the Steps of the Stock Exchange—The Dealers in Unlisted Stocks Have Been Told to Move and They Have Done

Montreal, April 5.- The curb market for stocks, which commenced basiness on the steps of the Stock Exchange building, on Monday, has been banished from its place of business by order of the management of the exchange. In consequence, the brokers have moved up St. Francis Xavier street to a place in front of the brokerage office adjoining the exchange. Bealers in unlisted stocks who carried on business for some time in a room of the exchange, sought the curb proper to escape a number of restrictions and outsiders were invited to take part in the dealings. This was frowned upon by a group of exchange members which has resulted as above, following a mee ing yesterday afternoon. There is considerable indignation among memhers of the exchange who are interested in the carb market.
