THE VICTORS Give Pleasure by Considerate Treatment of Captives COMPLAINTS OF CHINA'S VIOLATION OF NEUTRALITY.

Russian Loan Subscribed In Half An Hour—Japan's Success At Port Arthur—Appears More Wonderful All The Time. Special to the Whig. Nagasaki, Jan. 13.—The steamers Kaga and Sunuki have arrived here, with 1,070 Russian prisoners of war and fifty officers. All the prisoners have been quartered at Inasa, a village nearby, where also has been prepared a lodging for Gen. Stoessel, who will arrive next Saturday. The Russian officers are allowed much liberty within the bounds of the town, but they are under police escort.

Chinese Violation of Neutrality. St. Petersburg, Jan. 13.—Russia has sent a circular to the foreign governments enumerating a series of alleged Chinese violations of neutrality during the war. The circular states that the violations will continue, as China is unable to fulfill her obligations. In these circumstances Russia reserves the right to act in her own interests respecting neutrality.

Japan's Work Wonderful. Tokio, Jan. 13.—The Japanese achievement at Port Arthur, is more remarkable in the light of further investigations. The original Russian strength is now estimated to have been almost 50,000 men. It is announced at the army headquarters, that in addition to the 2,225,000 rounds ready reported, about 13,000,000 combatants eventually will be brought to Japan. Gen. Nogai's headquarters staff at Port Arthur, are at present devoting their energies to dispatching the prisoners to Japan, clearing the wounded in hospitals, and placing the way for a thorough investigation of the spoils of war.

Further List of Spoils. London, Jan. 13.—Telegrams from Tokio add to the lists of spoils taken at Port Arthur, as given out by the Japanese legation, 2,225,000 rounds of small arm ammunition, sixty torpedoes, 1,158 explosive charges, 960 ammunition waggons and carts, 149 sets of telegraph and telephone apparatus, fourteen searchlights, and quantities of swords, pistols, and trenching tools. It is remarked that the captures disprove the idea that a shortage of ammunition contributed to the surrender of the fortress.

Edict Of War To Be Issued. St. Petersburg, Jan. 13.—The government seemingly is about to make the irrevocable declaration that prestige abroad and the status of the nation necessitate the continuation of the war till peace with dignity is possible. Beyond this point, however, confusion exists.

Empress Nicholas is apparently vacillating as to whether she shall allow M. Witte full sway, in the meantime declining to permit Prince Sviatopolk-Mirsky to retire.

The latter persists in the view that the confidence of the people in the manner in which the reform manifesto is to be worked out is vital and that this is impossible, if the work is to be left completely in the hands of the bureaucrats. Direct consultation with the representative classes interested he considers essential.

It has now been definitely established that the third meeting of the manifesto as it was originally drafted by Prince Sviatopolk-Mirsky provided for representation of the Zemstvos in the council of the empire, and that this was stricken out against his earnest protest.

The lack of cohesion and alignment of the forces opposed to the existing state of things and mutual distrust of each other's programme seem to make anything approaching actual revolution now unworthy of serious consideration.

Socialists, revolutionaries and other extreme elements, as well as the subject races on the borders of Russia, all have different objectives, with which the conservative liberals, whom the government really hopes to appease, have little in common; and above all Russia's unnumbered millions of peasants have given almost no evidence of having been stirred by the prevailing political agitation.

British steamer Rosby, loaded with coal, consisting of 1,000 tons, was captured by Japanese headquarters in the Japanese sea, recently deputed a son at Bangkok, recently deputed a detachment of the 9th Siberian Cossacks near Roman. The date of the engagement is not stated. The Russian retreated in disorder, leaving six men dead on the field. The spoils taken by the Japanese included two horses and a number of rifles and swords.

Sailed Away. Suez, Egypt, Jan. 13.—The division of the Russian second Pacific squadron commanded by Rear Admiral Botkovsky, sailed for Jibuti, French Somaliland.

Five of the Navy. There is a possibility that the French cabinet may retire. L. J. Lemery, a well-known Quebec journalist and politician, died Thursday. Prof. Rutherford, of McGill, has been appointed Silliman lecturer at Yale for 1905. The castles and barracks of the N. W. M.P. at Jibuti, were destroyed by fire.

Stood On The Plank. Toronto, Jan. 13.—Hugh Blair, the liberal candidate in North Toronto, questioned last night at a meeting in his interest as to his attitude on the conscription question, said that had he not been nominated by the liberal party convention he would like to go further than the plan of the platform of the liberal party, but under the circumstances he stood on that plank.

Took His Life. Toronto, Jan. 13.—Mr. Harris, a butcher and respected citizen, is supposed to have committed suicide yesterday afternoon by shooting. While having a dinner with his wife and his partner, Mr. Cuthbert, he got up and went to the stable where Mr. Cuthbert found him dead a short time afterwards. No cause can be assigned for the act.

He Ended His Life. Toronto, Jan. 13.—Claude Bullis, forty-four years of age, in E. Walton's drug store, Queen street east and Broadway avenue, committed suicide, early to-day, by swallowing prussic acid. He was twenty years of age when he came from Iroquois, where his parents live. No reason is given why the young man should end his life.

Five Were Lost. Halifax, N.S., Jan. 13.—A despatch received here from Glace Bay, N.S., states that the Gloucester schooner, which was sunk in a collision in Bay of Islands, Newfoundland, last Sunday, lost five of her crew. Previous despatches indicated that all the crew escaped. The men lost are said to have been Norwegians.

A Railway Accident. Dauphin, Man., Jan. 13.—Two coaches and a baggage car of the C. N. railway north-bound passenger train left the track four miles east of Minotons last night. No fatalities occurred, but baggage man Moore had his collar broken and the guests of Mrs. N. S. Wilkin, Dauphin, were badly shaken up.

In Dangerous Condition. Milverton, Ont., Jan. 13.—Mrs. Weitzel, about sixty years old, who married the second time a few weeks ago, cut her throat with a razor, last night, severing the wind pipe. The local doctors consider her in a dangerous condition, but think she may recover.

Rosy Checks. Rich blood, rosy cheeks, perfect health follow in the wake of "Swiss Foods" for breakfast.

Ald. Sears is opposed to taking down the market shambles. So also is Ald. Kent. They would prefer to expend a small amount of money to strengthen and point them. Their claim is that the shambles are a great convenience to citizens and farmers.
