Avery and Pringle have stopped drawing lumber to Ardenville Station, owing to the bad state of the roads. Lyon brothers, Long Lake, are opening a road from their mill to Ardenville Station, via Dead Creek. Much sympathy is felt for the family of James Martin, who died from the effects of an injury received while working in Avery and Pringle's lumber camp. The sum of \$200 was raised among his fellow-workers for the benefit of the bereaved family.

Mrs. Dowdell had been ill for the past four weeks. She was a victim of pneumonia. Her maiden name was Annie Neil, and she was thirty-seven years of age. She was a patient and gentle and was nursed by Nurse Lynn all through her sickness. The funeral took place on Sunday afternoon and many turned out. The bereaved husband has the heartfelt sympathy of the whole com-

munity, as he is left with five little children to mourn the loss of an affectionate mother. John A. Norris spent a few days at Barrowmith, many intend taking in the Westport races. The Weather Prophet.

Sharpton, Jan. 17.—The roads are not passable for heavy loads. Firewood and fodder are catching it these days. As to the coming election, everything is quiet. Perhaps at nomination-to-morrow new life will be put into the campaign. Mr. Irish, who is on the road for Mr. Connelly, Yarker, passed through. Dancing is the order of the night. W. McQuay and J. Renden are getting wood on J. Young's. Our school was slimly attended on account of the cold, stormy weather. Snow is about two feet deep on level. J. Moon is preparing to move to his new farm in Fredericksburgh. The weather prophet will have it, that the hardest of the winter is over. But he is a prophet with nothing at stake, and a reputation yet to make. The consensus of opinion seems to be that the toll gates are bound to go, although it may be a few years yet. Visitors: John Drum, Belleville; W. Morrison, Huronville; Mr. Connelly, and Mrs. Thomas Brethron on the celebration of their golden wedding at Rochester on January 2nd. For a long time they resided here, but recently moved to Rochester. The numerous friends of Mr. and Mrs. Brethron here wish them many more years of happy married life.

Hurrah For Tapping.

Ardenburgh, Jan. 18.—A large number of our young people took advantage of the moonlight nights and good roads and drove to the oyster supper and ball given at the Beards Mimes, on Monday evening, December 26th. No pains were spared by the management to make the hall bright and attractive. It was decorated with an abundance of evergreens and Chinese lanterns, arranged in red, white and blue, with red and white carriages. Municipal elections caused a good deal of excitement in this neighborhood. Tapping, our popular county councillor, was again elected, defeating Alex. Munro by a good substantial majority. Hurrah for Tapping. He has promised his many friends an evening of entertainment in the near future for the warm interest they manifested in his election. The two feet of snow which fell here last week, left the roads well nigh impassable, the stage not being able to make its regular trips. Our school has again opened with A. Parsons as the teacher. Mrs. John Riecke is again in the Hotel Dieu, undergoing treatment. George Webber is all smiles; it is a girl. Clayton Tapping snowed under at Archibald McLean's for a few days. PUTTING IT STRONG.

But Doesn't It Look Reasonable? This may read as though we were putting it a little strong, because it is generally thought by the majority of people that Dyspepsia in its chronic form is incurable or practically so. But we have long since shown that dyspepsia is curable, nor is it such a difficult matter as at first appears. The trouble with dyspepsia is that they are dieting, starving themselves or going to the opposite extreme and eating the already overburdened stomach with "bitter" or "ster dinner pills," etc., which invariably increase the difficulty even if in some cases they do give a slight temporary relief. Such a course of the stomach simply makes matters worse. What the stomach wants is a rest. Now, how can the stomach become rested, recuperated and at the same time the body nourished and sustained?

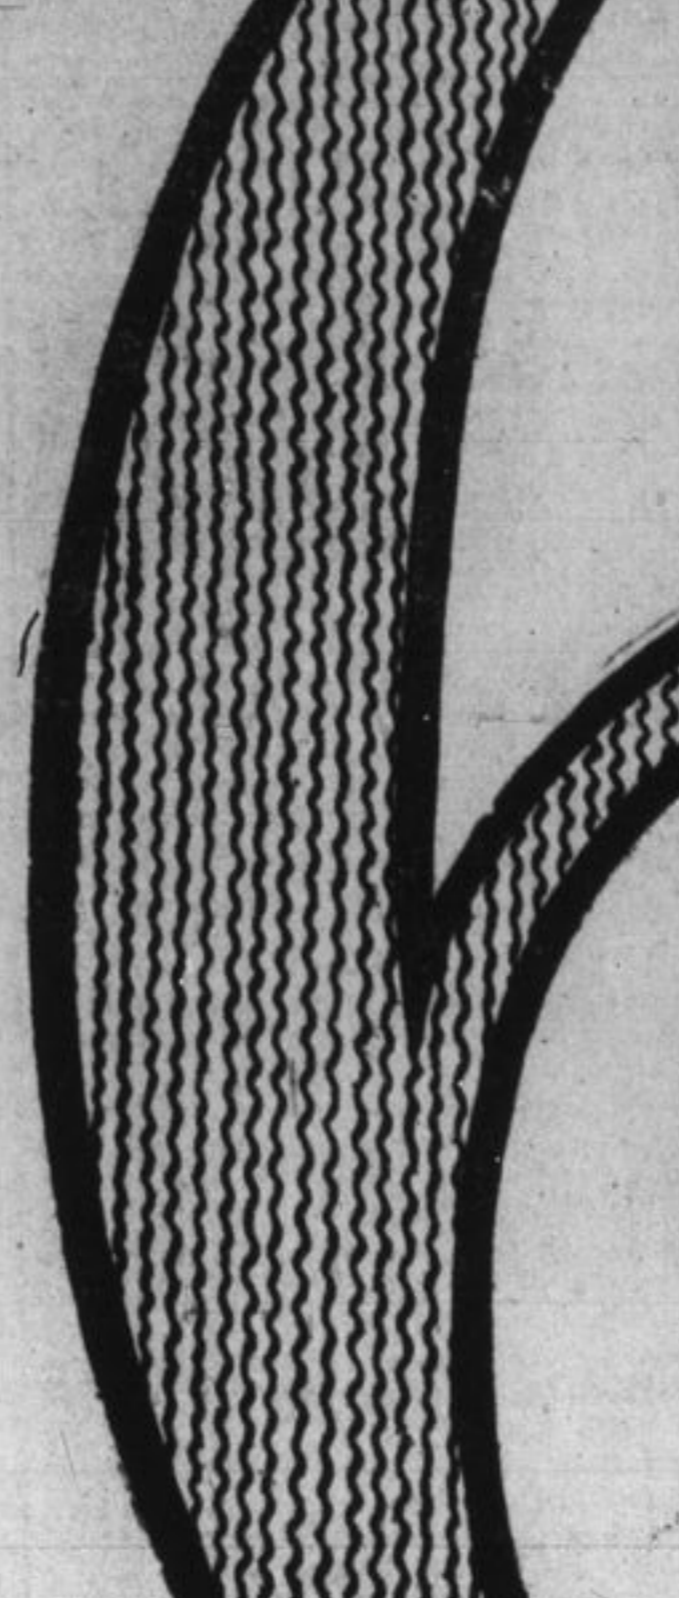

This is a great secret and this is also the secret of the uniform success of Stuart's Dyspepsia Tablets. This is a comparatively new medicine, but its success and popularity leave no doubt as to its merit.

The tablets will digest the food anyway, regardless of condition of stomach. The sufferer from Dyspepsia, according to directions, is to eat an abundance of good, wholesome food and use the tablets before and after each meal and the result will be that the food will be digested, no matter how bad your dyspepsia may be, because, as before stated, the tablets will digest the food even if the stomach is wholly inactive. To illustrate our meaning plainly, if you take 1,000 grains of meat, eggs or ordinary food and place it in a temperature of nine-to-eight degrees, and put with it one of Stuart's Dyspepsia Tablets, it will digest the meat or eggs almost as perfectly as if the meat was enclosed within the stomach.

The stomach may be ever so weak yet these tablets will perform the work of digestion and the body and brain will be properly nourished and at the same time a radical, lasting cure of Dyspepsia will be made. The stomach, however, completely paralyzed, to some extent, a much needed rest. Your druggist will tell you that of all the many remedies advertised to cure Dyspepsia none of them have given so complete and general satisfaction as Stuart's Dyspepsia Tablets, and not least in importance in these hard times is the fact that they are absolutely cheap and give the most good for the least money.
