ALL-ZEMSTVO

Meeting, Called For To-day Prohibited.

IS GREAT ANGER

AND DELEGATES MAY DEFEY GOVERNMENT.

Powers May Make Another Attempt to End War—14,000 Russians Killed or Drowned—Most of 4,600 Prisoners Discharged.

Special to the Whig. London, June 6.—A despatch to the Telegraph, from Tokio, says that the total Russian casualties in the battle of the Sea of Japan, were 14,000 killed or wounded, and 4,600 captured.

To Be Left At Manila. Manila, June 6.—The Russian government has decided to leave the cruisers at Manila until the close of the war.

Left To Enquire. St. Petersburg, June 6.—Both the foreign office and the admiralty say that the decision whether to disarm the three Russian cruisers at Manila, or effect repairs there, and endeavor to reach a Russian port, was left in Admiral Enquist's hands.

Great Powers Consult. London, June 6.—It may now be definitely said that certain great powers are consulting as to how they can express to the czar their strong belief that the war should be brought to a speedy conclusion.

May Both Remove Restrictions on Intercourse. Ottawa, June 6.—Should the United States authorities adhere to their desire for a resumption of the joint high commission with Canada, and should the tribunal resume consideration of the unsettled matters of dispute between the two countries, your correspondent has good ground for saying that the Canadian ministers will do all in their power to reach an understanding whereby the alien labor laws now enforced against one another will be withdrawn.

JILTED GIRL KILLS FAMILY. Vienna, June 6.—A terrible story of a girl's revenge comes from Deva (Transylvania). Fraulein Strieka, aged nineteen, had been abandoned by her sweetheart, and she had taken her revenge by poisoning her parents and her two children.

Two Young Englishmen. Drowned While Out Boating at Shoal Lake. Special to the Whig. Shoal Lake, Man., June 6.—Two young men, John and Henry Jaycock, brothers, went out boating on Saturday evening. No returning home a search was made, and the boat was found upset on the other side of the lake, also their caps and other evidences of their being drowned.

Becomes Engaged To Ten Women. Berlin, June 6.—A man recently was arrested at Coblenz railway station as he was in the act of imprinting a farewell kiss on the cheek of his nineteenth bride, and has been identified as Max Freund, an engine driver, who in a short time had been engaged to no fewer than ten girls for the purpose of getting hold of their savings.

A Foolish Offer. Promised Three Acres of Land and a Cow. London, June 6.—In a fit of reckless generosity Marshall Hall, K.C., M.P., during the course of a speech at a conservative meeting at Reigate, offered to present an important question in the audience with three acres of land and a cow provided that the recipient could cultivate the land and milk the cow.

CAUTION. THE UNDERSIGNED WILL NOT BE RESPONSIBLE for any debt contracted by his wife, from this date. C. H. CARR. Kingston, June 3rd, 1905.

TWO MEN DROWNED. By Upsetting of a Canoe, Near Whittemouth. Special to the Whig. Whittemouth, Man., June 6.—While G. Drane, P. Kuhn and W. Patke were twelve miles from here in a swimmer, undertook to assist one of the others to shore, but on account of the swift current was unable to do so, and was forced to leave his friend. After a hard struggle he finally reached shore, but Drane and Kuhn were drowned.

Not Been Confirmed. Special to the Whig. New York, June 6.—There were rumors in Wall street, this morning, that the czar and Kaiser Wilhelm had been discussing the day quietly in the bosom of her family and in reading messages of felicitation and good wishes from her royal relatives in Germany and England.

Lord Mountstephen was seventy-six years of age on Monday. He was born on June 5th, 1829. He is at present in London, England.

SHIFTED HIS HEART.

And Man, An Invalid, Afterward Lived on.

Shippensburg, Pa., June 6.—Burd Duke, of this place, died after a lingering illness and a remarkable experience. About twenty years ago he took part in and won a foot race, but as a result of his exertions his heart was supposed to have changed from the left to the right side, and he fell exhausted at the end of the race. Since then he had been a great sufferer. A post-mortem was held by Dr. E. S. Berry, in the presence of the chief doctors of the town, and his heart was found on the right side and his stomach in the place where the heart should have been on the left side and grows fast to the left lung.

READY TO ACT. Berlin, June 6.—The correspondent of a prominent press association, in a dispatch to the French government has instructed the French ambassador, at St. Petersburg, that France is willing to act as mediator between Russia and Japan.

TO BE EXTRADITED. This is the decision of the Commission. Special to the Whig. Montreal, June 6.—Judge Lafontaine extradition commissioner, this morning, formally committed Gaynor and Green for extradition to the United States where they are wanted for trial on charges of obtaining large sums of money from the government through frauds in connection with the construction of government works for which they were the contractors. The judge said that the offence of receiving stolen money is punishable under the laws of both countries and is by the treaty, section three, an extradition crime.

MURDERER ATTEMPTS TO BEAT OFF ESCORT. Madrid, June 6.—A man named Agnar, under sentence of death for murder, made a desperate fight for his life at the Bilbao prison as he was about to be executed. Having rendered his warder senseless by a blow from a bottle, he rushed out into the corridor followed by ten other convicts and a patrol of soldiers, had to come to the rescue of the warders and restore order. Agnar was dragged to the scaffold by four soldiers, one of whom he kicked in the eye, blinding him in one eye. He tore away the nose after it had been adjusted, and defied the executioner to hang him. He was at length overpowered by the warders, who readjusted the nose and drew the prisoner in spite of his determined struggles.

TO VISIT CANADA. Squadron to Tour World to Advertise Kaiser. New York, June 6.—The Tribune says Prince Henry of Prussia, in command of a powerful German squadron, and accompanied by his nephew, Prince Eitel Frederick, second and soldier son of the emperor, will, according to present arrangements, start in the fall on a cruise round the world, and in view of the fact that the chief British colonies, including Australia, India, South Africa and Canada are to be visited, it is expected that the emperor and his nephew will be met by the courts of St. James and Berlin, and between the English and German governments.

MADE A PRINCE. Chancellor Von Buelow Given High Honors. Special to the Whig. Berlin, June 6.—The announcement is made that Kaiser William has raised Chancellor Von Buelow to the rank of a prince in recognition of the chancellor's excellent services in behalf of Germany.

BIRTHDAY OF RUSSIAN EMPRESS. Special to the Whig. St. Petersburg, June 6.—To-day was the thirty-third birthday of the empress and for the first time since she left her girlhood home in Darmstadt to become the wife of the ruler of all the Russians, the anniversary was allowed to pass with almost no public recognition. The course of events in the far east has overshadowed the capital in deepest gloom and the public evinced no inclination to take part in the holiday rejoicings customary on the birthday of the empress. The only public observance was the display of flags on government buildings and the holding of Te Deum services in the churches. The empress herself passed the day quietly in the bosom of her family and in reading messages of felicitation and good wishes from her royal relatives in Germany and England.

SHORTER DAY

Is Likely to Be Demanded Of Miners.

ASKED TO SEEK IT

EIGHT HOURS IS LONG ENOUGH TO WORK.

So President Mitchell Tells the Miners in Speeches in the Anthracite Region—His Opinion as to the Corporations Controlling Mines.

Scranton, Pa., June 5.—At Moosico in the first of eleven speeches to be delivered in the anthracite region President John Mitchell, of the United Mine Workers, suggested that the eight-hour day and a signed agreement with the organization should be insisted upon by the miners whose present agreement expires on May 31st, 1906.

"The present agreement is the best you have ever had," said Mr. Mitchell, "but it is not good enough. We should have an agreement between the union and the operators. We should have the generally established short working day of eight hours. Whether these things will come next April or not is not for me to say; it is for you to say. Mr. Mitchell said that in the bituminous fields there are 350,000 miners working under an agreement between the operators and the union and enjoying the eight-hour day. In nearly all the working crafts," he said, "the eight-hour day prevails."

"What you get or fail to get," said Mr. Mitchell, "depends on yourselves. The anthracite coal corporations are no better and no worse than they were three years ago. They don't like the union better or hate it worse than they did three years ago. We will be recognized if we deserve to be recognized if we deserve to be fought. If we have only 60,000 members in the anthracite field, where there are 180,000 mine workers, don't blame the operators if they refuse to recognize us."

In conclusion he said: "I hope and trust that you will join in the effort now being made to be prepared for next April. Preparedness means whether you go up or down. Conditions cannot remain stationary. They either rise or fall. It rests with you whether your condition will be better or worse. Do for the best."

FIGHTS GUARDS ON GALLOWES. Murderer Attempts to Beat Off Escorted. Madrid, June 6.—A man named Agnar, under sentence of death for murder, made a desperate fight for his life at the Bilbao prison as he was about to be executed.
