SEE THAT SIGN?

IT swings from over our shop now!
It means more comfort for you, better shoes, surer value, safer buying.

It is the symbol of the "Slater Shoe," and a duplicate of the trade-mark on the lining of each pair where the Makers' price is also branded.

"The Slater Shoe," is the only Canadian shoe made in a factory which makes no other grade, price, nor kind.

It is the result of specialism, of making but one thing at its very best, and at its lowest possible cost, quality considered.

This means selecting leathers, months ahead, so as to be sure of uniformly good grade.

It means hiring, and keeping, the best shoe workmen in the market, because, only a very good workman is quick enough on such critical work to get profitable results for us out of using our costly machinery.

It means charging against the salary of each workman any pair of shoes he makes which is not up to Inspectors' standard, so as to maintain uniform quality.

Then, the Makers' own price being stamped, with his trade-mark, on the lining of each shoe puts responsibility for the hidden wear, and comfort, directly upon the shoulders of the manufacturer.

When a genuine "Slater Shoe" goes wrong, you know that the Makers stand ready to make it good, up to the price they themselves valued it at.

Isn't this shoe-insurance of a tangible kind?

There isn't a shoe on this market with so much style combined with so much wear, comfort and fit, as the "Slater Shoe," which is stamped on the lining with the Makers' price, viz. \$3.50 or \$5.00. We want you to come in and see our new stock of "The Slater Shoe," and let us prove this statement.

The Slater Shoe

Slater Shoe

Sole Local Agent, F. G. LOCKETT.

IF YOU ARE Thinking of Building IT WILL PAY YOU TO Read the Following:

Having purchased a first-class plant for manufacturing HOLLOW CONCRETE BUILDING BLOCKS, I can quote prices which will enable you to build much cheaper than with Stone or Brick, and more handsome. The blocks can be copied after natural stone. Here are a few advantages: The best material for the erection of Residences, Churches, Terrace Walls, Fences, Stables, Steps and Sills; the saving in cost of construction; such buildings are fire and frost proof; Insurance is less than for any other style of building; they are warm in winter and cool in summer; and plastering may be done on the back of the stone, saving cost of lathing; the blocks can be moulded into the most elaborate designs; people in the country can build just as cheaply as in the city. I will be pleased to furnish you with all particulars as to prices.
