ANOTHER WONDERFUL CASE.

Here is Something That Will be Welcome News to Many a Discouraged One.

William H. Reed.

"For several years I have been troubled with gas around my heart, shortness of breath, in fact, if I walked my usual gait my breath would get so short I would be compelled to make severak stops during my walk."

"Of late my food did not digest properly. It turned sour in my stomach, causing me great distress; often, too, I had disagreeable attacks of belching gas and heartburn.

"I was bothered with severe pains across the small of my back and the least bending or turning would cause me to almost cry out.

"I was induced to try Dr. Leonhardt's Anti-Pill and from the very first found relief.

"For the last three months I have had no recurrence of my former complaints, so I am bound to say Anti-Pill has indeed cured me."

This is the voluntary statement of William H. Reed, of 165 Queen street, Kingston, Ont.

All druggists sell Anti-Pill. The Wilson-Fyle Co., Limited, Niagara Falls, Ont.

The remedy that cured such an extreme case is surely worth trying. 50c

For sale at "The Best Drug Store," L. T. Best, Chemist and Optician, 124 Princess Street.

RUPTURE

Sufferers will rejoice to learn that Medical Science has at last triumphed in producing a positive Cure for this agonizing and dangerous ailment. The results are astonishing the Medical Profession as well as all Ruptured. Cases that have defied human ingenuity have yielded in a short time. No operation, pain, danger, or time from work to be CURED. One of the many remarkable cures performed is that of Mr. Jno. Eves, 8 Market Square, Kingston, Ontario, whose portrait here appears. He was ruptured 13 years. To further introduce this wonderful cure Dr. W. S. Rice, 2½ East Queen Street (Block 562) Toronto, Ont., the Discoverer, will send a Trial, also his book "Can Rupture be Cured?" Write to-day—Sure—Now. FREE

Felt Weak and Nervous.

Had Faint and Dizzy Spells.

These symptoms arise from a weak condition of the heart and nerves. Wherever there are sickly people with weak hearts and deranged nerves,

MILBURN'S HEART AND NERVE PILLS

will be found an effectual remedy.

Through the medium of the nervous system, they impart a strengthening and restorative influence to every organ and tissue of the body.

They restore enfeebled, enervated, exhausted, devitalized, or overworked men and women to perfect constitutional power.

Miss Maggie L. Cleveland, Bayswater, N.S., tells how she was cured in the following words:—

"I was sick for the past year, and became thoroughly run down. I had faint and dizzy spells, and felt weak and nervous all the time. I tried numerous remedies, but could get no help. I then read in the paper about Milburn's Heart and Nerve Pills, and got a box of them. Before I had used one-half the box I began to get better, so got another one, and by the time the two were finished I was as well as ever."

Milburn's Heart and Nerve Pills, 50 cents per box, or 3 for $1.25. All dealers, or THE T. MILBURN CO., LIMITED, TORONTO, ONT.

UPHOLSTERING

Is not merely Stuffing, else any one could do it. We have the best skilled Upholsterers, our work stands, looks well, feels comfortable. Your Old Furniture can be made as Good as New at a moderate cost. Estimates given at your home.

FIND MISSING SON.

HEIR OF WEALTHY FAMILY DISAPPEARED.

Left Home a Dime Novel Hero, and Was Ashamed to Return—Joyous Reunion in Portland, Ore.

Battle Creek, Mich., May 8.—The romantic story of the solution of a lost boy mystery was made public last night. Alfred Shepard, of this city, son of the late David Shepard, at the head of the great threshing machine firm, of the Nichols & Shepard Co., lived twenty years ago in St. Joseph, Mich., and was a prominent man. One day, twenty years ago, his only child, Frederick David Shepard, aged sixteen, left the house to go down town, and was never again seen nor heard of. Hundreds of dollars were spent in a search for the son. Detectives were employed to assist in all cities.

The search was continued for years, until the parents finally gave up in the belief that the boy was dead. At that time St. Joseph was a tough town, on account of the many sailors in port, and the general belief was that the boy had been murdered.

Two weeks ago Shepard received a paper from Portland, Oregon, which contained a photo-engraving of a handsome young woman, under which appeared the words: "Bride of Fred. D. Shepard." The chief of police was telegraphed to and an immediate reply came that the son was living in that city, and was the proprietor of a hotel. Mr. and Mrs. Shepard took the first train to Portland. Last night they returned, rejoicing, for after twenty sorrowing years, they had met and embraced their long-lost son.

The story of the boy is that, reading of dime novels influenced him to run away to hunt Indians and become a cowboy. He had hard luck upon arriving in the west and shame prevented him from writing home. Finally, becoming weaned, he did not care to return home. Last October he was married to the daughter of a big ranch owner. A few weeks ago he told his story to his wife, and she, thinking it was not right that he should keep his whereabouts away from his parents, sent a marked paper to them.

IN GOOD CONDITION.

Sheep Must Be Well Cared for During Cold Weather.

The sheep must have been kept in good condition through the winter months, if you expect them to do well in summer. They should be kept free from ticks, as the ticks go from the sheep to the lambs and are injurious to them. They may be killed by dipping, or using insect powder through a small bellows. This quickly destroys them. During the lambing period, if one keeps the sheep close at home he will save lambs which otherwise might stray away, afterwards being disowned by the mothers.

Sheep do well on a clover sod, but in dry seasons will "eat it out"; but the best pasture for sheep is a June grass sod. If the sheep are kept in the woods, they keep the briers and shrubs down. Sheep should be salted regularly once a week.

When the lambs are young they should not be allowed to stand out in a cold rain, for it nearly kills them. When you commence feeding the lambs in the fall, do not put them on full feed at first or they will waste it. Clover hay, shelled corn and oats make a good feed for them.

Sheep are the nicest stock on the farm and if properly tended are profitable. You should be careful not to let your flock get old but sell off the old each year.

When you dock the lambs it is well to put some lard and turpentine on the wound to take the soreness out. As a rule if the lambs are thin and poor, they will not be good feeders, but if they are stout and healthy, they will prove profitable.

Dr. Williams' Pink Pills, if you take them buy them at Gibson's Red Cross drug store.

Joseph Chamberlain is suffering from a severe chill and was too indisposed to attend the reopening ceremony at Queen's College.

Brain Fag In Spring

Feelings of Discouragement and Despondency From Weak Blood—Cure in

Dr. Chase's Nerve Food.

Of all the blood supplied as nourishment to the human body one-fifth is consumed in the brain in the manufacture of nerve force, the vital power which is transmitted through the sympathetic nerve to the lungs, heart, kidneys, liver, bowels, etc., and which supplies the motive power to these organs.

In the spring when the blood is thin and watery and the nerve force becomes depleted, the ill-effects are often first felt in the brain.

The head aches. The mind is dull and listless. It is difficult to concentrate the thoughts. Feelings of gloom and discouragement come over you.

Energy and ambition seem to be all gone. You begin to look on the dark side of things. Your temper is easily irritated.

But enrich and purify the blood by the use of Dr. Chase's Nerve Food and you will soon find disease of body and mind disappearing.

The tired nerve centres of the brain receive new vitality from the new, rich blood, new nerve force is sent tingling along the delicate nerve fibres and every organ of the body responds to the new call to health and duty.

If you would avoid the ills and weaknesses of spring use Dr. Chase's Nerve Food, 50c. a box, at all dealers, or Edmanson, Bates & Co., Toronto, Portrait and signature of Dr. A. W. Chase on every box.

GOOD POINTS OF A HORSE.

Character Indicated By Eye-Look at the Ears Also.

What are the marks of a good serviceable horse, such as most people want to buy? "The chief points are the eye and the head, for whether on the score of safety or of pleasure in ownership, the essential thing is to have a horse that is intelligent and gentle, or one that is intelligent and vicious, rather than stupid, for stupid horses are the most dangerous of all. Every horse shows his character in his head, and chiefly in his eye, just as certainly as a man shows his character in his face, although, as in the case of men, it is not always easy to read what is written in the equine features. But as to horses of positive character, positively good or positively bad, there need be no mistake. I once bought a mare off a dealer, for a woman's use, without even taking her out of the stable. She seemed to be sound and I felt sure from her eyes that she was unusually gentle and safe, and so she proved to be. On the other hand, out of six or eight horses shown to me at a sale stable on another occasion, I rejected one—the best one of the lot otherwise—because his eye, though not absolutely bad, was such as to arouse suspicion; and the owner afterwards admitted to me that the animal was different from the rest in being a little 'mean.'

"I mention these instances to show that any person of average intelligence can learn by taking pains to read the equine character. Horse dealers and trainers seldom make a study of this matter, because they do not care about it. What you should look for is a large clear, luminous eye; what you should distrust is a small eye, that shows the white, glancing backward, which indicates bad temper, and above all, a glassy, tremulous eye, which indicates stupidity. It is hard to describe, but easily recognized. There should be a considerable space between the eyes. The ears and the carriage of them are hardly less significant. Well cut ears that move continually with a general tendency to be pricted forward indicates a good and lively disposition.

STERILIZED BARBER SHOP.

A Famous Shop in the Carrollton Hotel, Baltimore, Maryland.

The barber shop in the Carrollton hotel, Baltimore, sterilizes everything it uses in the shop. The sterilizing is done by heat. The towels, the razors, the strops, the soap, the combs and brushes are all sterilized before being used on a customer. Where there is no sterilization, have the barber use Newbro's Herpicides. It kills the dandruff germ, and it is an antiseptic for the scalp, and for the face after shaving. All leading barbers everywhere appreciate these potent facts about Herpicide and they use it. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to the Herpicide Co., Detroit, Mich. G. W. Mahood, special agent.

Union Officials Wrathy.

Chicago, May 8.—As a result of the actions of four laborers, fully 1,900 workmen have been thrown out of employment at Kedsie avenue and Taylor streets, where a model co-operative industrial establishment is being built at a cost of several million dollars. The officials of the unions to which the men belong are strongly against the walk-out, and most of them will demand that the entire force return to work or face trial boards. The well diggers or caisson-workers were being paid but forty-five cents an hour, whereas it was said the price should be fifty cents.

Merchantmen Now Cruisers.

Victoria, B.C., May 8.—The steamer Iyo Maru (Capt. Thompson) from Yokohama, has arrived. Three shipmasters, who have lost their steamers, which were seized when carrying contraband, by the Japanese, brought news that in all seven fine merchant steamers belonging to the American European lines of the Nippon Yusen Kaisha and Toyo Kisen Kaisha have been converted into cruisers and dispatched to join Togo.

Was Deeply Affected.

Woodstock, Ont., March 8.—At the funeral of the late Hon. James Sutherland, during the religious services Sir Wilfrid Laurier was a pathetic figure. Sitting close by the remains of his departed colleague, he sobbed piteously, while the clergymen read the impressive ritual for the dead, and spoke in praise of Mr. Sutherland's splendid qualities of head and heart.

British Cruiser Offered Help.

Hong Kong, May 8.—A 4,600-ton caisson, specially constructed to raise the French armored cruiser Sully, sunk in Allong Bay, Tonquin, in February, was launched here, and will leave immediately for Saigon. The commander of the British armored cruiser Nogue offered services in towing the caisson.

Murders Two With One Shot.

Sharon, Pa., May 8.—Inflamed with jealous rage, John Soreski shot and killed Mrs. John Seech and her ten-year-old nephew, Frank Rocci, and then turned the weapon on himself, inflicting a fatal wound. The bullet which caused the woman's death, passed entirely through the body and killed the boy.

Special Arrangements.

Toronto, May 8.—Special arrangements have been made by the G.N.W. Telegraph company, for direct wires between Winnipeg, Toronto and Montreal in order to facilitate the rapidly increasing business to all points in Eastern Canada.

Wash greasy dishes, pots or pans with Lever's Dry Soap, a powder. It will remove the grease with the greatest ease.

Roderick McRae, arrested at the Central Prison a few days ago on the completion of a term, was re-sentenced for two years for theft and jail breaking at Barrie, Ont.

Dr. L. Pickering was thrown from his buggy in front of the Toronto city hall, on Saturday, and sustained a broken leg. His horse slipped on the wet pavement.

Blue Jay Corn Plasters are sold at Gibson's.

We Will Buy

A 50c. Bottle of Liquozone and Give it to You to Try.

We want you to know about Liquozone, and the product itself can tell you more than we. So we ask you to let us buy you a bottle—a full-size bottle—to try. Let it prove that it does what medicine cannot do. See what a tonic it is. Learn that it does kill germs. Then you will use it always, as we do, and as millions of others do.

This offer itself should convince you that Liquozone does as we claim. We would certainly not buy a bottle and give it to you if there was any doubt of results. You want those results; you want to be well and to keep well. And you can't do that—nobody can—without Liquozone.

We Paid $100,000

For the American rights to Liquozone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquozone destroys the cause of any germ disease.

Liquozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a Liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you.

Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of $1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetal matter.

There lies the great value of Liquozone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end and forever. That is inevitable.

Asthma	Hay Fever—Influenza
Abscess—Anæmia	Kidney Diseases
Bronchitis	La Grippe
Blood Poison	Leucorrhœa
Bright's Disease	Liver Troubles
Bowel Troubles	Malaria—Neuralgia
Coughs—Colds	Many Heart Troubles
Consumption	Nose—Pneumonia
Colic—Croup	Pleurisy—Quinsy
Constipation	Rheumatism
Catarrh—Cancer	Scrofula—Syphilis
Dysentery—Diarrhœa	Skin Diseases
Dandruff—Dropsy	Stomach Troubles
Dyspepsia	Throat Troubles
Eczema—Erysipelas	Tuberculosis
Fevers—Gall Stones	Tumors—Ulcers
Goitre—Gout	Varicocele
Gonorrhœa—Ghost	Women's Diseases

All diseases that begin with fever—all inflammation—all catarrh—all contagious diseases—all the results of impure or poisoned blood.

In nervous debility Liquozone acts as a vitalizer, accomplishing what no drugs can do.

50c. Bottle Free.

If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquozone is, and what it can do. In justice to yourself, please, accept it to-day, for it places you under no obligation whatever.

Liquozone costs 50c. and $1.

CUT OUT THIS COUPON

for this offer may not appear again. Fill out the blanks and mail it to The Liquozone Company, 58-364 Wabash Ave., Chicago.

SORRY SO MANY LEFT.

Prof. Osler's Speech to McGill and Other Canadians.

New York, May 6.—"Don't work your professors so hard, but give them a little more chance to think," was the advice of Dr. William Osler to the American universities in his speech as the guest of honor at the tenth annual dinner of the new graduates' society of McGill University, Thursday evening, at the Hotel Imperial, says the Times.

The most significant part of his response to the toast drunk in his honor grew out of the remark that although McGill had grown to a first-class college, it is not a university.

He continued: "To produce a great university you must have a sort of leisure class within the institution. A man who works six or eight or ten hours a day teaching and lecturing can do no great amount of original thinking. It would be a good thing if our American universities followed the example set by such institutions in Germany and England by not working their professors quite so hard and instead giving them a little more time to think."

Turning to his hearers as Canadians as well as McGill men, he asked what use there could be in talking about an American annexation of Canada, seeing how much of what is good here in America is being annexed by the dominion.

"But there is one thing I must say to you in connection with this," he resumed. "I really think it a shame that so many of you have crossed the border. Seriously speaking, I do wish that a greater number of you would stay at home. And, in particular, I must urge you not to bring the Canadian girls here."

Dr. Osler was introduced by Dr. H. N. Vineberg, president of the society, who acted as toastmaster. Among those present were the Right Rev. Frederick Courtney, former Bishop of Nova Scotia; the Rev. Arthur Judge, president of the British Schools and Universities Club; Wallace Downey, president of the Canadian Society of New York; Dr. Rankin, of the Queen's University (Kingston, Ont.) Graduate Society; and R. Anderson, of the Toronto University Club.

Moth Destroyer.

Nothing better than Cedar Camphor costs 20c. per lb. McLeod's Drug Store

Mrs. A. C. McCallum, Lanark, has sold her beautiful home to C. Forbes, and will go to Carleton Place to reside.

Kemptville is to appoint a commission to manage town parks.

Drugless Cure For Catarrh

It Soothes, Cleanses and Heals the Diseased Membranes by Medicated Air—Never Fails.

Catarrhozone is a rational treatment; it goes right to the seat of the trouble; it's sure to cure because it destroys the cause of catarrh. In no case will it fail.

No one who inhales Catarrhozone can possibly suffer from catarrh. The antiseptic vapor of Catarrhozone gives swift relief to the inflammation and congestion caused by the catarrh germ. The air passages are cleansed and healed, mucous discharges are subdued, coughing and sniffeling stop at once.

No Person Can Keep Catarrh Who Inhales CATARRHOZONE

"Mr. Lawrence Kennedy of New West Annan, N.S., says:—For three years my catarrh grew worse and worse. I got no relief till I used Catarrhozone. It was not very long in curing me so perfectly that the disease has never returned."

It is impossible to select a remedy that cures so thoroughly as Catarrhozone. Its merits have been proved to the satisfaction of more than twenty thousand physicians in United States and Canada that prescribe it regularly.

In five minutes Catarrhozone relieves, in one day it cures mild cases. No medicine—just medicated air. Harmless and very pleasant. Permanent cure for the most chronic cases guaranteed. Two months' treatment, price $1.00; sample size, 25c.; at all dealers or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

The Canadian North-West.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion Lands in Manitoba or the North-West Territories, (excepting 8 and 26), which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one-quarter section of 160 acres, more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the Local Agent for the District in which the land is situated, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry, lands the provisions of this act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead the requirements of this act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this act as to residence may be satisfied by residence upon the said land. The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township. A settler who avails himself of the provisions of Clauses (2), (3), or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced. The privilege of a second entry is restricted by law to those settlers only who commenced the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1889. Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent, the settler must give six months' notice in writing to the commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-West Territories, information as to the lands that are open for entry, and from the officers in charge free of expenses, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba; or to any of the Dominion Lands Agents in Manitoba or the North-West Territories.

W. W. CORY, Deputy Minister of the Interior.

N.B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.
