 The facts are these: The  
 resale firm of MacIntyre,  
 & Co., of Montreal, the  
 leading wholesale importers of  
 Dress Materials into  
 Canada, just received from the  
 office a small case of  
 Novelty Dress Pat-  
 terns for spring wear, but ow-  
 ing to their late arrival, the  
 resale trade for this season  
 being over, the firm de-  
 cided to face a loss rather than  
 to them over for another  
 season. We secured one-  
 half of the case at about one-  
 third price.

**"WOULD HAVE DIED  
 BUT FOR CUTICURA"**

"When my little boy was three  
 months old his head broke out with a  
 rash, which was very itchy and ran  
 considerable watery fluid. We tried  
 everything we could, but he got worse  
 all the time till it spread to his arms,  
 legs, and then to his entire body, and  
 he came near dying. It itched so he  
 would scratch till the blood ran, and  
 a thin yellowish stuff would be all  
 over his pillow in the morning. I had  
 to put mittens on his hands to keep  
 him from tearing his skin. He got so  
 weak he took fainting spells, and we  
 would think him dying. He was  
 almost a skeleton and his little hands  
 were thin like claws.  
 "He was had about eight months  
 when we tried Cuticura. I had not  
 had him down in his cradle in the  
 daytime for a long time. He had got  
 so that he just slept in our arms all  
 the time.  
 "I washed him with Cuticura Soap  
 and put on one application of Cuti-  
 cura Ointment and he was so soothed  
 that I put him in the cradle. You  
 don't know how glad I was when he  
 felt better. It took one box of Cuti-  
 cura Ointment, one cake of Cuticura  
 Soap, and about half a bottle of Cuti-  
 cura Resolvent, to cure. I think he  
 would have died only for the Cuticura.  
 —Mrs. M. C. Maitland, Jasper, Ont."

No return in 12 years: Mrs. Mait-  
 land writes, under date of Feb. 24,  
 1902: "It affords me pleasure to say  
 that it is fourteen years since my boy  
 was cured of the terrible skin disease.  
 He has been permanently cured and  
 is hearty and strong."

**HAS BEEN INCARCERATED IN  
 47 COUNTRIES.**

Notwithstanding the Number of  
 Times He Has Been Arrested  
 He Has Never Been Convicted  
 —British System of Prisons  
 Best in the World.  
 Chicago Tribune.  
 A wealthy tramp, alias Frenz Rod, alias  
 Brake Rod, alias Cinders, alias Globe-  
 Trotting Ted, the tramp who has  
 been arrested in more countries than  
 any man on earth, is back in Chi-  
 cago.  
 Kishman, who has carved his name  
 on railway stations all over the  
 world, has established a record of being  
 incarcerated for vagrancy in the  
 jails or prisons of forty-seven differ-  
 ent countries. He has lost count of  
 the number of times that he has been  
 arrested, but declares he has viewed  
 over 1,400 different prisons from the  
 viewpoint of the man inside. He has  
 looked through the bars into the  
 cities of the world, and claims a re-  
 cord of having travelled over 223,455  
 miles without paying a cent of rail-  
 road fare.  
 He boasts that the only railroad  
 fare he ever paid was from Hot  
 Springs, Ark., to Malvern Junction,  
 approximately thirty-five miles when  
 he was too ill to attempt to beat  
 that road. And he figures that he had  
 paid first-class fare for all the rid-  
 ing he has done, he would have spent  
 \$573,858.

The man who has kept over half a  
 million dollars out of the pockets of  
 shareholders in railways is a small,  
 little bronzed man, probably forty-  
 three years of age. He was born in  
 Clinton county, O., near Wilmington,  
 and ran away from home at the age  
 of fifteen. He has visited practically  
 every country on the globe and every  
 district of the United States since  
 then, and once came within three  
 miles of his home, which he saw  
 through a blur of cinders while rid-  
 ing on the rods of a through express  
 train.  
 During his career of twenty-eight  
 years as a bum and his remarkable  
 record of arrests, Texas Ted has  
 never been convicted of a crime and  
 only twice charged with crimes, and  
 those times only because he was  
 gathered in by the police drag nets  
 after some great robbery or murder  
 when apprehended. He is now worth  
 over \$50,000, and is owner of a great  
 tract of farm land near Highland,  
 in Clinton county, O., which was left  
 him by relatives who died, and he  
 could be independently wealthy if he  
 chose to go home, but he refuses, and  
 declares he will die on the road.

Kishman's work on jails is one  
 of extreme interest, and it is strange  
 that he declares the best prison sys-  
 tem and the ideal prison from all  
 points is the new municipal prison at  
 Bangkok, Siam, where he spent three  
 weeks, against his will. For cleanli-  
 ness, good management, and reform-  
 atory effect he believes the Siamese  
 lead the world—at least in this one  
 prison.  
 He declares the United States pos-  
 sesses, as a class, the best and the  
 worst prisons in the world. He cites  
 the Cook county, Ill., jail as a model  
 in the United States, and the muni-  
 cipal prison at Frankfort, Ky., and  
 the calaboses at Hillsboro, O., and  
 at Lesner, Minn., and Waveross, Ga.,  
 as among the worst in which he has  
 been locked up.  
 His comments on the lack of sys-  
 tem, the brutality, the fearful results  
 of partisan political control of Amer-  
 ican prisons are scathing, and he  
 lays the evils of American prisons to

**A REMARKABLE STORY**  
 Woman Tells of Her Fourteen  
 Years of Suffering.  
 From Buffalo, N. Y., comes a start-  
 ling story illustrating how much suffer-  
 ing a woman can bear and yet live.  
 Mrs. H. J. Rehorn, 189 Landon street,  
 of that city, says:  
 "Soon after the birth of my first  
 child, fourteen years ago, constipation  
 became troublesome, and the various  
 pills and medicines I used would  
 give temporary relief, but gradually  
 they seemed to lose their influence and  
 the condition became worse. I must  
 have used fifty different remedies.  
 "At times I would have no relief  
 for food, and what I did eat would  
 distress my stomach. Gas would form  
 and rise, headache and restless sleep,  
 bearing-down pain, backache, and  
 gradually I began to recognize the  
 loss of strength, easily tired, and never  
 feeling fully rested.  
 "My husband brought me home a  
 bottle of a new medicine called Anti-  
 Pills and from the first I began to im-  
 prove. My appetite was better and  
 what ate did not make me feel un-  
 comfortable. Anti-Pill is mild and  
 gentle in its action, and yet it cured  
 my terribly obstinate constipation and  
 made me feel so well."  
 Every Druggist sells this wonderful  
 Anti-Pill that cured Mrs. Rehorn. 501

two causes—first, politics; second,  
 ignorance.  
 "The British system," says the  
 champion tramp, "is one of the best  
 in the world, and the prison adminis-  
 tration is undoubtedly the best. The  
 public works system means hard and  
 healthy labor. The cell system exist-  
 but, mostly the men work together,  
 in brick yards, on farms, or other  
 public works. I had the honor (and  
 Great Britain the benefit) of serv-  
 ing two months at Dover, helping build a  
 line of forts to protect England as a  
 result of having been accused of  
 carrying. It was there that I learned  
 quarrying and stone-cutting, which  
 added one more trade to the twenty-  
 three that I have learned in prisons.  
 The men get the credit for exactly  
 what they do—they are paid, really,  
 in lessening the sentences, and I  
 earned thirty days out of a ninety-  
 day sentence by working hard.  
 "Perhaps the worst and most wick-  
 ed jail system in the world—taken as

**CORMEN DE FAYA.**  
 Who is now delighting London, is said to be the most graceful of Spanish dancers. She has won praise from the German emperor, and it is reported, also has touched the heart of the young Spanish king. She recently danced at Berlin before the Kaiser, who gave her a pair of diamond earrings. Senorita De Faya is only 19 years of age.

a whole—I found in Portugal. Like  
 any self-respecting tramp I hate to  
 beg. In most of the countries of the  
 world the beggar is locked up to pro-  
 tect the public from him. I have, of  
 course, seen thousands of thousands of  
 meals without working for them, but  
 I am not a beggar. In Portugal, the  
 system of imprisonment makes beg-  
 gars. The prisoners, no matter what  
 the charge against them, are thrown  
 into the common room, usually fac-  
 ing the market place. I was in jail  
 at Oporto, Braga, and Setubal, and  
 in each prison we faced the crowded  
 market place, standing behind bars  
 and visible to the entire population.  
 We stood at the bars and begged for  
 food from the market, else we  
 should have starved, for the prison  
 keepers furnish nothing in the way  
 of food for those awaiting trial. "The  
 Portuguese system makes beggars of  
 all prisoners," besides hardening all  
 prisoners and manufacturing criminals  
 rapidly.  
 "Mexico has advanced wonderfully  
 in the last fifteen years. When I first  
 visited Mexico I had the honor to be  
 arrested in Mexico City, and thrown  
 into a dirty, overcrowded, disease rid-  
 den hole, where all prisoners, most of

or force their friends to pay him  
 heavy toll. The scene amused me, and,  
 calling through the bars, I commen-  
 ced to bid against them. The fun of  
 the situation was good to me, but  
 they didn't see it, and they got mad-  
 der and madder as I ran up the price.  
 Finally they all quit bidding and I  
 was made jailer for one year, being  
 forced to pay about \$200 in gold—  
 French gold—for the position.  
 "They turned the keys over to me,  
 and for several weeks I ran the prison,  
 releasing three of my nine companions  
 and holding the other six. I got tired  
 of the job and gave it to an old col-  
 licker on the next corner, who I was  
 sure, would treat the prisoners de-  
 cently."

France, according to Brake Rod, is  
 a bad place for tramps, and the pri-  
 sons are extremely cruel places of con-  
 finement. Most of the prisoners, he  
 says, hope to escape the noisome  
 places even at the expense of being  
 deported to the convict colony of  
 New Caledonia. Germany he declares  
 one of the best prison countries in the  
 world—each prisoner of over three  
 months being forced to learn a trade.  
 Switzerland, too, he praises for its  
 prison system, and Denmark he de-  
 clares one of the most advanced coun-  
 tries in the world in treatment of  
 prisoners. The contract system is  
 frowned upon there, and the prisoners  
 work for the government on public  
 works, occupying comfortable rooms.  
 Before trial the prisoners are accord-  
 ed every possible courtesy and liberty,  
 being really presumed innocent, and  
 the treatment being made as mild as  
 possible.

Among the countries in which the  
 champion tramp has been arrested are  
 Cuba, Iceland, Sweden, Algiers, Tur-  
 key, Austria, China, Japan, Ceylon,  
 Bosnia, Cape Colony, Portuguese  
 East Africa, French Congo, Greece,  
 Ireland, Denmark, Holland, and New  
 South Wales.

**Old Glass.**

The manufacture of glass is one of  
 the oldest arts known, and one that  
 has always been of immense com-  
 mercial importance. So long as fifteen  
 hundred years before the Christian  
 era, N. Hudson Moore writes in the  
 June Bellator, glass was made by the  
 Egyptians, and nineteen centuries  
 ago the records state that the price  
 of a drinking glass was half an as-  
 the value of an as being about one  
 cent—which goes to show that there  
 was no glass trust in Egypt. That  
 the price of glass, however, has under-  
 gone some remarkable changes may  
 be gathered from an anecdote related  
 by St. Simon, who says that the  
 Comtesse de Finsque, having a trou-  
 blesome estate that produced only  
 corn, sold it and bought a handsome  
 mirror with the proceeds of the sale.  
 This glass, costly as it was, Mrs.  
 Moore adds, was exceeded by at least  
 one other, which was valued at \$30,  
 000 in gold—the famous mirror of  
 Queen Marie de Medicis that hangs in  
 the Louvre at Paris. Old glass has a  
 peculiar fascination for collectors,  
 and the article mentioned, which is  
 one in a series called "The Collector's  
 Manual," is written especially for the  
 benefit of the untrained collecting in-  
 stinct.

**A Broad Statement.**

This announcement is made without  
 any qualifications. Hem-Roid is the  
 one preparation in the world that  
 guarantees it.  
 Dr. Leonard's Hem-Roid will cure  
 any case of Piles. It is in the form of  
 a tablet.  
 It is the only Pile remedy used in-  
 ternally.  
 It is impossible to cure an establish-  
 ed case of Piles with ointments, sup-  
 positories, injections, or outward ap-  
 plications.  
 A guarantee is issued with every  
 package of Dr. Leonard's Hem-Roid,  
 which contains a money's worth of  
 medicine, and talk to your druggist about it.

**Live Stock in South Africa.**

In a letter addressed to F. W. Hod-  
 son, live stock commissioner, dated  
 Bloemfontein, South Africa, P. J.  
 MacMillan, chief experimental farmer  
 and live stock division for the Orange  
 River Colony, writes:  
 "All of the stock received from Can-  
 ada last year has done well, with the  
 exception of the Clydesdale stallion,  
 which we were so unfortunate as to  
 lose some time ago. The Yorkshires  
 have proved particularly prolific, and  
 as a result we have a large number of  
 young animals for distribution.  
 "This colony is, first and foremost, a  
 live stock country, especially for sheep  
 and cattle. In sheep, Merinos are  
 much preferred. Of the cattle breeds  
 Holsteins, Devons and Shorthorns are  
 in favor, and also a South African  
 type called the Africana. The smaller  
 live breeds are objected to on the  
 ground that they do not produce truck  
 oten."

**A Good Suggestion.**

C. B. Wainwright of Lemon City,  
 Fla., has written the manufacturers  
 that much better results are obtained  
 from the use of Chamberlain's Colic,  
 Cholera and Diarrhoea Remedy in cases  
 of pains in the stomach, colic and  
 cholera morbus by taking it in wa-  
 ter as hot as can be drunk. That when  
 taken in this way the effect is double  
 in rapidity. "It seems to get at the  
 ground that they do not produce truck  
 oten."

**When Indigestion  
 Grips You**  
 It is not merely "something you ate" at the last meal  
 —it is weakness in the stomach. A pain is Nature's  
 danger signal that something is wrong. Indigestion is the  
 stomach's way of telling you that it can't or won't work.  
 NOW is the time to take FRUIT-A-TIVES.  
 These fruit tablets rest the stomach—bring out a  
 copious flow of gastric juice at meal times—and make the  
 stomach and intestines digest everything you eat.  
 You know that Fruit-a-tives are doing you good—because there is  
 no more pain—no more sour stomach—no belching gas. Fruit-a-tives  
 keep the stomach clean and healthy—and ready to digest any sensible  
 meal you eat while the constipation is entirely cured by their use.  
 \*Fruit-a-tives are most valuable in the home. We have used  
 two boxes and are today getting a third, which tells our opinion of  
 their merit. I find them especially good for the children, pleasant  
 to take and very cleansing in their action."  
 Mrs. F. M. MORRISH, Calgary, Alberta.  
 Fruit-a-tives are pure fruit juices in tablet form. They act gently on  
 all the organs of digestion—strengthen, invigorate, and cure. If there is  
 anything wrong with stomach or bowels, cure yourself with
