WAR TO GO ON

Czar Yields To The Syn- phant Majority.

CONTINUED STORY

OF THE OVERWHELMING JAPANESE VICTORY.

Izumrud Blown Up To Save from Capture—4,000 Naval Prison- ers—Two Russian Battleships Will be Put in Commission At Once.

Special to the Whig. London, June 2.—The correspondent of the Times asserts that the council at Tsarsko Selo decided, by a large majority, to continue the war. The czar vacillated before the eloquent arguments of Grand Duke Vladimir, but quickly reverted to the view of the synphant majority. It is persist- ently reported that an imperial man- ifesto may be expected shortly. This manifesto will proclaim the immediate convocation of a national assembly to which the question of peace or war will be submitted thereby shifting the burden of a decision from the shoulders of the emperor to the whole nation.

Another Of Togo's Reports.

Tokio, June 2.—Following is the eighth report from Admiral Togo, received May 31st: "Commander Ka- zuga returned, this afternoon, with the survivors of the Dmitri Donskoi. He reports that the Donskoi, on the morning of May 29th, opening its keelson valves, was separated from the board, including the survivors from the Oslabiya and destroyer Douvni, landed at Urelung Island. It appears the Buiny took aboard Rojostevsky and staff before the sinking of the flagship on the afternoon of May 27th, and also 200 from the Oslabiya, but finding navigation difficult, transferred Rojostevsky and staff to the Beidovy, while running northward from the island of May 27th, the Donskoi, to which all aboard were transferred, and the Buiny sank herself. The Oslabiya, according to other survivors, had her conning tower struck at the first straight shot of the battle on May 27th. Admiral Vodkaeran was killed, and after a succession of shots, she sank about three in the afternoon. The survivors of the Bonsel's say they saw two de- stroyers sink in the night of the battle, at noon of May 27th, this, if true, makes five Russian destroyers sunk."

Fate Of Izumrud Known.

St. Petersburg, June 2.—The fate of the cruiser Izumrud is finally known. Capt. Baron Ferzen telegraphs to the admiralty that he separated from the squadron and tried to reach Vladivostok. Japanese cruisers pursued him. To avoid them, and being short of coal, he altered his course, and reached Vladivostok on Monday night. The admiral reports that in the darkness, seeing that it was im- possible to refloat her he ordered his men ashore, and blew the vessel up to save her from capture.

His Sailors Mutinied.

London, June 2.—A despatch to the Times, from St. Petersburg, says that details received from a trustworthy source leave little doubt that Vice-Admiral Nebogafoff's sailors mutinied, and either threw him and his officers overboard, or bound them in their cabins, after which a white flag was hoisted.

Battle Ships Repaired.

Tokio, June 2.—It is now known that the Russian naval prisoners num- ber 4,000, including 100 officers. The captured battleships, Gred and En- peror Nicola I., are so slightly dam- aged that they will be put in active service immediately. Crews already have been assigned to them. Captured officers state that Admiral Rojostev- vensky desired to avoid a decisive battle, and to reach Vladivostok with the least losses possible. He therefore paid no attention to the Chin Yuen and other Japanese cruisers that he met south of the Straits, early on Saturday. The officers also say that Admiral Rojostevsky expected to meet an inferior force in Tushima Straits, having been informed that the Japanese fleet had been divided, and his fleet forward, consequently, was designed to deal with an inferior force.

Want It To Mediate.

Rome, June 2.—Three hundred thou- sand persons have signed a petition to parliament asking the government to offer to mediate between Japan and Russia.

Had Them Executed.

London, June 2.—The St. Petersburg correspondent of the Standard says that according to private letters from Manchuria, Gen. Linovitch, recently had twenty-five officers and 300 men executed. The officers were shot and the men hanged. The officers were ac- cused of distributing proclamations that were found in possession of the men.

Despatch to the Exchange Telegraph Company, from St. Petersburg,

says that the general staff has received a despatch announcing that the Japanese army has commenced a great offensive movement.

Japan Orders Equipment.

New York, June 2.—Contracts amounting to fully \$5,000,000, calling for the shipment with all despatch, of electrical equipment, machines and tools, have been placed in this mar- ket on a Japanese account. The orders were mostly closed by the New York

representatives of Japanese firms. The machinery is for installation in the principal government ship building yards. Because of the inauguration of a war tax, ranging from five per cent. to ten per cent., on various foreign equipment entering Japan after July 1st, most of the orders call for ship- ment overlaid to the Pacific coast.

People's Votes To Guide Czar.

St. Petersburg, June 2.—St. Peters- burg is full of rumors of the most contradictory character regarding the prospects of peace, but in the best in- formed quarters the Associated Press was told that no definite decision had been reached. Nevertheless it is persistently re- ported that an imperial manifesto may be expected shortly.

Kuroki Expects Greater Victory.

Headquarters Gen. Kuroki's Army, via Tsingtau, June 2.—There is every rea- son to believe that the next campaign of this army will be even more suc- cessful than the past. The soldiers have the spirit and discipline of veter- ans, and nothing is lacking in equip- ment. The engagements which have occurred east of the railway for more than a fortnight, and the only shots fired are when the cavalry patrols of the armies have brushes.

Short Of Fuel.

St. Petersburg, June 2.—Lieut. Dournovo, son of Admiral Dournovo, a member of the council of the em- pire and superintendent of posts and telegraphs under the minister of the navy, who is the commander of the torpedo boat destroyer Bravi, has telegraphed from Vladivostok to Grand Duke Alexis, the high admiral, an account of his adventurous voya- ge after the separation of his destroyer from the fleet on the evening of May 27th.

In the course of the afternoon he saved 175 officers and men of the battleship Oshaba. The destroyer with regard to the Japanese, a six-inch projectile and was able to speed only eleven miles an hour. The main mast was lowered and the fun- dles painted white so as to render the vessel inconspicuous to the Japa- nese torpedo boats, several of which were seen. On the night of May 29th a steam pipe burst, reducing the speed to five miles an hour. Lacking coal all the wooden parts of the destroyer were burned for fuel before she reach- ed Vladivostok.

IS ACCUSED BY WIFE.

Best Books Written by Second Woman.

St. Petersburg, June 2.—Maxim Gorki has been summoned to appear before the courts to answer a charge of bigamy. The charge has been made by a woman claiming to be Madame Gorki, who charges that the novelist, after marrying her, was married another woman, an actress with whom Gorki has been living for a long time.

The novelist denies the charge, and says the woman mentioned is not his legal wife, and that in consequence the charge of bigamy has no foundation. It has been charged that Gorki and his wife have been separated for the last several years, the novelist having refused to even see his legitimate wife during the time she was in jail. It is also charged that the woman in the case is Gorki's collaborator, a majority of the novelist's best works having been written by her.

Friends of Gorki declare that the woman mentioned is simply a plot on the part of the government to dis- credit the writer as leader in the lib- eral movement.

Offered A Bribe.

Chicago, June 2.—Charges of bribery against officers of the Employers' Teaming company, were made before a grand jury by President Shea of the Teamsters' Union, and by Young, former president of the same organization. Young and Shea said that they were offered \$10,000 two years ago to bring about a strike of the teamsters employed by Sears, Ro- bust & Co., a rival of Montgomery Ward & Co. They said that they re- fused the money and that the strike was never called.

Work Of Vandals.

Saranac Lake, N.Y., June 2.—An at- tempt to destroy the lock between upper and lower Saranac lakes was made by parties during the night. Dy- namite was used, but owing to igno- rance in using the explosive, only one side of the lock was blown apart. The damage will not be affected. For years similar attempts to blow up the locks have been made by a class of guides who represent the tough element of the woods. Their object is to stop the steamboats from running through the lakes with freight. As no one dares to investigate, no at- tempt has been made to punish the guilty ones. A BABY'S FALL.

A Bump Bump on the Back of Its Head. Ogdensburg, N.Y., June 2.—A thrill- ing accident and marvelous escape from death was witnessed by people on Ford street yesterday. The six- teen-month-old daughter of Mr. and Mrs. George A. Middlemiss was lean- ing far out of the second storey win- dow of the Musgrave block, the dan- ger of the little one's position caus- ing several to stop. A careful mother could get up the stairs to notify the mother the child fell to the pavement below. The attention of the father, who is a clerk in the Surprise Stores, across the street from his flat, had been called to the danger which threat- ened his baby and he started to cross when the little one tumbled out. The child had risen to its feet by the time the father arrived, and at once com- menced to smile. It was carried up- stairs and Dr. Brown called. A care- ful examination failed to reveal any broken bones or other injuries beyond a bump on the back of the head.
