HOOVERS YET.

About The Shores Of Indo-China With Fleet.

A LARGE PORTION

OF BALTIC FLEET STILL AT HANKOW BAY.

Nebogatoff in Charge of Information Squadron—Formosa, Under Martial Law—Scheme to Cut Cables—Hurricanes in Manchuria.

Special to the Whig. Hong Kong, May 15.—The British steamer, Edendale, which arrived here yesterday, reports that she passed Hapko Bay at six o'clock last Wednesday evening, and saw a large part of the Baltic fleet ten miles off shore, apparently making for the bay. A torpedo boat destroyer headed the fleet, and among the vessels was a hospital ship, the steamer Derwent, which left Saigon, last Tuesday, reports that one Russian volunteer vessel, and two transports were loading there. The hospital ship, Kogkoma, of the third Russian squadron, was also at Saigon. The Derwent passed Hapko Bay at five o'clock on Wednesday evening. She saw thirty-five vessels of the Baltic fleet about twelve miles off the bay. The fleet apparently had stopped, and was waiting for night-fall.

Hovers Round Indo-China.

Tokyo, May 15.—Admiral Rojestvensky is reported to be still hovering in the Indo-China coast. It is stated that part of his fleet remains at Vanlong Bay, while some of the vessels are at the island of Hainan. It is apparently known certainly that seven battleships, seven cruisers and other vessels were at Hapko Bay on Friday, but whether they were communicating with the shore, or whether they were inside the territorial limit, cannot be learned.

A despatch from Saigon says that a steamer from Turan, sighted, on May 12th, fourteen transports, escorted by two Russian warships south of Hainan Island. The Russians subsequently anchored in Yulin Bay. The steamer later passed the Russian squadron steaming north at moderate speed.

Contraband Of War.

Saigon, May 15.—The British steamer Carlisle, has arrived and anchored in the river. Her captain declared that her cargo was a commercial one, Governor Roderie ordered that she be inspected, and a quantity of war stores was revealed. The steamer is being held. A gunboat is watching the Carlisle, it is said, is under charter of the Russian government.

Scheme To Cut Cables.

London, May 15.—A despatch from Shanghai states that the steamer Wu-chang, which was reported to have been chartered by the Japanese, witnessed the coming naval battle, but which was supposed to be controlled by Russian agents, has sailed in ballast. She has been re-named the Cecille, and flies the German flag. She has on board a German reporter and a cable expert. It is rumored that the steamer is connected with a scheme to cut the cables south of Japan. A Japanese cruiser has been sent to overhaul her.

Formosa Under Martial Law.

Tokyo, May 15.—A proclamation of martial law and a state of siege throughout the island of Formosa became effective yesterday.

Hurricane Prevails.

Galgayyana, Manchuria, May 5.—As before the bay of Mukden, the Japanese are apparently endeavoring to roll back the Russian left, which, as then, is pushed far southward. The Russians advancing in three columns are driving in the Japanese. They reached the bay of Mukden, but since then they have been subjected to a constantly increasing pressure and fierce night attacks. The Japanese in the centre have withdrawn a little to the line at Machante, and Madipai, three miles south of Changtu station. During the past three days a heavy hurricane, more violent than that during the Mukden battle, has prevailed. The temperature is uncomfortably warm and the air is full of dust.

His Command Shifted.

St. Petersburg, May 15.—Since the arrival in the China Sea of Rear Admiral Nebogatoff, his command is believed to have ceased to exist as a separate division. The fleet is now divided into three squadrons. Vice Admiral Volkerman, who is second in rank to Admiral Rojestvensky, being in command of the battleships, and Admiral Enquist in command of heavy cruiser squadron. Nebogatoff has been placed in charge of an information squadron of scouts and converted merchantmen.

A Tempest In A Teapot.

Tokyo, May 15th.—A committee of the constitutional party called on Premier Katsuma and discussed the French neutrality incident. The premier assured the committee that the government was exerting its best effort in behalf of the country and explained the various steps taken. The committee reported to the organization later and expressed satisfaction. From the statements contained in the yellow book it is reasonable to infer that Great Britain has given Japan to understand that she does

not care to rush into a war with France. After all the incident was "only a tempest in a teapot."

Surprised The Powers.

St. Petersburg, May 15.—The danger of serious complications over the question of French neutrality is regarded as over for the present. All through there has been a disposition to make allowance for the vexation and irritation manifested by Japan in the desire to safeguard her interests at a moment when the future of the war is staked upon the issue of the coming naval battle. Nevertheless, her willingness to assume a menacing attitude towards France upon the strength of the British alliance is regarded as being an eye-opener for the powers. Despite the provocative tone of the British press, however, the British government used its influence at Tokio in a pacific direction.

READY FOR WAR.

Special Knowledge Acquired But is Being Kept Secret. London, May 15.—In a speech at Harnsworth, Hants, Arthur Lee, civil lord of the admiralty, took occasion to reply in an indirect way to the recent criticisms of the English navy. He said that never in the past 100 years had England's navy been so strong and so well prepared for war as at the present time.

As a result of recent reforms introduced by the admiralty, he added, the effective strength of the navy had been practically doubled.

The naval reforms recently introduced were the result of the changed conditions of naval power throughout the world and lessons learned in the Russo-Japanese war. What those lessons were he would not say, because England had been in a favorable position for gaining information and did not intend that other powers should share the special knowledge acquired.

A JAPANESE TRANSPORT.

With 1,800 Tons of Provisions Blown Up. Chofoo, May 15.—A merchant vessel which has arrived loads confirmation to the report that the Japanese transport Sheyutsu, with 1,800 tons of provisions, bound for Newchwang, struck a mine on May 4th, near the Miao Islands. The entire aft part of the transport was blown away. The Sheyutsu signalled the merchantmen that she was in distress, but refused aid when she ascertained that the merchantman was a Chinese ship.

Making Fast Time.

Special to the Whig. Toronto, May 15.—The summer time table of the Michigan Central railway took effect yesterday, and the "Wolverine," a new fast passenger train from Detroit to New York, did not start until 10.15 a.m. The train's regular running time from Detroit to Buffalo averages nearly a mile a minute. Yesterday she ran from Windsor to St. Thomas, 111 miles, in 105 minutes. Between Ridgeway and Toronto, 82.50, third prize, A. Mackellar, Komoka, and Mr. E. Hazlett, Chatham, \$250, divided equally. Fourth prize, C. McKenick, Winnipeg, \$250.

Guessing Competition.

Special to the Whig. Toronto, May 15.—The result of the guessing competition in connection with the Dominion election held on November 3rd, 1904, is officially announced. The total vote polled was 1,030,186. First prize, John H. Moorehouse, Montreal; estimate 1,030,220; prize \$2,500. Second prize, E. Gegg, Toronto, \$250. Third prize, A. Mackellar, Komoka, and Mr. E. Hazlett, Chatham, \$250, divided equally. Fourth prize, C. McKenick, Winnipeg, \$250.

Killed By Lightning.

Danville, Va., May 15.—In a severe storm, lightning struck a tree in the yard of James Lovelace, who lives on the corner of Lincoln and Michigan, near Mr. Swann's residence, followed a roar to the house and felled the house. Ada, the eight-year-old daughter of Mr. Lovelace, was killed and the lightning badly burned and stunned another child and severely shocked and burned Calvin Groom, father-in-law of Mr. Lovelace, who lives with him.

Ancient Jewelry Found.

Rome, May 15.—Excavations near Pompeii have resulted in the finding of a hoard of ancient jewelry, including gold bracelets of beautiful design set with emeralds, a pair of large Oriental pearl earrings, two golden necklaces set with pearls and emeralds and two emerald rings.

Matilda Buettgen, twenty-one years old, and Charles Henderson, seventeen, were drowned in Lake Michigan, on Sunday, off Lincoln Park, Chicago, by the capsizing of a yacht. Edward Bodmer and Daniel Meheiser, were rescued.

Charles Casey, a business agent of the Carriage & Wagon Workers' Union, Chicago, has made a written confession that Charles J. Carleton, who died some weeks ago, was fatally beaten by men employed by the union.

Unless compromise are offered by all the opposing interests in the teamsters' strike now in progress in Chicago, the strike will spread greatly during the next forty-eight hours.

Following the policy of trying to improve the condition of the Poles, Emperor Nicholas has sanctioned a law permitting them to purchase land in the kingdom of Poland.

Police Sergeant James Higgins, Erie, in service twenty-two years, was murdered Sunday morning while arresting a burglar who was coming out of the Central school building.

Colonel E. A. Rookwood, one of Buffalo's leading citizens and a man of military experience, died Sunday. He was sixty-six years of age.

Miss Thoinis Horton, Horton, Okla., homo, was to have been married to the late Herbert Croker, in Oklahoma, in two weeks.

SERIOUS TROUBLE.

Men at Nevski Ship Yards Out in Body. Special to the Whig. St. Petersburg, May 15.—There was a serious disturbance this afternoon at the Nevski shipyard. The Chevalier guards have just left their barracks for the scene. The men at the shipyard walked out in a body, carrying red flags, and singing revolutionary songs. So far as ascertained the troops have not fired on the workmen.

Leaving Only A Bluff.

Tokyo, May 15.—It is definitely known that Rojestvensky, after temporarily leaving Hapko Bay, May 8th, re-entered the bay, and continues at anchor there.

Singapore, May 15.—Thirteen warships were sighted on May 12th, off Cape Yarell, about fifty miles north of Kamrah Bay.

Baron Rosen For Peace.

London, May 15.—The Daily Telegraph correspondents says Baron Rosen, formerly Russian minister to Japan, who has been appointed to succeed Count Cassini, as ambassador to the United States, openly belongs to the peace party, and will assist President Roosevelt in his efforts for peace. He was aware of Japan's preparedness for war, but was unable to stay his government's hands.

DRIVEN FROM HIS LAIR.

Soldiers Wreck Hiding Place by Use of Explosive. Paris, May 15.—The siege of the house in the village of Useaux, Department of Deux-Sevres, which an outlaw, heavily armed, held in defiance of the authorities, was brought to a conclusion on Sunday, when a lieutenant of engineers placed a charge of melinite against the wall. The soldiers, forming a cordon, withdrew to a safe distance. The bugles were sounded and the melinite was exploded, destroying half the building.

Then the gendarmes rushed in, only to find that the outlaw had escaped. In the meantime a commotion was occasioned by the outlaw's appearance and tried to lynch the man, but the gendarmes, with difficulty rescued and conveyed him to the hospital in a serious condition. The prisoner was formerly a game-keeper and is charged with shooting and wounding his late employer.

KILLED AT DESERONTO.

He Was Engaged at Work on Dump Cars. Special to the Whig. Deseronto, May 15.—
