In 1860 Dr. A. W. Chase was a practicing physician in Ann Arbor, Mich., but such was his reputation that he could not confine his practice to Ann Arbor and vicinity or even to State of Michigan; for people heard of the remarkable cures that were being brought about and wrote for advice and treatment.

It was this demand from people at a distance which lead Dr. Chase to put up for public sale a few of the prescriptions which had proven so successful in his private practice, and backed by the integrity of character and honesty of purpose of Dr. Chase these family medicines soon acquired a reputation for reliability which has won for them the confidence of the best people in the land.

For some years previous Dr. Chase had made a hobby of collecting, studying and experimenting with receipts and prescriptions and the result was the publication of Dr. Chase's famous Receipt Book, which has had a world-wide circulation. This work, together with marked natural ability and high technical knowledge as a physician graduated from two of America's leading medical colleges, at Ann Arbor and Cincinnati, gave him undoubted qualifications for the extraordinary success he achieved as a physician.

Take for example Dr. Chase's Kidney-Liver Pills, which have become so well known as a family medicine to be depended on for the cure of liver disorders kidney diseases and constipation. Here is a letter from a Canadian who obtained treatment from Dr. Chase personally in 1867.

Cured by Dr. Chase in 1867.

MR. G. W. PARISH, Sturgeon Bay, Ont., writes :- "In the year 1867 I was very bad with my kidneys. I could not work on account of my back being lame, sore and painful all the time. Though I followed the directions of our family doctor, he was unable to do me much good. At this time Dr. Chase was becoming known as an especially successful physician, and on the advice of my uncle, Charles Williams, I went to Dr. Chase, at Ann Arbor, Michigan, and he gave me a box of his pills for kidney disease.

You can scarcely imagine how much good they did me. They helped me so much that I went back to the doctor and bought a dozen boxes. In my mind there is no medicine half so good as Dr. Chase's Kidney-Liver Pills for kidney trouble and headache. We always keep them in the house as a family medicine, and I would not think of using any other."

From the small beginning in AnniArbor in the sixties the output of Dr. Chase's medicines increased at first slowly, but later by leaps and bounds wherever their merits became known.

While the advertising has been confined solely to Canada and the United States the reputation of there great family medicines spread abroad until it was necessary to establish an office in London for the British Isles, while orders have been received at the Canadian offices from such far away points as Belgium, France, Australia, New Zealand, Dutch West Indies, British Guiana, Nyassaland, Central Africa and Aden, Arabia.

Nothing short of genuine merit can account for such enormous demand for Dr. Chase's Medicines, every one of which was prepared by Dr. Chase on the principle of not merely relieving, but positively curing disease, by removing the cause, and to this principle is due, we believe, their phenomenal success.

Dr. Chase's medicines are for sale by all dealers or Edmanson, Bates & Co., Toronto, Out, and the Dr. A. W. Chase Med. Co., Buffalo, N.Y. The portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box of his medicines.

\$1,000 Will be forfeited if the above testimoniel is not correct and on file at these offices.
