DIAN CLIMATE

For Meteoric Swiftness It Takes The Lead-Nothing Can Be

nation can hear from all parts of Canada these days the ring of cold the lightning hockeyist chasing the puck. There are games that call for speed, skill, endurance, coolness, and all that it implies, the best of bright, happy time they had has been called the national game, and it has many claims to that title, for it was played in these latitudes long before Columbus happened on San Salvador. Whether it is so distinctively a national game as hockey is, however, open to argument. A team of lacrosse players quer Canada from Montreal to Vancouver. It never has been done, but main of hockey, on the other hand, it is outside the bounds of possibility that a team could be reared some time, left to-day for her home south of Mason and Dixon's line which would have a ghost of a show even against a parcel of boys taken at random from any Canadian public

Zeal may do much, but it cannot a feeling of deep pity in any sympathetic breast for those whose mismatch, but who has not even seen one played. No description can be a substitute, for how can a game be ing catarrh. The cold wind and that I did, for it brought speedy relief. earth could serve as a comparison or a standard without being considered lumbering and slow. It is necessary to go to the heavens, with its lightning bolts, its shooting stars, and its northern lights, for images to truly set forth the flashing celerity and inconceivably swift changes of have noticed without exception that it the game of hockey-on-the-ice.
