Early Marriage An Evil to Be Checked.

Rev. Mr. Hunter, North-West missionary of Presbyterian Ladies' Association, writes:

"I have been much exercised over early marriages among the Galicians."

"We had for a year as a servant in the hospital Annie Shebinski, thirty-two years of age."

"Just yesterday another Galician girl, not quite sixteen, who was working for us, was carried off to be married to a man she knew nothing about."

A STRENUOUS LIFE

In Caledonia for Bishop Du Vernet.

The first winter in Caledonia diocese has been a trying one for Bishop Du Vernet, but he accomplished what few white men care to attempt.

He travelled partly by open boat and dog-sled, but chiefly by walking, at times climbing precipitous bluffs to avoid open water.

taking the pathway of mountain trails frozen into ice steps, and crossing through snow and ice, and crossing through the celebrated lava plains.

At Laklagap the bishop received a royal welcome, amidst firing of guns, soars of rockets and playing of the band.

He was presented with an address from the council, stating clearly the reasons why the people of Laklagap had come over in a body to the Church of England.

At Aignash, fifty miles further up the river, the bishop administered confirmation to thirty-five women and twenty-four men in Holy Trinity church.

A week later were confirmed nineteen women and sixteen men, presented by Archdeacon Collier, at Kincaid.

The Nishara tongue was used in the prayer of confirmation. The trouble at the heathen village of Kitlakamix, two miles above Aignash, where in a drunken revel, several men and women were badly hurt, faces bitten, hair torn off, fingers mangled, etc., has been firmly handled by Rev. J. B. McCullough, J.P.

As a result of much searching of heart, eighteen of the heathen have repented and are under Christian training.

During the bishop's visit twelve children of those lately turned from heathenism were baptized.

COUNTY TEACHERS

WHAT THE INSPECTOR HAS TO REPORT.

Rev. Eber Crumney, and Prof. Shortt Gave Instructive Addresses—Education is Drawing Out Possibilities of Human Nature.

The afternoon session of Frontenac Teachers' convention commenced at 1.30 o'clock, on Thursday afternoon.

The president, T. P. Maxwell, after calling the roll gave his address in which he advocated the use of time-table for school routine.

He suggested that the school programme should vary from time to time so as to make the school course as attractive as possible.

Dr. Spinkie addressed the association on "Rural Schools." He pointed out the marked improvement shown in country schools during the past five years, but suggested some further improvements which might be made.

These were more wide-spread observations of the Empire day, and Arbor day, also the extension of public school libraries. In regard to the latter, he said, that although Frontenac county occupied the premier position in the province in the number of libraries, there are still many more to be established here and elsewhere.

He also pointed out the present inadequate remuneration of rural school teachers and spoke in no uncertain terms of the immensity of an increase in these salaries. This he claimed, could be partly accomplished by the centralization of rural schools.

The speaker concluded his address by reading a number of witty sayings of pupils in rural schools, sent him by teachers from the county.

Mr. Staples of the K. C. I., read a very interesting paper on "Nature Study." He first pointed out the popularity and highly educative nature of this study, which he claimed, justified its inclusion in the public school curriculum.

In closing he encouraged the teachers to begin the work and encourage originality in their pupils.

A hearty vote of thanks was extended to the speaker on the motion of R. S. Graham and Miss Robertson.

The evening session opened in the Whig hall at eight o'clock, with a large attendance, Rev. Dr. Hay acting as chairman. The principal speakers were Prof. Adams, Shortt and Rev. Eber Crumney.

Prof. Shortt spoke on "Work of the Teacher." He pointed out that education in its largest sense appeals to everything pertaining to human nature. The difficulty was to decide what was important and what unimportant to be taught. He criticized the present curriculum in several instances.

He drew out the possibilities of human nature.

Rev. Eber Crumney gave an instructive address on "The Teacher's Aim and Agency." He stated that a teacher should have a strong personality, which should be impressed upon the child. He said teachers should be given more liberties, and adopt novel forms in teaching to vary the routine of classes.

Both of these addresses were cleverly prepared and most instructive in nature, and were eagerly listened to.

At their close, votes of thanks were tendered the speakers. A fine musical programme was also given, and vocal numbers were rendered by Miss Lucy Bawden and W. Manhard, Miss Singleton played a piano selection, and Miss Christine Cochrane a violin solo.

Miss Pearson gave a very clever exhibition of club swinging, which was a decided feature. The meeting closed with the national anthem.

The Friday morning session commenced at the court house at 9.30 o'clock. J. Davidson was elected secretary pro tem. R. S. Graham, last year's delegate to the O.E.A., gave a full report of the meeting of the association at Toronto, last April.

The election of officers for the next year resulted as follows: President, T. P. Maxwell; vice-president, Miss M. Barclay; secretary-treasurer, Miss Whitmarsh; executive committee, Miss L. Barclay, Miss Evans, Miss L. Aiken, B. Rielly, T. Foggy, auditors, Miss Hadley and B. Rielly; delegates to the O.E.A., Miss Robertson and R. S. Graham.

Miss Morris read a paper on "Discipline," emphasizing the fact that discipline should not be arbitrary, but should be actuated by the voluntary instinct of the child and love from the instructor.

Mr. Greenlee gave an address on "Methods of Grammar," illustrating his remarks by various examples, and making a strong plea for the teaching of grammar as a science.

The president gave notice that he will, at a subsequent meeting, move that the attendance of county teachers at annual conventions be made compulsory. The concluding session of the convention was held this afternoon.

AWARDED GOLD MEDALS.

President Roosevelt Gives Recognition of Gallantry.

Berlin, May 25.—The gold medals given by President Roosevelt to three German blue jackets who saved the lives of several sailors of the United States ironclad Monadnock in Chinese waters, were transmitted by Ambassador Tower to the foreign office and will be sent to the marine ministry.

The American government inquired two months ago of the German government if medals for this act of heroism would be received, and their official acceptance followed at Shanghai two American sailors, Thomas Nolan, chief water tender, and Jeremiah Quill, water tender, of the crew of the Monadnock.

JUDGE NOT BY APPEARANCES.

THIS advertisement looks the same in a newspaper of one thousand circulation as it does in a paper of fifty thousand.

You who read this paper probably do not know its circulation.

But we, before we buy space in it, want to know, first of all, how many people read it.

Because, it is worth fifty times as much to us to have fifty people read this "ad" as to have one.

Now the hidden things in shoes are as important to you as the hidden circulation of a newspaper is to us.

You should look under the polished finish of the shoe for its real merit.

Or, you should have the responsible guarantee of the Factory that made them, as to the actual value there is in them.

No retailer, however honest, can tell what kind of leather is hidden under the finish of the sole or upper.

Nor can he tell how far the expensive workmanship has been slighted, for "economy" sake, in the vital but unseen parts of the shoe.

The Makers alone know what service, comfort and shape retention there is in every pair, and they alone can be held responsible for results.

The only shoes in Canada which are price-controlled by the Makers are "The Slater Shoes."

Stamped on the lining, inside the boot top, will be found the Slater-trade mark with the Makers' retail valuation \$3.50 or \$5.00.
