**RELATING TO MARINE**  
**THE CITY HAS NO CLAIM FOR SALVAGE.**

On the Steamer Scout—Opinion of Capt. Thomas Donnelly—Fire Brigade Cannot Constitute a Marine Salvage Corps.

In connection with the proposal of the fire and light committee upon the government for salvage on the steamer Scout, Capt. Thomas Donnelly, who is recognized as one of the foremost marine authorities in Canada, was asked for an opinion. He was emphatic in declaring that the city had no claim for salvage, and, furthermore, said that it was very bad taste for any alderman to suggest such a thing in view of the fact that Kingston has benefited very materially in the past two years through the steamer Scout being rebuilt here and in this port being made its district stopping place.

Discussing the salvage claim, Capt. Donnelly stated that no fire brigade could be constituted as a marine salvage corps. A fire brigade's duty is to protect the property within the limit of its jurisdiction, and that was all the fire brigade did when it fought the fire on the steamer Scout and protected surrounding property from danger. In determining salvage, there are a number of points to be considered, chief of which are: (1.) What work was done, and (2.) What risk was run? Regarding the first point, Capt. Donnelly points out that the fire brigade's duty was to extinguish the fire on the vessel saved. There would have been very little more trouble about pumping out the Scout had she sunk outside the wharf than in the slip. Capt. Donnelly said he did not depreciate the work of the fire brigade, which did excellent work, and would do doubt be remembered by the marine department, but he could see no sense in a proposal of a civic committee to ask the government for salvage because the brigade simply did its duty. The city was not a salvor under the principles of marine law. One of these principles is that if property is not benefited by the exertions of salvors, they cannot claim any compensation. In the present case, owing to circumstances, the steamer Scout was not benefited to any extent by the fire brigade.

**Movements of Vessels.**  
The schooner Yvonne cleared from Booth's wharf for Oswego.  
At Swift's wharf: Steamer Rideau King, down, this evening.  
At Craig's wharf: Steamer Alexandria, up, last night; steamer Persia, down, tonight.  
The schooner Clara Youell was expected to clear from Swift's for Charlotte this evening.  
The steamer Rosedale is due, on Monday, at Richardson's elevator, from Fort William.  
Capt. John Ryan left this morning for the east. He has been engaged to take charge of a tug down the river.  
Richardson's elevator: Steamer Myles, from Fort William, with 40,000 bushels of wheat, will clear up tonight.  
Crawford's wharf: Schooner Annandale cleared for Oswego; steamship Westport from Rideau canal ports with merchandise.  
The steamer Aleo, of Perth, is here for inspection. She towed a new raft from Newboro to Garden Island for the Calvia company.  
The heavy fog last evening made navigation dangerous. The steamer Alexandria lay off Craig's wharf for an hour before she could make a landing.  
The steamer Nicaragua, of the Ogdensburg Coal and Towing company, is aground in the mud off Galoup cove. The steamer has 2,000 tons of coal for Montreal from Oswego.  
W. H. Nichols' steam yacht Nikomis has been drydocked at Alexandria Bay, N.Y., and will be rebuilt. She is made fifteen feet longer with steel strapping the entire length. When completed, she will be one of the finest yachts plying the river.  
The propeller Cuba, bound up ran ashore on Friday at Long Point, off Prince Edward county coast. She is heavily laden and has a good passenger list. The steamer Bonny, with lighter pumps and men, went up during the night to the steamer's relief.

**FOR VICTORIA DAY.**  
**THE PROGRAMME ARRANGEMENTS ALL MADE.**

The Only Thing to Settle is Where the Military Review Will be—The Citizens Subscriptions Amount to About \$800.

Arrangements for the Victoria Day celebration are about completed. The only thing that is undecided is the place of the military review, but it is altogether likely which affords a fine parade ground. The day's programme will begin at half-past nine o'clock in the morning, when the aquatic sports will take place in the harbor. From here will consist of three classes, 2.35, 2.30 and 2.50, and a number of good outside trotters are coming. Mounted military sports will be put on by the R.C.F.A., and a balloon ascension will take place, this latter being an additional feature. The evening of the sports, committee met and decided to arrange with the Gananoque baseball team to meet the Orientals at the fair grounds. It is understood that Gananoque will have a good aggregation. The Orientals may use two or three of the old Pony team.

There have been three bands engaged, the 14th, P. W. O. Rifles, the Gananoque and the Deseronto Citizens'. The latter two will furnish music after 6.30 o'clock in the morning, and also be at the fair grounds in the afternoon with the 14th. The amount subscriptions from citizens now totals about \$800, nearly \$200 more than in previous years. If fine weather favors the day, the celebration committee will certainly have a surplus.

The only visiting organization from across the border will be the Watertown Oddfellows' Canton, which will bring a large following. There will be excursions from all Northern New York state hotels, and the president of this district on the C. T. R., K. & P. R. and B. of Q. railway.

**DID GOOD WORK.**  
Another Prize Winner From Frontenac.

It is with very great pride we refer to the success of old Kingstonians in the country across the line, but few, if any, have achieved more for the short time that he has been a resident of the United States than Dr. W. A. Jacquot, a graduate of Queen's University, who has just received his degree, Dr. Jacquot left for Chicago, and arrived there in the midst of a pouring rain, without a single acquaintance in the city. He began a general practice and for some years has been successful. He is now president of the Chicago Medical Examiners' Association for the last two years. Dr. Jacquot's many friends in Kingston and Frontenac will be pleased to know that within the last week he has been appointed to a very important position in the head office of the Prudential Life Insurance company of Newark, N.J., as medical referee. This position brings with it great responsibility and emolument. The ref. joins with his many friends in wishing him very great success in his future position.

**Will Not Accept Offers.**  
From present appearances, there is no prospect whatever of having the street cars running for Victoria day, a fact which is regretted. The present controllers of the road have had of from different sources by parties who are willing to speculate a considerable amount on the undertaking but no hopes are held out for the acceptance of these offers.

**NO SUBSTITUTE**  
has yet been found for cod liver oil. There are so-called extracts, wines and cordials of cod liver oil that are said to contain the active principles but not the oil itself. This is absurd on its face. You might as well extract the active principles of wheat and make bread with them. The best form of cod liver oil, that can be digested and assimilated most easily, is Scott's Emulsion.

Scott's Emulsion is a simple food. Scott & Bown's Emulsion, Toronto, Ont.

**Y.M.C.A. Sunday Notes.**  
The morning watch will be observed Sunday morning at 7 o'clock. Any one of our friends desirous of joining us may consider himself earnestly invited. Interest in the work of the Y.M.C.A. is increasing. We shall hold an evangelistic Bible class at that hour. Come and take up the course of study with us. Every man is welcome.

**Mrs. Britton's Estate.**  
Justice Britton has filed for probate the will of his late wife, Mrs. Mary Eliza Britton. Her estate is valued at \$29,332.12. She had \$2,000 in furniture and household goods, \$8,525 in real estate, and \$1,000 in the Agricultural Savings company, and Central Canada Loan company, and \$807.12 in cash, a \$10,000 legacy from the estate of Hon. L. H. Halton, and \$7,000 in real estate, corner Sydenham and Park street, Kingston. His lordship is the sole executor and beneficiary.

**Form a Junior League.**  
With the opening of the ball season, many teams of more or less playing ability are being organized. It has been suggested that a junior league be formed, similar to that in hockey and if some capable persons were to engineer the scheme it would doubtless prove a success. Such a league would educate the younger generation and at the same time result in a "home brew" team, which would prove a credit to the city. It is to be hoped that the matter will receive the careful consideration and good support.

**Was a Great Success.**  
The benefit concert at Sunbury, on Thursday evening, for the widow of the late William Dobbs, who met such a tragic death several weeks ago, was a great success both in point of numbers and excellence of programme. Those who volunteered their services to the worthy cause, several of whom were from the city, put on a first-class entertainment, which was much enjoyed. The hall was crowded to the doors, many people driving out from the city to attend. The proceeds amounted to something over \$75.

**To Have a Meeting.**  
The presbytery of Kingston will hold a meeting in Chalmers church, Kingston, on Tuesday, 16th inst., for examination and licensing of candidates for the ministry at 2 p.m., and for ordination of ministers in the afternoon to mission fields in the same place in the evening. The committee on examination of students will meet the candidates at 10 a.m. in the same place that day.

**ONLY TWO APPLIED.**  
Kingston Ladies Not Desirous of Learning to Swim.

At the earnest solicitation of the Y.W.C.A., whose interest in the welfare of the young women of Kingston is commendable, and whose efforts to make it possible for them to learn the useful art of swimming is praiseworthy, arranged with the Y.M.C.A. directors to have a special course in swimming conducted in that building. The Y.W.C.A. authorities readily complied with the wishes of the Y.W.C.A. and offered to provide an instructor, have the water in the swimming tank warmed to a suitable degree, and set apart the bathing apartments when required by the ladies, for the modest fee of \$1, barely sufficient to cover the expenses involved. The course was advertised, and everybody expected there would be a ready response by those anxious to take advantage of so favorable an opportunity to learn swimming. Keep was the disappointment, however, of all concerned. There was not a rush of applicants, and those in charge of the entry books were not required to work overtime recording the names of applicants. Only two young ladies showed sufficient interest as to desire to enter the class.

**Saved The Baby.**  
"I was not a believer in advertised medicines," says Mrs. Chas. Van Tassel, Digby, N.S., "until I began using Baby's Own Tablets. When my first baby was born we never hoped to raise her. She was weakly, did not have any flesh on her bones, and a bluish color. The doctor who attended her told me she would not live. After reading what other mothers said about Baby's Own Tablets I decided to try them, and I must now honestly say I never had such a valuable medicine in my home. It has changed my poor, sickly, fleshless baby into a lovely child, now as fat as a butter ball. Words fail to express my thanks for what the Tablets have done for my mother and I can only urge that other mothers do as I do now, keep the Tablets in the house always." Baby's Own Tablets positively cure all the minor ills of babyhood and childhood, and the mother has a guarantee that they contain no opiate or harmful drug. Sold by all druggists or sent by mail at 25c. a box by writing the Dr. Williams' Medicine Co., Brockville, Ont.

Miss Lydia Herziger, Grand Record can Daughters of Independents, Neenah, Wis., as follows:

"I have used Peruna now for four Springs and Fall, and it keeps me good and strong."

"I am able to continue working, have to take a three months' rest, do every year. This is a great cure, as I was not able to afford such a long rest."

"I find that it is a great preventive and cures and soon rids the system of all ailments. I can honestly endorse it."—Lydia Herziger.

**Spring Catarrh.**

Almost every one has come to believe that spring is a season that brings rages of the body dependent blood impurities.

This belief is an old one, is nearly universal, and has arisen, not as the result of the teachings of the medical faculty, but has been learned in the little school of experience.

**Nervous Depression.**

Depression of the nervous system, the approach of spring is a fertile soil of blood impurities.

There are general lassitude, dull, heavy sensations, continual tired feelings, irregular appetite, and sometimes loss of sleep.

**That Tired Feeling.**

That tired feeling, which is the normal result of the depressing effect warm weather immediately after invigorating cold of winter, quickly disappears when Peruna is taken.

**MILITARY MATTERS**  
NEWS OF INTEREST TO THE GARRISON.

Suggestion for New Work for the 14th Regiment—Practical Work in Camp—Garrison Church Parade at Early Date.

If the headquarters staff of military district No. 3 is further increased, additional accommodation must be provided in the armories, Kingston. The newly formed staff now occupy the entire second floor of the south wing, and have none too much room. Major Caruthers, commanding signal corps, has taken possession of the room formerly occupied by the band of the 4th Regiment, while Col. Young and Williams each have an office, in addition to those occupied by Col. Gordon, D. O. C., and the staff clerks. An additional staff clerk is necessary owing to the increased work.

The benefits derived by city corps from the use of rifle ranges are shown in the case of Ottawa, which send four men to Biele's this year. Tired was when Kingston men also figured on Biele's teams, but that time is only a recollection now, borne in mind by the older inhabitants. Though the Limestone City is one of the most important military centres in Canada, it does not receive that justice in the militia headquarters that is its due. For years the need of a rifle range has been pointed out, and many suitable sites brought to the notice of the heads of the force, but no apparent notice has been taken of the claims of the local corps. Kingston garrison embraces about 1,000 troops and year in and out, three men have been allowed to drift on without the most requisite of all military training—the practice. It would be a difficult matter the world over to find a parallel case, and the wonder is that officers of local corps have not expressed their dissatisfaction.
