MAINE DISEASES, DUE TO STANDING

Have you ever thought why so many women or girls rather walk an hour than stand still for ten minutes?

It is because most women suffer from some derangement of their delicate system, the discomfort of which is less trying when they are in motion than when standing.

But no amount of law can regulate the hard work of these women. They must get the strength which the work demands or run the risk of serious diseases and the surgeon's knife.
