## The Better Way

DEOPLE used to shew cinchona bark until the quinine capsule was invented. People used to take raw cod liver oil, too, until Scott's Emulsion was introduced. The person who would take raw sed liver oil now would, no doubt, also use a spirit lamp and spinning-wheel. The reason Scott's Emulsion is so vastly superior to the raw con liver oil and the results of its use so much more satisfactory is because it is perfectly adapted to weak conditions of the body. The stomach can accept and retain it even when vitality is low and the functions slow to act.

## Emulsion Scott's

enters the system almost entirely digested. It puts no strain on the stomach or weakened organs. The nourishment it gives passes quickly into the blood. Its goodness reaches the seat of weakness quickly, easily and without effort. An improvement begins at once. There's nothing in the world like it for thin, weak people or pale, delicate children. Consumptives and those affected with chronic colds, coughs and bronchitis are invariably helped by Scott's Emulsion.
