The Kingston, Portsmouth & Cataract Electric Railway Company.

### A CENTURY OLD.

A Canadian Born Woman Dies In Hamilton.

Hamilton, Feb. 28.—Mrs. William Cable, mother of George Weir, the well-known grain buyer, died yesterday. She was undoubtedly the oldest woman in this part, and one of the oldest native-born Canadian women in the Dominion. She was born in Nova Scotia, January 9th, 1825, and was thus over one hundred years old. Her first husband, Timothy Pomeroy, was murdered here in 1829 while attempting to arrest a prisoner. In 1831 she married Joseph Weir. He died shortly after, and in 1840 she wedded William Cable.

### When you buy Windsor Salt

You buy the purest, best salt that money can buy. Your grocer has it.

### TOOK TA PASS

#### The Japanese have A Good Point.

### IN THREE LINES

#### THE JAPANESE ADVANCE ON THE RUSSIANS.

Operations to be Among the Hills—Turning Russian Flanks—Japanese Repulsed—The Sha River Has Been Crossed—Checked by the Russian Forests.

Special to the Whig. St. Petersburg, Feb. 28.—A dispatch from Yachutsk says that the Japanese advanced last three days against the Gusi Pass, on Sunday, and that an obstinate fight is now raging there. The Japanese are using considerable force also on the centre and left of their line, and heavy cannonading is in progress. The Russians report that the Japanese are in possession of Ta Pass and also the pass between Ta Pass and Katan Pass. The possession of Ta Pass threatens Fushan, Ta Pass and Hingress Way. Ta Pass is regarded as the same consequence to the Japanese, as was Operation Pass in relation to Liao Yang. In case the Japanese push on from the south-east their operations will be among the hills.

Gen. Kuropatkin telegraphs that the Japanese have begun to cannonade the Russian positions at Gouli and on Alpha Pass. A dispatch from Gen. Kuropatkin, dated February 26th, says: "The enemy is continuing the offensive against the front of our Tsinchiketsch division and has turned both its flanks. The Japanese have also advanced against the Kaitai Pass, turning our left flank. But all his attacks on Tsinchiketsch have been repulsed. His offensive movement against Bompanche has also been repulsed. At some position our rifle forces and Japanese outposts to retire. Col Gorsky was severely wounded."

According to a Mukden despatch the Japanese on Sunday evening, crossed the Sha River but the place of crossing was eliminated by the censor. The advance was checked by Russian reinforcements. This is the most important Russian despatches to the west. Last night fighting is continuing on the Russian flank with indications that the Japanese are planning a general offensive. The Japanese believe their positions are impregnable.

### A Severe Blizzard.

Tokio, Feb. 28.—It is understood that a certain army has advanced considerably, rendering an action imminent though Marshal Oyama reports that a severe blizzard prevailed yesterday.

### Had To Retire.

Paris, Feb. 28.—A St. Petersburg despatch to the Parisian states that the Russian army has been repulsed in St. Petersburg, announcing that the Russians were forced to retire from Tsinchiketsch in the face of the overwhelming numerical superiority of the Japanese. Despatches to the Echo de Paris, from St. Petersburg, say that Gen. Linovitch's army made a precipitated retreat before a superior force.

### To Cut Off Vladivostok.

London, Feb. 28.—The St. Petersburg correspondent of the Times says that the Russian army has advanced considerably, rendering an action imminent though Marshal Oyama reports that a severe blizzard prevailed yesterday.

### Another Year Of War.

Tokio, Feb. 28.—In addressing a conference of the governors of the various provinces, Prime Minister Count Katsura declared that Japan was prepared to conduct the second year of the war without misgivings. The balance of the war was immensely in Japan's favor, Russia recognized this, but nevertheless, from the Russian point of view, it would be untimely for Russia yet to seek peace. Count Katsura asserted that Japan's resolution to prosecute the campaign with the utmost vigor and confidence was unchanged. Japan, he said, ought to exercise unflinching energy in demonstrating her staying powers before the eyes of other nations.

### Witness Disappears.

Belleisle, Ont., Feb. 28.—It is reported that J. P. Moore, one of the principal witnesses at the West Hastings ballot box trial in this city, has skipped out. Moore is the man who drove seventy-five miles to obtain a receipt from his sister for Moran Lott. It was suspected that he, while on that trip, sunk the bogus ballot boxes which went to Montreal in a lake, alongside which he travelled, but Moore, in the witness box denied any knowledge of the boxes at all.

### Arrivals of Vessels.

Special to the Whig. Montreal, Feb. 28.—The Allan line B.M.S. Sicilian, from Liverpool, arrived at Halifax at 7 a.m. today, detained off harbor eight hours by heavy weather. The Allan line steamship Carthaginian, from Glasgow, for Philadelphia, arrived at Halifax at 7 a.m. today.

For Coughs and colds, the old-fashioned household remedy gives instant relief. Sold at Gibson's Red Cross Drug Store.

### ADOPT RESOLUTION.

#### Regarding Readjustment of Union Agreement.

Victoria, B.C., Feb. 28.—The legislature by unanimous vote have adopted the following resolution regarding "better terms": Whereas the government of British Columbia have from time to time made representations to the government of Canada urging upon the latter a readjustment of the financial terms of the union and whereas such readjustment has not yet been granted by the government of Canada, and whereas the claims of the province are based upon permanent conditions peculiar to British Columbia and unlike this province, as distinguished from other provinces, to distinct and separate relief, be it therefore resolved, that in the opinion of this assembly the province is entitled to such distinct and separate relief from the Dominion of Canada, based upon an equitable consideration of conditions in the province, the large contribution made by the province to the Dominion by way of customs duty and otherwise, and the exceptionally high cost of government in the province and of the developments of its natural resources.

### A Warm Denial.

Ottawa, Feb. 28.—A protest by W. F. Maclean against an alleged intention to chastise Manitoba for abolishing separate schools and the suggestion that the friends of the premier expected him to grant remedial legislation for abolishing separate schools elicited from Sir. Wilfrid Laurier an emphatic denial in the Commons, yesterday.

### THE NEWS.

#### The Very Latest Culled From All Over The World.

Light Haymarket, who was shot in a row over cards, died in Toronto hospital.

Rev. Father Chisholm, D.D., parish priest of St. Joseph's North Sydney, N.S., is now lying in the bed of death.

There is talk of a general strike among the smelter men of British Columbia owing to the defeat of the eight-hour bill.

Thirteen persons were killed and upwards of fifty injured by the collision between the United States and the Methodist Episcopal church in Brooklyn.

Hon. George S. Boutwell, an ex-governor of Massachusetts, and once secretary of the United States treasury, died on Monday, aged eighty-seven.

The Manitoba government may, as a result of the refusal of its boundary demands, present a bill of rights to the Ottawa government and take a firm stand.

### We Are Told So.

A county applicant for the license, license inspection, was told that Mr. Whitney proposed removing all inspectors and giving license commissioners full control of the business. Each riding will be divided and will be under the conduct of one commissioner, thus creating a rivalry as to which shall conduct his section most efficiently. This plan will not apply to cities.

### Sudden Death Game.

The Marlboros Are Ready To Play Smith's Falls.

Special to the Whig. Toronto, Feb. 28.—The Marlboros, although of the opinion that the O. H.A. treated them rather shabbily in connection with the Smith's Falls embargo, have decided to meet the customers in a sudden death game, for the championship, at Peterboro, on Tuesday, March 7th, the date selected by the association. They will accept for the appointment of two umpires for the game.

### Ice Bridge Broken.

Morrisburg, Ont., Feb. 18.—The ice bridge is now a thing of the past. The increasing warmth of Old Sol and the rushing, irresistible water of the St. Lawrence, have done their work, and the international ice span between the two cities has disappeared. It was a matter of history, the Canadian channel in front of here is entirely free from ice for a considerable distance out. At one time it looked as if a large number of boat houses and possibly the water works house would be destroyed, but these buildings are now freed from their icy surroundings, and unharmed, except two boat houses, which were partly destroyed.

### Cut Off Two Licenses.

Special to the Whig. Brantford, Ont., Feb. 28.—The town council at a special session, last night, reduced the number of hotel licenses in this town from six to four.

The St. Lawrence Park Association is going into the hands of a receiver.

### ASON'S CRIME.

#### Said To Have Murdered His Mother.

### A CART WHEEL

#### PART OF IT WAS THE WEAPON USED.

Special to the Whig. Burlington, Ont., Feb. 28.—The inquest in the Doyle murder case opened at the court house last night. Some important developments were made. Felix Doyle, the murdered woman's son, who was in the box for three hours, admits he was not telling the truth when he stated he found his mother in the woodshed. He now says he found his mother lying on her bed with cuts in her head. An oak club was produced in court, which Doyle claims he found. It had blood on it. Doyle apparently was unable to give a clear account of this club, the inquest adjourned at 10:30 o'clock to meet again, this morning, at ten o'clock.

Detective Greer, yesterday afternoon, unearthed the weapon with which Mrs. Doyle was murdered. It is a part of a cart wheel, and was found in a pig shed. There are unmistakable traces of blood on it. Doyle admits that he buried the weapon after the crime, but he put it up on Friday, and concealed it in the shed.

A warrant is already out for the son's arrest and he will be taken in custody in the near future, Greer says.

"It is my opinion that the man is somewhat demented in his mind and is not responsible for his actions," Doyle's father, who claims he killed his mother in the woodshed where he subsequently found her. The robbery theory is exploded and it is shown by the great quantity of blood in the bed room that the man's death was committed there. Hence the entire story of Doyle is disproved.

### UTTER IMPOTENCY.

The Police Quite Unusual To The Task.

Special to the Whig. Toronto, Feb. 28.—The utter impotency of the police in the face of the terrorist organization is shown by the increasing boldness of the latter all over St. Petersburg. Even on the steps of the public buildings notices of the "Red Duke" were found, and they were nearly printed, a thing unknown in the days of the late Minister Von Plehve. To-day, Grand Duke Vladimir received a letter from one group which had previously warned him, saying his sentence was temporarily suspended.

Maxim Gorky, released from the fortress, yesterday on bail, was hurried to Riga, after he had been informed of the decision of Governor-General Trepoft that he could not reside in St. Petersburg.

### TURKS ARE DESERTING.

#### Forces Of Insurgents Constantly Increasing.

Constantinople, Feb. 28.—The insurrection in the province of Yemen, Arabia, is assuming alarming proportions. Almost the whole country south of Sana'a is in revolt, and the towns of Kataba and Taib have fallen into the hands of the insurgent Arabs whom the Russians are constantly increasing. Defective transport renders the dispatch of Turkish reinforcements most difficult. Great numbers of camels are perishing on the road while large numbers of troops are deserting.

### STRUCK IT RICH.

#### A Company Has Made A Big Strike.

Detroit, Mich., Feb. 28.—The Canadian Klondyke Placer Mining company, in which several prominent Detroiters are interested, is reported to have made a rich strike in its Klondyke property, but no definite information is given. The prospect is located about twenty-five miles from Dawson City, and on the river. It is said tests have shown as high as \$100 to the ton and the Detroit men are said to have struck it rich.

### Five Clubs Tied.

Carleton Place, Ont., Feb. 28.—The last match in the Lanark County Curling League was played at Smith's Falls, between Lanark and the Falls, and resulted in a win for the latter. This makes all the clubs in the league a tie now, at four wins and four losses each. The clubs are Almonte, Carleton Place, Lanark, Perth and Smith's Falls. How the championship will be decided is now being considered by the executive. The result is very unusual.

### The Soo Team Deducted.

Special to the Whig. Sault Ste. Marie, Ont., Feb. 28.—The Sault Ste. Marie team was defeated at Calumet, last night, in the International Hockey League series, by a score of six to three. The game was spirited throughout, and full of sensational plays, though team work was lacking, for the Calumets played remarkably fast and shot five of the local goals.

### Dutch Lines Intercepted.

London, Feb. 28.—A despatch from The Hague to the Daily Telegraph reports that Japanese cruisers intercepted two Dutch liners near Formosa on the allegation that they were carrying contraband of war.

Corvets, every description, ordered or ready-made. New York Dress Reform.

### HAS LONG FRONT.

#### The Weather Is Unfavorable Just Now.

Special to the Whig. Headquarters of General Kuroki, Feb. 27.—The Japanese army now holds a front extending from the Hun river to several miles east of Taitou. The weather took a sudden change to-day, becoming unfavorable for further operations.

The morning was cloudy, and the afternoon brought a driving storm of wind and snow, which was almost a blizzard.

To-night the weather is clear and cold with the wind abating.

### Two Conflicts May End War.

St. Petersburg, Feb. 28.—The report telegraphed here from New York that Japan has intimated to Secretary Hay terms upon which she is willing to make peace and that Mr. Hay has instructed Ambassador McCormick to convey the intimation to the Russian government has caused much interest here, following rumors current that Russia is willing to end the war substantially upon the same terms as those attributed to Japan.

The foreign office, however, declares that no such intimation has been received and furthermore professes itself extremely skeptical regarding the reliability of this report.

The foreign office also repeats the assurance that Russia's position is unchanged, intimating the purpose to wait the outcome of the impending action on the Sha River and a possible engagement between the fleets of Rojstvensky and Togo.

### Will Return Officers.

Washington, Feb. 28.—The announcement that the Russian government has directed the three naval officers who broke their parole and escaped from the Lena at San Francisco to return to that ship was received with gratification at the navy department, principally because Admiral McCalla will be relieved from the necessity of abridging the shore leaves of the Lena officers and crew in the future.

The state department is relieved from apologizing to Japan, for permitting a breach of neutrality.

### Are Very Meagre.

St. Petersburg, Feb. 28.—The fragmentary official and press reports of the fresh reverse sustained by Gen. Kuropatkin are inadequate to draw a conclusion of the magnitude of Gen. Kuroki's success against the Russian left, but the public, as is usual, to believe the worst. Should Kuroki cross the Hun river, the high road to the Passaietsch mountains of the Lena would be open and Kuropatkin's retreat threatened. Further news is awaited with great anxiety. Any such ill-desired Japanese victory now probably would end the war.

### The Losses Sustained.

Tokio, Feb. 28.—It is reported that when the Japanese attacked and defeated the Russians, on February 23rd at Tsinchiketsch, forty-five miles north of Simushu, on the extreme Japanese coast, the Russians sustained 17,000. The losses are estimated at 2,000. The Japanese losses were slight.
