In a recent letter to The Peruna Medicine Co., Miss Julia Marlowe of New York City, has the following to say of Peruna:

"I am glad to write my endorsement of the great remedy, Peruna, as a nerve tonic. I do so most heartily."—Julia Marlowe.

"Nervousness is very common among women. This condition is due to anemic conditions. The nerve centers are the reservoirs of nervous vitality. These centers become bloodless for want of proper nutrition. This is especially true in the spring season. Every spring a host of invalids are produced as the direct result of weak nerves.

This could be easily obliterated by the use of Peruna. Peruna strikes at the root of the difficulty by correcting the digestion. Digestion furnishes nutrition. \$10,000 forfeit if we cannot produce the original letter and signature of above testimonial which well demonstrates its full genuineness.

COMPANY IS LIABLE FOR ITS DESPATCHER HAD CONTROL OF TRAINS.

Confirmed the Judgment Granting Damages to the Widow of an Engineer—To Order the Purchase of Another Engine Concern.

Special to the Whig.

Montreal, March 1.—The court of review has confirmed the judgment of the court below granting \$3,000 damages to Mrs. Thomas H. Atkinson, whose son was killed at St. Madeline on September 16th, 1903. The Grand Trunk railway, in its review, against the judgment on the ground that the company was not responsible for the train on which the deceased was engineer, and that with which it collided, were inter-colonial trains, and therefore, the government was responsible. The court confirmed the view that as the Grand Trunk despatcher had charge of the movements of the trains the company was responsible.

A special general meeting of shareholders of the Bank of Montreal, is called for May 15th, at which time the stockholders will, if they deem it advisable, give the directors, the necessary authority to conclude the purchase of the Peoples' Bank of Halifax. According to the legal notice, the Bank of Montreal is offering to purchase the Peoples' Bank of Halifax, and to issue four hundred thousand dollars of capital stock, this being the amount required to make the purchase. In compliance with the agreement already arrived at.

THE LABOR SITUATION.

The Carpenter's Have Packed Their Kits.

The differences between employers and employees, have, to-day, assumed a more definite form, in one case the trouble having been amicably arranged and in another the non-agreement of the contractors to the terms of their employer's having resulted in the latter packing up their kits and laying off work until some settlement is reached.

The boss tinmiths and their employees met, last night, at the invitation of the carpenter, at the residence in the Trades and Labor Hall. Both parties were well represented at the meeting and the discussion which ensued was of a most interesting character and resulted in a compromise and settlement, both sides making some concessions. The employees' demand for an increase from \$1.75 to \$2.25 per day for the minimum was the main sticking point and hereafter some argument a settlement was made by halving the difference and fixing the minimum at \$2 per day. Some other changes of lesser importance were made at the wish of both sides and the result is that no further trouble is expected for this year, at least.

The carpenters' differences with their employers have, however, resulted in more serious conditions, as this morning, all union carpenters employed on different building and job works, ceased working on account of their employers failure to comply with the stipulated time. The men are demanding a \$2.50 wage for five nine hour days, with the same wage for eight hours work on Saturday. This last item is said to be the principal point with the employers and they refuse to pay a full day's pay for eight hours work. The carpenters' meet in their rooms to-night and the date of a meeting on Monday night so that it is expected that a joint meeting will be arranged early next week.

The masons have not yet reached a climax as the employees still have another month to sign the agreement submitted by the masons.

WENT INTO CANAL.

And the Engineer and Fireman Drowned.

Special to the Whig.

On the West Shore, a local passenger running between Utica and Albany, was ditched between Fort Plain and Canastota at eight o'clock this morning. The engine jumped the track and the coaches were derailed and went into the canal. The engineer and fireman are under the engine in several feet of water in the canal. The reports are that no passengers were killed, though several are said to be injured.

U. S. Steel Men Are at the "Goo".

Special to the Whig.

Sault Ste. Marie, Mich., April 1.—Vice-president James Cayley, and others of the United States Steel Corporation, are guests of Francis H. Clergue. They inspected the steel plant of the Lake Superior Corporation and also went through other big plants controlled by the same company. They are said to be talking to say that the visit was for business purposes, and remarked that he might have something to say later. It is thought, here, that the capitalists will interest themselves in the proposed coke industry. Clergue returned a few days ago from the east, where, it is said, he had been in conference with some of the capitalists. It is understood that further developments of this part of the country on a big scale is planned.

A FORCIBLE SPEECH.

LONGEY'S JUDGE TALKS OF ROUGH PLAY.

Thinks Customary Penalties of the Game Are Wholly Inadequate, and Violent Men Should Be Put Out.

OMAHA, April 1.—In opening the spring session Justice Tetzelt made references to roughness in sports. In addressing the grand jury he said that there was an important matter which he wished to bring to their notice regarding roughness in lacrosse, football and particularly hockey. The matter, he said, was brought prominently before him, as he had just presided at the trial in Cornwall of young Longey, who was arraigned for causing the death of an opposing player in a game at Maxville. The excitement of a game, his lordship said, was too frequently allowed to grow into passion, which resulted in players being injured, and in some instances killed. It would be a pity if such rough play should result in the sports being placed in the same class as cock and bull fights, which the law does not allow. His lordship regretted that it was necessary in Canada to make such remarks, and for the sake of Canada and the sports which are most deserving in building up fine physical manhood, he hoped there would be a change. The spectators, he said, were much to blame for giving their approval to acts of violence. Then, too, the usual penalties of expelling a man off for five or ten minutes for improper playing, were, he said, utterly inadequate. There should be some rule to provide that violent men should be put out of the game entirely.

SYRIANS ASK PROTECTION

Of Government in Hayti as American Citizens.

Special to the Whig.

Washington, D.C., April 1.—The law recently passed in Hayti requiring all Syrian traders to settle their affairs, cease trading, and leave the country, becomes effective today, according to advice from Port-au-Prince, and the consequences of its enforcement are awaited with considerable interest by the state department here owing to the fact that a number of Syrian and other business in the island claim American citizenship and have asked the protection of this government. When the state department is always keenly on the alert to protect this country's subjects, wherever they may be, it is the prevailing opinion that the most of the so-called American citizens among the Syrian residents of Hayti are in the matter of the action of Hayti in the matter the action of Hayti in barring the Syrians is considered but a natural result of the conditions that have existed there for some years. The Syrians are extremely obnoxious to the natives, as they have managed to establish a foothold in the retail business of the island and are reputed to be unscrupulous dealers and merciless creditors.

SHERIDAN'S ROOMMATE.

Col. Latimer, is Dead at His Home, in the Bronx.

Special to the Whig.

New York, April 1.—There has just passed away at his home in the Bronx, Col. A. E. Latimer, U.S.A., retired, once a room-mate of Gen. Phil Sheridan, and well known as a brave Indian fighter. Col. Latimer was born in South Carolina, and while attending the United States military academy at West Point was a classmate of Gen. Sheridan. Although a southerner, he joined the union army and served through the civil war. In the first battle of Bull Run his company, by heroic fighting, helped to save Burnside's battery from capture. After the civil war he served as a major of the fourth cavalry, and took part in some of the leading expeditions against the Indians of the North-West.
