Look at Chown's Window

A movement is spreading through Wake's for the recognition of St. David's Day as a public holiday.

THE WHIG—72nd YEAR

THE DAILY BRITISH WHIG is published every evening at 200 King Street, Kingston, Ont., at six p.m. per year, payable in advance.

Advertisements for one line, six lines and over—first insertion 15c., each subsequent insertion 10c. Measurements by a solid steel, twelve lines to the inch.

Deaths, Births or Deaths, one in column, 50c; two insertions, 75c. Weddings, Loss and Found, Personal Articles for sale, etc., 25c. per word. Daily issues, minimum charge, 25c.; three insertions, 50c.

Notices in reading columns are subject to special charges. All charges for advertisements and subscriptions are due and payable in advance.

Contracts for a special space are made for long terms for mercantile announcements, but notices of help wanted for sale, to let, partnerships, tenders or anything beyond actual announcement of goods or manufactures for sale are excluded from these contracts.

In case an advertiser becomes insolvent before expiry of a contract the advertiser shall remain liable for the amount of the contract, but the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

The publisher will not be responsible for misreading of verbal orders. Written directions should be placed on all copy for insertion. All advertisements are subject to the approval of the publisher.

In case of errors or omissions in legal or any other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

THE WEEKLY BRITISH WHIG, 12 pages, 84 columns, is published in two editions, one each on Monday and Thursday mornings at \$1 a year, if paid in advance; otherwise, \$1.50 per year.

Attached to the paper is one of the best Job Offices in Canada, printing all kinds of work; also improvement of the British Whig Publishing Co., Limited, EDW. J. B. PENNE, Managing Director

THE DAILY WHIG. "Opiter pro Orbem Dicor."

Avoidance Of Disease.

The old rag and metal business has received a distinct blow by the action of the municipal committee in the legislature. It has adopted a bill, unanimously, and to the effect that rags, bottles, and other refuse, cannot be collected and stored within the city limits without the sanction of the health officer.

Aiding The Labour Men.

The workmen of London are being again appealed to as against Mr. Hyman. It will not do. The liberals of London will understand that Mr. Hyman is just as thoughtful of the labour element as his opponent, and more so.

Question Of Investment.

The Glasgow municipal government undertook the working of corporation tramways in 1894. It proposed to take the company's equipment at a fair valuation, but the company insisted on its right to run opposition omnibuses, and the corporation was obliged to provide the entire equipment of the trucks. The credit balance at the end of the year was over \$100,000.

Spirit Of The Press.

A Long-Felt Want. A Cleveland genius claims to have designed a street car that will provide women passengers from getting off backward. The car must run the other way.

Strength Of Unionism.

The strength of unionism lies not in force, but in the public sympathy. Destroy that, and make the union an outlaw, and its usefulness will become a thing of the past.

No Outing For "Shep."

The Saturday Night man flattered Hon. G. W. Ross and Ross sent him on a charming trip to Mexico. Now the same chap is flattered Mr. Whitney, but we don't think he'll get another enjoyable outing at the expense of the Ontario government.

Three Applications Of Peck's Corn

Three applications of Peck's Corn salve will cure hard or soft corns, 15c. at Wad's drug store. Advertise your wants in the Whig.

Christian Science.

The decision in the Toronto case, in which four Christian Scientists were on trial for unlawfully conspiring together, to the injury and death of one Goodfellow, has attracted general attention.

The defendants were the mother of the deceased, and three friends, all believing in mental treatment, present and absent, in dealing with ailments of the body. Goodfellow had typhoid fever, and going to the home of his mother (and leaving his own) was practically held there and submitted to the attentions of the Christian Scientists.

She was allowed only passing glimpses of him, and was not permitted to dictate how he should be cared for in his distress. The man himself does not seem to have realized his danger. He moved about the house, and sat things that were hurtful to him in his condition. Dr. Carveth was called in, but not until Goodfellow was dying. This doctor and Dr. Johnson were of the opinion that had the man been properly treated he would be living today.

The trial of the defendants did not concern their faith, but the agreement into which they seem to have entered to keep out the doctors. Their offence lay in preventing the sufferer from receiving the medical treatment which his case demanded, and which in all probability would have saved his life. Judgment has been deferred pending a reserve case, and an argument before the full court. The jury said the defendants were "guilty of conspiracy," and the maximum punishment is seven years' imprisonment.

Editorial Notes. As soon as the legislature is over the election protests will be disposed of, and some of them will go without such ceremony.

The Montreal Herald protests against the waste of time, and consequent waste of money, in parliament. The members are talking to Hansard, and it is a very expensive process.

Gooderham, of Toronto, left an estate of nine millions, and it is stipulated in the will that the various enterprises of the deceased shall continue for ten years before there will be a division of the estate.

The Windsor Record pleads for less running on the streets by the girls, the young ones, in the evenings. The same plea could be urged here and in every town and city. Street gauding is bad for the morals of the people.

Firman Atcheson, Hamilton, had \$1.75 struck off his pay for absence from duty while he attended the funeral of his father, the great fire chief. That is about the smallest thing on record. It is not creditable to the ambitious city.

Mr. Rhodes, manager of the Wabigoon Gold Rock trading company, was in town last week on business. Mr. Rhodes expects a large increase in business this summer on account of the opening of new mines in the Manitowish and Gold Rock districts. Visitors during the past week were: Mr. James, Raleigh, and Mrs. D. Green, Dymont, at the home of Mrs. Cragie; E. Brant, Fort William, and L. Olson, Raleigh, at Mr. Nelson's.

BRYAN IN THE PULPIT.

Tells Congregation His Idea of Real Religion. Lincoln, Neb., May 18.—W. J. Bryan made his debut as a preacher on Sunday, filling the pulpit at the Normal Methodist church at the morning services. A very large crowd was in attendance. He took up the sermon on the Mount, with his text as the words: "Blessed are the pure in heart, for they shall see God."

He declared his belief that religion consisted more in kindness to and consideration for fellow men, more in charity for others and in personal purity than in dogma, ceremony or creed. He deplored the tendency to cardify the scriptures, and the rejection of parts of it because one couldn't understand. He declared that he found daily more mysteries in life than were found up within the covers of the Bible. He believed a higher wisdom lay in accepting the good we understand, and hope for understanding later of that we don't.

He insisted that no man could command respect unless he possessed an ideal, nor could he be of real value to the world so long as selfishness and low conceptions of his duty—to himself and others dominated his life and conduct.

ATTACKED BY ROBBERS.

Fatally Wounded by Natives in the Soudan. Chicago, May 18.—Word of the death of Lester C. Winterton, as the result of a night attack by native robbers at Wady Halfa, in the Soudan, has been received by his friends in Chicago. Winterton headed a prospecting party which started from London several months ago for the Soudan. On the night of March 18th Winterton and an assistant named Bowden were asleep in their tent when two native thieves entered and attacked them with axes. Winterton and Bowden fought desperately, but were knocked senseless. The thieves then ransacked the house for gold, and, failing to discover any, fled. Bowden recovered, but Winterton, whose injuries were by far more serious, died on April 11th. He was thirty-six years old.

Society is agitated in New York because Winifred May Cavanagh, aged twenty, has sued Willis B. Van Vleet for \$10,000 for breach of promise of marriage. She has a babe of sickly letters to lay before the public.

A REMARKABLE WILL

LEFT \$75,000 TO THOSE IN DEBT TO HIM.

Had to Pay Six Per Cent—And in Return Were Remembered in This Fashion by Mr. Coultard.

It is not often that a man's death is received with joy, but such was the case on Friday night, when a telegram reached Amberley announcing the death of John Coultard of Kippin. The good news of his death was received in Huron, Ashfield and Kincardine, with a certain amount of pleasure, by those persons who were interested in his demise. The late John Coultard had a history, and to chronicle the story in a brief manner, we might say that many years ago the deceased, who was a bachelor, taught school at Lochdale, and also owned a farm, loaned money, and was looked upon as a rich man. He had a nephew in the old country to whom he sent money to pay his passage to Canada. The nephew retained the money and refused to leave his native land. Coultard then made a vow, that none of his relatives should receive a dollar of his wealth. For the past thirty-five years he has loaned from \$50,000 to \$75,000, on condition that the rate of six per cent be paid as long as he lived, and when he died the dowry of the property was to be given to those who had money borrowed from him, and when he died the dowry of the property was to be given to those who had money borrowed from him, and when he died the dowry of the property was to be given to those who had money borrowed from him.

His friend Spurgeon expressed his own views on this subject well. He said: "When a man begins to whittle away at the truths set forth in the Word of God, and whittles away until there isn't enough to make soup to keep a grasshopper alive, he is practicing the higher criticism. Get you gone with such men. They have no place as teachers of the Lord Jesus Christ."

OFFENSIVE STORAGE.

Rags and Bones to Be Corralled. The municipal committee of the legislature on Tuesday passed an amendment to the health act, providing that "rags, bones and other foul refuse" shall not be stored in any dwelling, and only in suitable buildings approved by the medical health officer, both as to condition and situation. This proposal was unanimously and strongly sustained. But a proposal from Toronto to have such storage buildings fully one hundred feet from a street or a dwelling was defeated, though Toronto property holders have suffered greatly in property values by storages near better class dwellings. It was pointed out that cities had already the power to select an area within which such storages shall not take place. Lately London increased such area.

Dr. Jesop (St. Catherine's) wanted a more stringent law, one which would also give the municipality power over the storage of old iron and other wreckage in the city. If the member would take a run into Kingston, past the dreadful landscape between Prince and the roundhouse on the branch railway, he would count St. Catharines a paradise to view. The bad impression it gives travellers is carried for a lifetime. A merchant, the other day, told how when he came to the city to become a resident he received cold chills at the tumble-down and disreputable borders of the city. He feared he had made a mistake in coming here. Kingston is looked down upon too freely throughout Canada. Is it not largely our fault, because of our untidiness and lack of regard for comfort and impressing of visitors? Are we not, because of our lack of spirit, our own worst enemies?

THE PRICE OF BEEF.

Advanced to 7c. a Pound in United States—How to Beat the "Beef Trust." Telegraphic advices confirm the reports that beef has advanced from four to seven cents a pound. As this will affect the prices of all meats and provisions, it directly touches the pocket of all people, and they begin to ask, "Can we get along on less meat?" You certainly can.

Beef is classed as one of the "nitrogenous foods." The "strenuous life" in variable climates calls for a certain amount of nitrogenous food. But the whole wheat grain is also rich in nitrogen. The nitrates and phosphates are mostly in the outer coats of the wheat kernel. These are largely discarded in the making of white flour. In the making of the shrunken whole wheat products, the nitrates as well as the phosphates of the whole wheat grain are preserved in their most digestible form. Shredded wheat is a better "nitrogenous food" than beef. It is more nourishing and wholesome than beef and not so hard on the kidneys and liver. We all need some meat, but we all eat too much. Shredded wheat is a muscle-maker and tissue-builder, and a tryer, and you can get it of any grocer.

Eve Of The Millennium.

Atlanta Constitution. "Now we have the 'fireless cook stove.' When we evolve to the foodless meal and the clothesless clothing, we'll not worry so much about the relation of the trusts to the costs of living."

Chamberlain's Cough Remedy the Very Best.

"I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says George T. Chubb, a merchant of Harlan, Mich. There is no question about its being the best as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by all druggists.

A woman who said she was Carlotta, widow of Maximilian, former emperor of Mexico and brother of Emperor Francis Joseph of Austria, is declared to have swindled Boston Tailors out of \$10,000 on the strength of her supposed claim to be an Austrian throne.

IT IS A CALANITY.

Rev. Dr. Cuyler Defends the Bible. Brooklyn, May 18.—The Episcopal congress, in progress in the Association hall, has developed a theological sensation of interest to all denominations.

In an address, Rev. Dr. John Peter declared the first book in the Bible—Genesis—to be nothing more than a collection of myths. He said Abraham, Isaac and Jacob were imaginary personages idealized, who never existed in the flesh.

Many of Dr. Peters' fellow clergymen hearkened to his remarks, and when they had opportunity to speak they contradicted most emphatically the positions taken by Dr. Peters. But the real outburst of indignation came when the venerable and venerated Dr. Theodore L. Cuyler, whose head is white with the snows of nearly eighty winters, gave expression in the newspapers to his views of Dr. Peters and all his clan. Said Dr. Cuyler:

"I consider it nothing less than a calanity that such views should be publicly expressed."

"Jesus Christ Himself, taught openly that Abraham, Isaac and Jacob were real, living men."

"But the most disgusting and humiliating thing of all is that these men in the garb of Christian ministers of the gospel get up and say 'I am sorry I have to say so, but I have to tell you that Abraham was a myth and that putting Daniel in the lions' den is an allegory.'"

My friend Spurgeon expressed his own views on this subject well. He said: "When a man begins to whittle away at the truths set forth in the Word of God, and whittles away until there isn't enough to make soup to keep a grasshopper alive, he is practicing the higher criticism. Get you gone with such men. They have no place as teachers of the Lord Jesus Christ."

OPENING GOLD MINES.

Splendid Prospects for Development of Gold Fields. Tache, Ont., May 13.—E. Palmer, C.P.R. agent, attended the telegraphers meeting in Fort William, Sunday. A number of citizens drove to the beautiful falls, on the Swan river, five miles south of Dymont, last week for a day's outing. An enjoyable time was spent, fishing, boating, etc. Luncheon was served in the open air. T. Scott Campbell and D. L. Guthrie, who have several rich gold properties in this neighborhood, returned Saturday from a two weeks' prospecting trip in the mineral district north of here. It is their intention to do a large amount of "sinking" on their properties during the coming summer and have received a large shipment of dynamite for that purpose. Speaking to your correspondent Mr. Campbell said: "I have great confidence in the gold prospects of this district, and expect before long to see one or two large corporations operating mines in this locality."

Mr. Rhodes, manager of the Wabigoon Gold Rock trading company, was in town last week on business. Mr. Rhodes expects a large increase in business this summer on account of the opening of new mines in the Manitowish and Gold Rock districts. Visitors during the past week were: Mr. James, Raleigh, and Mrs. D. Green, Dymont, at the home of Mrs. Cragie; E. Brant, Fort William, and L. Olson, Raleigh, at Mr. Nelson's.

J. H. Sutherland & Bro. THE LEADERS.

CITY PROPERTY MATTERS.

The Business Transacted by the Committee Yesterday. The city property committee, which met yesterday afternoon, had very little business to transact. There were present, Alder Sears (chairman), Abbott, Givens and Johnston.

The request of the Victoria Day celebration committee for the use of the fair grounds on Victoria Day was granted. The chairman was authorized to procure wall paper for the caretaker's room. The clerk was instructed to notify Architect Newlands that the painters had not completed their contract work in the treasury room.

The chairman reported that the work of repairing the grand stand and palace steps at the fair grounds was being done by S. Grimshaw. His was the lowest tender, \$50 or \$8 more than the committee authorized. However, the chairman had secured the signatures of the majority of the city council to a paper authorizing the work to be proceeded with.

The chairman also reported that complaints were being received regarding the nature of nuisances carried to the fair grounds, and the manner of spreading. The committee will pay a visit to the grounds and make an inspection.

UNHAPPINESS DISPELLED.

Men and Women Unanimous About It. Many women wear and will refuse to be comforted because their once magnificent tresses have become thin and faded. Many men incline to profanity because the flies bite through the thin thatch on their craniums. It will be good news to the miserable of both sexes, to learn that Newby's Hairdressing is now placed upon the market. This is the new scalp emollient and antiseptic that acts by destroying the germ or microbe that is the underlying cause of all hair destruction. Hairdressing is a new preparation, made after a new formula on an entirely new principle. Anyone who has tried it will testify as to its worth. Try it yourself and be convinced. Sold by leading druggists. Write for good news to the undersigned. Send 10c in stamps for sample to Newby's Hairdressing, G. W. Mahood, special agent.

Buy White Rose and Glycerine Soap at Gibson's Red Cross Drug Store.

The Shell Came Off. A well known physician of Brook tells an amusing incident that happened at his summer home in Hampshire when his daughter, who now a leading society belle, was very small girl. Her grandmother ordered her to bring an egg from the hen. After several minutes the girl returned with her apron full of eggs. While yet a distance away grandmother asked: "Well, did you break any eggs on the way?" "No, grandma," was the prompt reply; "but the shells came off a few."
