PENSE THE MAN WHO DOES THINGS FOR KINGSTON'S HELP.

Be Sure And Give Him A Vote So That He Can Go Back To His Parliamentary Duties With Your Approval.

Never cease to watch the enemy. Are you working for Mr. Pense? The opposition's name will be mud if it brings much more of that article.

Put your country under an obligation to you by getting votes for Pense.

We shall celebrate the liberal victory and "Bobbie Burns" birthday the same night.

The Royal Government never spent a cent wrongfully.

Never mind what the other fellow is saying. Get busy and stay busy with the election of Pense.

The farmers of Ontario will look in vain for a second John Dryden in the ranks of the Whitesites.

"Whitney always keeps his promises," says a Tory machine organ. Just so, he keeps them and the date of his public that he never can break them.

Suppose Gamewy to get his hands on the three millions of dollars surplus cash in the bank that belongs to us, what do you think would happen?

Mr. Pense has his faults—who has not—but no fault everybody likes is his generosity and willingness to make Kingston stand well in the public eye.

The Tory organs challenged to put their finger on one case of ballot stuffing by the liberal government or its organs.

There would be more merit in Mr. McIntyre seeking a judgeship, because of his legal ability and his capacity for winning seats, than wanting to get into parliament.

Mr. Pense is the workmen's candidate. The Ross government has ever been helping labor.

Keep the Tory rabble from the provincial assets. Remember how they paraded out the people's assets among the heifers when they thought they had wrested New Ontario from us.

In the stirring times of the Old Boys' reunion, who was found in the thick of the work to make it a success?

Mr. Pense. He is always found in the front line when Kingston is being advanced.

With the liberals in power, all the public institutions are running very smoothly.

No complaints and no scandals. With the Ross crowd in office there is no telling what orgies would be carried on.

Will Whitney give the names of the men who offered to take him in to a coalition and the date of the offer, or will he go on record as having faked the entire story?

Mr. Ross has already given it full and emphatic denial.

News which we called it "The Gaiety sheet." And yet for days we have been called the "machinery organ."

We have no concern what we are called, but we do know the malice, deceit and vindictiveness behind it. The

WILLOW HOUSES.

There used to be an old saying to the effect that "When houses were made of willow, the men were made of oak."

A neat way of describing the healthfulness of the old days, and the immaturity of the "men of oak" from many a disease, especially those due to cold and also exposure.
