went to a manufacturer and said. " nations must envy the Murata rifle, give you so much a piece for making them." The manufacturer immediately began to figure and decided that with a certain investment and special force, he could make the chairs and realize a good profit. So the jobber was advised that the chairs would be made according to instructions at the price

The jobber in turn having progres sive salesmen sold these chairs to the different retailers of the country and the retailers in turn sold them to different families in each community.

Things went well until one day on lot of these chairs was not satisfac tory and the customer of the retailer mose was born in 1858, and took not properly quarter-sawed and that the somewhat late age of twenty-six. the dealers made their sales good by repairing the chairs, while other retailers said, "Wait until I see jobber." When the jobber was consulted regarding "making good," on the After obtaining his degree he worked imperfect chairs, he said he could not for some months in the university la- as he had given no guarantee as to the quality of his goods when he sold them to the retailer; that the retailer explosives. He then entered the gov. had to take the chances; that he had ernment service, and after acting for no agreement with the manufacturer two years as chemist to the imperial as to a guarantee so that if he took back the chairs they would be a loss to him and that there was not suffi-

2. Say just what your count and plan is, without any "ifs" or 'ands" -make it plain. 3. Be sure to state whether or not you are taking MADAME. Counts must be accompanied by subscription. 50 cts. pays or six months subscription and one count. \$1.00 pays for me years subscription and three counts. If you have three counts entered you may enter additional counts at 25 cents each. You get \$50,00 extra if you have three counts and win.

Address all letters, Contest Dept.; FORD PUBLISHING CO.; Indianapolis, U. S. A.

Tittle, entitled When Shep-

herds Watched Their Flocks

THE DOTS The counting is perfectly free. Good counters can coin dots into dollars, The contest will not last long. Make hay while the sun shines. Thereas fun in counting and money besides. Of course, you know how to count. Any child can count. The

dots are puzzling because there are so many. That is why \$6,000 in prizes will be given away free to the best counters. The better you come and plan, the better your chances for getting one of the 757 prizes. The more counts you register the surer you are of winning one of the big free prizes. Anybody having three counts entered may enter additional counts at 25 cents

The list of prizes is large. They are worth working for. You have 757 chances. You are as likely as anybody to get first, but if you don't get first prize there are lots of other prizes worth having. It all depends upon you. If you can count and think up a good plan you are likely to win.

MY COUNT ON DOTS.

Building

Read the Following

Having purchased a first-class plant for manufacturing HOLLOW CON-CRETE BUILDING BLOCKS, I can quote prices which will enable you to build much cheaper than with Stone or Brick, and more handsome. The Blocks can be copied after natural stone. Here are a few advantages: The best material for the erection of Residences, Factories, Churches, Terrace Walls, Fences, Stables, Steps and Silos; the saving in cost of construction; such Buildings are fire and frost proof; Insurance is less than for any other style of building; they are warm in winter and cool in summer, and plastering may be done on the back of the stone, saving cost of lathing; the blocks can be moulded into the most elaborate designs; people in the country can build just as cheaply as in the city. I will be pleased to furnish you with all particulars as to prices.
