Ottawa on the K. & P. railway train early last evening, and were taken to the residence of her grandmother, Mrs. Graham, 1807 St. James street.

The funeral, a private one, took place this morning at 11 o'clock, and was attended by Rev. D. Laing, of the First Baptist church. The coffin was covered and surrounded with beautiful flowers sent by many sympathizing relatives and friends. Among them was a wreath from the Ottawa Free Press staff and an anchor from the staff of the Whig. Among the mourners were Herbert Royner, Pittsburg, Pa., brother, and Dr. Hedley Graham, Rochester, N.Y., uncle of the deceased. The remains were placed in the vault at Cataract cemetery.

Cannot Name A Thing.

Will the News and Times name one thing that the liberals in the council of 1904 submitted to the liberal executives for advisement? It cannot. The majority of the council of 1904 did its own business, and in the way it deemed most advantageous to the city.

NOVOE VREMYA

URGES REINFORCEMENT OF VLADIVOSTOK FLEET

Russian Officers Land At Nagasaki, Men Were Transhipped—15,000 of Nog's Men Have Left Port Arthur To Reinforce Oyma.

Special to the Whig.

Nagasaki, Jan. 10.—The Russian press, to-day, confirm the Paris Telegram report of yesterday that the first division of the third Pacific squadron will leave Lian on the 20th of January.

The Novo Vremya urges the immediate reinforcement of the Vladivostok squadron near the island of Sakhalin and Kamohaka.

Russians Transhipped.

Nagasaki, Jan. 10.—The Japanese transport Tosa brought twenty-eight Russian officers who landed here, and 1,000 men, who transhipped for Rikusa.

15,000 Leave Port Arthur.

London, Jan. 10.—The Rome correspondent of the Exchange Telegraph company hears from New Chungang that 15,000 of Gen. Nog's men have left Port Arthur and have gone to reinforce Field Marshall Oyama at the Shikho river.

Messages From A Kite.

Beaumont, Jan. 10. (via Mukden).—The news of the fall of Port Arthur was received here first unofficially from the Japanese, who let loose numerous paper kites bearing letters and triumphant inscriptions.

These kites were picked up by Russian soldiers, who received the announcement doggedly, regret being expressed that the troops had been unable to relieve the garrison.

Gen. Stakelberg, who has been ill, has returned to the front.

Japs Regret Refusal.

Tokyo, Jan. 10.—The navy department announces that it regrets the misunderstanding in the case of the British cruiser Andromeda, which recently sailed from Wei-hai-wei for Port Arthur with hospital stores and supplies to assist the sick and wounded and was not permitted to land.

The department says the commander at Port Arthur refused the aid offered by the Andromeda owing to the fact that he had not received instructions.

The work of removing the mines and other obstructions at the entrance to the harbor of Port Arthur and of examining the harbor for mines, until last November, when the separate school board threatened to take over the school building. He was present at the meeting when the sale was affected, and agreed with others that the action was wrongful and that the separate school board should be restricted from possession. Messrs. Harrington and Lucas, in their affidavits, declare that Catholic and Protestant children had been attending the school, and that there had been no trouble up till last October, when an agitation was commenced. They attended the meetings and set forth the details of the vote. Mr. Harrington says that the proceedings were irregular and illegal and that the separate school board should be restricted from possession of the school building. The building is worth about \$1,000.

KEEPING THE LINE OPEN

In Face Of Difficulties And At Large Expense.

These days, the street railway company is certainly having its troubles, and deserves sympathy. No sooner had it got most of its line cleared and the cars running, than the wind began to play havoc with the snow piles. The tempest last night was furious and the tracks were again buried. After their vigorous work from Saturday to Monday, the sweepers were pretty well played out, and new brushes had to be fitted in.

Last evening the snow fighters were again placed in commission, and had an awful time. The drifting was so fast and continuous, that no sooner had the plough and sweepers got over a short section than it was filled up again. It was a case of fighting the snows all night, or having the whole system tied up again. The worst place was on outer Union street and King street west, where the snow was driven on the tracks two and three feet deep. Oftentimes the plough would be useless, notwithstanding that a hundred horse-power was behind it.

This afternoon the cars were again able to run, there being no service this morning. The street railway company is doing its very best, in face of the difficulties, to keep the line open for service. It will be at further expense through the tempest of last night. Even to-day there was considerable drifting of snow.

It was expected that the depot branch would be in operation this evening.

Convicts Attempt To Break Jail.

San Francisco, Jan. 10.—News from Manila received today tells of an attempt of about 500 convicts at Alhambra prison to break jail on December 7th. Sixteen prisoners were killed and forty wounded. Six of the gang were expected to live, and several others are in a critical condition.

The next hockey match to be played at the rink is, on Friday night, between Cadets I. and Queen's II. Both teams have been training hard and an exciting match may be expected.

Victor Kennedy left Spangerville for Queen's, to study medicine. Alexander Lawrence left for Kingston also to enter Business College. Miss Tracie Ermond came from Cardinal to the convent of Notre Dame.

Give A Hand.

Are you favorable to the re-election of Mr. Pense?

Then give a hand in securing it.

What can you do? Well, find out your subdivision chairman, ask him to give you duty, and the united work of many will make the election sure.

If you can aid a little every day by canvassing, you will be doing something that will be appreciated.

If you are a liberal do something to help Pense, who does things for Kingston.

LARGE HARDWARE FIRM.

The Messrs. Lewis Building Nearing Completion.

One of the largest and most complete hardware stores in Canada, is being completed for Lewis Bros. & Co. on Blevy street. The structure will be six stories and a basement in height. It is of combination mill and steel construction, meeting all the requirements of the most improved fire sprinklers. The front on Blevy street will be of Montreal limestone. The height from the pavement will be 104 feet. The frontage on Blevy street is 125 feet, while the depth, reaching to Hermine street, is 211 feet. The floor space is three acres.

The equipment of the building is in accord with its size. Three large freight elevators, each with a capacity of from one to three tons, and a plunger elevator, will be used for handling the goods, while there is one passenger elevator, with a speed of 250 feet per minute. Two fireproof staircases will be a feature introduced for safety. Light and power will be supplied by a hundred horse-power plant in duplicate. The general offices and sales department will be located on the top floor. The balance of the building will be used for stock, order and shipping rooms. The prosperity of this firm is very pleasing to Kingstonians, as the Messrs. Lewis, as well as Corland Strasser, are stirring fellow-citizens of old.

CHINESE IN WEST.

Interesting Address On Work Among Them.

Miss Laura Shibley, who has been in Yale, B.C. for some time, and is now home on furlough, gave a very interesting account of mission and school work at the coast, before the monthly meeting of the deacons board of the W.A. in St. George's Hall, yesterday. She says that the western provinces could not get along at all without the Chinamen who are industrious, faithful, honest and sober, much better workers than the Indians, who work by fits and starts, and more irregularly, indeed, than the average white man. The work of Christianizing these foreigners within our gates is slow, as a Chinaman not only has to overcome his conviction that he is superior, intellectually, to his western brethren, but also is quick to notice the inconsistent lives of those who "profess and call themselves Christians." The work, however, has progressed wonderfully this year. Miss Shibley also spoke highly of the work being done by the sisters of All Hallows' school at Yale.

The sixth standard last year. The government grant is insufficient to supply the needs of the Indian school, so contributions of money and clothing from the east are always acceptable.

A DELEGATION

GOES TO OTTAWA RE RUSSIAN REFUGEE INFLUX.

Come To New York, And Are Dumped Into Canada—Plan Will Be Introduced To Mitigate Evil.

Special to the Whig.

Montreal, Jan. 10.—A deputation composed of officials of the Baron De Hirsch Institute, and representatives of the steamship companies in Montreal, went to Ottawa, this morning, to interview the government with reference to the conditions created in this, and other eastern Canadian cities, arising out of the inflow of Russian refugees.

It is claimed that large numbers of these people who arrive in New York are being dumped into this country by dangerous sailing, practically without any restriction, so long as they comply with the immigration laws.

It is understood that a plan will be introduced to mitigate this evil.

A verdict was given, to-day, by the special jury which heard the action against the Grand Trunk, for damages arising out of the Richmond, Que., wreck. Fred Barrett, of the Canadian Express company, was one of the victims. His widow was awarded \$10,000, and his two children \$3,000.

The detectives department is actively engaged investigating the circumstances surrounding the death of Martin Labatt, of Bradford, Eng., a young landscape artist, whose body was found in the river near Lachine rapids. The body was identified at the morgue, to-day, as that of the Englishman, by Duncan Bell. Nothing but papers were found in the clothing, and the body was badly disfigured from having been in the ice some time. Police are looking to the possibility of there being foul play. The young man arrived in the latter part of October, 1904.
