country folk still make "cramp rings" forged out of nails on which suicides gouty people and deemed singularly ef-

in Lancashire for the cure of rheuma tism. In Durham a cord round the Among the peasantry of Roxburg shire women who are nursing babies wear around their necks small cords of blue wool. These are never removed By taking this precaution they imagine that they insure good health both to themselves and their offspring during that critical period. The cords are handed down from mother to

daughter, and are esteemed in proportion to their antiquity. In Suffolk to prevent nose-bleeding people wear a skein of scarlet thread around the neck, tied with nine knots down the front. If the patient is a man, it is essential that the thread be put on and the knots tied by a woman, while if the patient is a woman then these services must be rendered

n folk medicine have for their object the transference of the disease from the patient to one of the lower animals. For example, in Devonshire and in Scotland alike, when a child has whooping cough, some hair is cut from its head, put between slices of bread and butter and given to a dog. Then if the latter in eating it should coughas naturally he will—the complaint will be transferred to the animal and the

common for a young frog to be held for In Cumberland and throughout the north of England generally a live fish is substituted for the frog. Sometimes trees take the place animals. Thus a certain old oak at Berkhamstead was long famous for

the cure of ague. The transference wes simple, but painful. A lock of hair was pegged into the wood, and then by a sudden wrench transferred from the The Welsh peasantry cure toothache by scarifying the gums with an iron
