A young woman in New York wrote us that she had lost twenty-five pounds in four months and her lungs were seriously affected. She had to give up her position as a stenographer. Someone told her to try Scott's Emulsion. She took three bottles and gained fifteen pounds. Her general health was so improved that she resumed her work. Such cases are not the exception, but the rule. We have known persons to gain an average of a pound a day by taking an ounce of

It seems hardly possible, yet we have received thousands of letters telling of almost similar results. It's not so strange when one is familiar with Scott's Emulsion. It sets the digestion right and furnishes rich nourishment that is easily absorbed by the system. Good food does good when it can be digested. Scott's Emulsion is a food itself, but it helps other food do good and so the gains in flesh are made quickly and easily.
