SEVEN CHARGES OF BRIBERY LAID AGAINST SENATOR MITCHELL

Each Count Is Of Receiving Money In Payment For Services Rendered In Connection With Alleged Land Frauds On Large Scale.

Portland, Ore., Feb. 1.—The federal grand jury yesterday indicted United States Senator John H. Mitchell for bribery on seven counts in connection with the land fraud investigation.

State Senator George C. Brownell was indicted on four charges of subornation of perjury.

The indictment against Senator Mitchell alleges that while a senator for this state he accepted on seven occasions sums of money, aggregating \$4,200 from a timber land dealer named Frederick R. Kriss for services rendered in, it is alleged, inducing Congressmen Ringer, Hermann, then commissioner of the general land office, to expedite, make special and approve certain applications for public lands and recommend the issuing of patents to the lands.

SENATOR MITCHELL

The indictment against Senator Mitchell charges that Mr. Brownell caused Fred Stevens and John Howard to swear falsely that certain field notes in connection with the survey of public lands in Eastern Oregon were true.

Specifically, the indictment against Senator Mitchell recites that Kriss was engaged in the business of aiding persons in making applications to purchase tracts of land in the Roseburg land district in this state and also aiding them to secure the lands by means of alleged false statements that they were not applying for them on speculation.

THE END COMING

But War To Continue Till Next Summer.

Special to the White.

London, Feb. 2.—W. L. A. Burdett-Coutts, M.P., speaking at the Westminster Conservative Club last night, said that the government would remain in office until the Russo-Japanese war concluded and predicted the ending of that conflict during the coming summer.

He said the Anglo-Japanese alliance was the most precious act of foreign policy ever achieved by Great Britain and Premier Balfour was bound by every consideration of honor and patriotism to remain in office during the critical period "when, the war being closed, other powers might step in and perhaps rob us of our share, shamelessly as they robbed Japan before."

Big Battle Will Come.

Victoria, B.C., Feb. 2.—Among the passengers who arrived on the steamer Empress of India from the Orient yesterday, was an elderly man, an artist of the London Graphic, in an interview he said that he regarded the present movements at the Shakhie river, which position he recently left, as perhaps the most important strategic situation in the world.

He is of the opinion that the big battle which must take place for the possession of Mukden will not occur until a break in the weather comes. The Japanese, he believed, would take the offensive.

News of rioting in Korea was brought by the Empress. A band of pro-Japanese reformers called the Leiching have been leading rioting in the palace, where they have been dispersed by Korean soldiers.

LEAPS THREE STORIES.

Makes Escape After Being Fired Upon.

New York, Feb. 2.—By a leap through a third-story window, a burglar escaped last night from the residence of Brigadier-General Amos G. McCook, in West Fifty-fourth street.

The general's twelve-year-old son, Amos G. McCook, Jr., had fired two shots at him with a revolver.

The family had finished dinner, and the boy was on the way upstairs to his bedroom in the rear. The burglar for a look his father had been reading when he heard a noise in the library, which was dimly lighted.

On opening the door he saw a man rushing through the doorway leading to a bedroom in the rear. The lad ran across the hall to his father's bedroom, seized a revolver hanging on the wall and ran quickly back to the library.

Standing at the door of the library looking into the bedroom into which the man had run, he took quick aim at the burglar, who was climbing through the window opening on the rear court, and fired twice.

The man apparently was not hit as he went through the window and disappeared.

The shots alarmed the entire household, and Gen. McCook ran up the stairs and met the boy on the second floor.

Finding that the burglar had escaped he called police headquarters on the telephone.

No trace of the burglar could be found, and a search of the house showed that nothing was missing.

BODY BURNED; WOMAN DYING.

Mrs. Milligan's Clothes Become Mass Of Flames.

Syracuse, N.Y., Feb. 2.—Her body frightfully burned, Mrs. Stephen Milligan of 171 Webster avenue was taken to St. Joseph's Hospital early yesterday morning. She was in a critical condition this morning and her recovery is doubtful.

While holding a lamp for her husband, who was building shelves in a cottage adjoining their home, Mrs. Milligan's clothing came in contact with a stove and in an instant she was enveloped in flames.

While her husband rushed for a pail of water, Mrs. Milligan made a vain effort to tear the clothes from her body and in doing this her hands and arms were badly burned.

After dashing the water over her, Mrs. Milligan succeeded in smothering the fire in her hair and about her body with her hands, which were badly burned.

SOLDIERS STABBED.

End Of Strike, However, Is In Sight.

London, Feb. 2.—The Daily Mail's Warsaw correspondent reports a resumption of comparative peace though the city still is in a condition of dangerous ferment.

"The majority of the troops," the correspondent says, "have been withdrawn from the centre of the city and the end of the strike is in sight. There is some fighting still in the outer suburbs, and cases of treacherous stabbing of soldiers are growing more frequent. Vehicular traffic has been resumed, and supplies of food are arriving. Hundreds of domiciliary visits and arrests have been made. All suspected persons are stopped, searched and arrested if found to be carrying weapons." To Increase Ministers' Salaries.

The following editorial in the Toronto "News" is regarded as forecasting legislation at the coming session: "At the very first session of the legislature under the direction of the new government the salaries of ministers should be increased. The remuneration of the premier ought to be at least \$10,000, and not less than \$5,000 should be paid to each of his colleagues. These sums may seem large to those who do not understand the burden of entertaining, and contributing to many public objects which fall upon ministers. The truth is that the acceptance of a portfolio means a sacrifice of time, and probably a burden of debt before the holder has been many years in office, and in the end compulsory acceptance of a place in the civil service."
