LISTENED TO COMMON SENSE
COUNSEL OF MINISTERS.

Vague Promises Of Reform Not
Meeting With Response Ex-
pected—Deputation To Czar
Packed By Officials—Strikes In
Consequence.

Special to the Whig.

St. Petersburg, Feb. 3.—The story
to the London Telegraph, to the effect
that the czar had signed an ukase
granting a constitution, has elicited a
semi-official statement, declaring that
the report is inaccurate. The re-
port, the statement adds, was proba-
bly based on the following circum-
stances: The council of ministers, as
announced, had rejected a motion made by M. De Witte, and
should adopt measures to prevent the
outbreak of such events, on the
ground that it would exceed its pow-
ers in so doing. However, M. De Witte
whose special opinion was entered upon
on the minutes of the council sub-
mitted to the emperor a memorandum
which his majesty approved. The coun-
cil of ministers held an extraordi-
nary sitting on January 31st, to dis-
cuss this memorandum, in the ques-
tion—an enquiry into the events
was dismissed, and the minister of
finance was empowered to prepare a
scheme of social legislative reform,
with special reference to the question
of labor. The above statement, it will
be seen, confirms, partially, the infor-
mation on which the Telegraph's cor-
respondent placed his utopian and
optimistic, and indicates that the czar
has listened, at last, to the counsels
of prudence and common sense offered
by certain of his ministers.

Mondays conciliatory attitude, and
vague promises of reforms on the part
of the czar, are not meeting with the
popular response that was expected.
The authorities were surprised, yes-
terday, by fresh strikes in two of the
principal cotton mills, and a large
iron works. Reason for strike was to
make a protest against the so-called de-
legation of workers received by the
czar. Yesterday's strikers, who had
returned to work on Monday, com-
plain that the men sent to the Tsar-
Sole were individuals selected by
the authorities, and were not chosen
by the workmen, who repudiate them.

At Hartford, Conn., Agnes L. Long,
a seventeen-year-old bookkeeper for P.
Barry & Sons, was knocked down
on the street and robbed of \$1,000.

Poison was found in the stomach
of Mrs. Walter Hoy, Chicago,
wife of John Hoy, "Bluebeard,"
and the murderer will be pressed
by certain of his neighbors.

The Nationalist M.P.P., Mr. Monet,
sitting for Napierville, in the legis-
lature, has been sworn in as a member
of the Quebec government, without
portfolio.

The Prussian government is consid-
ering the possibility of nationalizing
all mines in view of the constant
troubles between private operators
and their employees.

A new sun rises, the largest ever re-
corded, is now visible. It is egg-shaped,
80,000 miles in diameter, and
will be visible for seven days. It may
be seen through smoked glass.

A despatch from Ottawa says it is
currently reported that the proposal of
Raymond Prefontaine to abol-
ish the Montreal harbor commis-
sion and appoint instead a board dir-
ectly responsible to the marine de-
partment at Ottawa, will not be pre-
pared with this session.

FIGHT AT CHELSEA.

St. Petersburg, Feb. 3.—A dispute
from the front reports a severe fight
at Chelsham Pass. The Japanese
made a night attack upon the Ross
bridge, and overthrew the Russian
defenders. Afterwards the Japanese
encountered strong resistance from
the Ross bridge, and were compelled to
retire. The Japanese lost about 100
killed and many wounded, and the
Russians fifteen killed and thirty-seven
wounded.

Prussia is considering the possibil-
ity of nationalizing all mines in view of the constant
troubles between private operators
and their employees.

New Year's Day Of The Chi-
neze.

Special to the Whig.

New York, Feb. 3.—To the beating
of tom-toms and the explosion of fire-
works, the Chinese New Year was cel-
ebrated in to-day by Celestials all over
the world. No other holiday is so im-
portant in the estimation of the Chi-
nese as New Year, and members of
the colony in the Mott street quarter
have been preparing for the festival
for days.

To those astronomically inclined it
may be interesting to know that the
Chinese New Year falls on the first
new moon after the sun enters Aquarius,
which makes it come not before January
21st, nor after February 19th. The year is indicated by the age
of the reigning emperor, so that
you know to-day is the thirtieth
year of Kwang Sui, which translated
into English would be the year of the
Succession, or the emperor's own suc-
cession, for the deity judge had no au-
thority to hold a record. After
argument Mr. Wright, with some
hesitation, concluded that the record
should be made, and the record
was made. The record, however, did not
mention the name of the emperor, but
the date, and the date was given as
January 21st, 1905.
