No Ashes

In the

"Bison" Fire Pot

The fire pot in the "Bison" of water heater is built slightly conical to prevent ashes sticking to it. There is no lodging place for the fire pot for ashes. Flames are thrown up and against the slanting wall of the fire pot—the side draft draws them against—burns all the coal evenly on side to side. That is one reason why the "Bison" heats quickly, effectively, economical—it is one reason out of ten why the "Bison" is the best heater.

Are You in the Rush and Bustle?

While you join in the rush and bustle of
this busy world, overtaxing our energies
and racking our systems, many of us are
morally culpable of reckless disregard of
our bodily strength and fitness. Then per-
haps the health breaks down, and we
soon doomed to long periods of pain and
depression. Our whole life is darkened.

YET THERE IS A REMEDY AT HAND

Hundreds and thousands of ailing men

**TERRIBLE PAINS AND A FREQUENT
DESIRE TO URINATE.** Such were the
troubles of Mr. Joseph Leland, Alma
N.W.T. He happily found relief in

DOAN'S KIDNEY PILLS.

Here is what he says:—"I was troubled
with dull headaches, had frightful dreams,
terrible pains in my legs, and a frequent
desire to urinate. Noticing Doan's
Kidney Pills recommended for kidney
trouble, I decided to give them a trial.
I procured a box, and was very much
surprised at the effectual cure they made.
I take a great deal of pleasure in recom-
mending them to all kidney trouble
sufferers."

Doan's Kidney Pills help the Kidneys
to drain off the poisonous impurities
which have collected, thus cleansing out
the kidneys, bladder, and all the urinary
passages. They correct inability to hold
the urine, and thus obviate the necessity
of getting up many times at night to
urinate. Their good results will be im-
mediately felt in all cases of kidney
trouble.

Price 50 cents per box, or 3 for \$1.25.

The Marriage of a Young Couple
—Capt. Flynn of the Steamer
Gull Found Dead—Lack of
Brick for Building Purposes.

Special to the Whig.
Picton, Ont., June 5.—June claimed
her first bride to-day, when a happy
marriage was celebrated at the home
of the bride's father, M. F. Hawkins,
Fast Lake, uniting Miss Mabel Hawkins
and Frederick A. Hubbs. After the
wedding breakfast the happy couple
drove to town, taking the steamer
Alexandria for a honeymoon to Mon-
treal.

Recently Mrs. D. Macdougall, of
"Hillsdale," met with a very painful

accident which all but proved fatal.
The tripped and fell down a steep,
winding stairs, dislocating his
shoulder, breaking her collar bone,
and severely bruising her head. Under
the doctor's care Mrs. Macdougall is
progressing as favorably as may be
expected.

A valuable thoroughbred colt of the
stables of J. H. Allan, was one night,
recently, the victim of supposed foul
play. On going to the stable in the
morning the groom found a hole in
the horse's head as from a spike nail.
As there is no way in which the animal
could have damaged itself, it is
evident some vicious-minded outsider
must have done the cowardly deed.
There is every hope that the animal
will not be lost.

Coming in from a short after-dinner
walk, on Saturday, Capt. Flynn went
to his room for a rest. Less than an
hour after, his wife found him lying
on his bed, cold in death. Capt. Flynn
was aged about seventy years and
well known around the bay ports, un-
til this year, he having sailed the
sloop Gull, which carries lumber for
the Bathurst company, Deseronto. He
leaves beside his widow, one son and
a daughter. The funeral took place
this morning, requiem mass being
said in St. Gregory's church.

At the Sunday morning services in
the First Methodist church, Dr. Clare,
D. E. Johnstone and S. A. Kemp were

being considerably hampered by the

mand. The Metropolitan bank has had
to import from Belleville.

FOOLED THE JAILERS

**A LIFER IN MICHIGAN PRISON
GOT AWAY.**

A Dummy was Put in His Cell
and it Completely Deceived
Everybody—He Had Five
Hours Start.

Jackson, Mich., June 2.—Ever since
he was received at the prison in
July, 1903, Thomas McGrath, of De-
troit, has been looked upon by the
prison officials as a "bad man," and
yesterday he justified their opinion of
him by making his escape.

He fixed up a dummy in his cell
which completely deceived everyone
passing through the corridor until
about 10 p.m., when the keeper's sus-
picion was aroused by noticing that
McGrath had been in the same posi-
tion all the evening. He unlocked the
cell and went in and found the dummy,
which McGrath had left.

It is thought that McGrath fixed up
the dummy in his cell and got away
himself about five o'clock. He, there-
fore, has five hours' start of the offi-
cers. The entire prison force is scouring
the country heretofore for him, and
the police in Detroit and other
cities within 100 miles have been noti-
fied.

McGrath is a lifer, sent up in July,
1903, for the murder of Hotelkeeper
Warren, in Detroit.

BROCKVILLE CHEESE BOARD.

New and More Stringent Laws
Being Formulated.

The re-organization of the Brockville
cheese board is being effected on a
better basis. At Saturday's meeting,
which was very largely attended, a
special committee presented a report,
submitting a revision of the by-laws,
several clauses of which were adopted
in committee of the whole, and the
remainder held over until the next
meeting on the 10th inst. One of
these provides that the offerings shall
be registered on the board and sold
there. Sales shall be made only on
the regular weekly sale day, nor shall
any be offered conditionally under a
penalty of \$25 in each case. Default
in payment will exclude the party in
default from the privileges of the board.

Another clause reads: "Members
using the public board for the sale
of cheese shall have the factory or
factory identified by registration un-
der the Dairy Act in Canada in 1897,
and each box of fine cheese must be
identified with this board by the use
of the Brockville brand."

If the Frontenac board is to be
made an effective and influential or-
ganization, similar steps to those
taken by Brockville must be followed.
Certain it is, the loose manner of
doing business which has heretofore
characterized meetings of the local
board, must no longer be tolerated.

Just What Everyone Should Do.

J. T. Barber, of Irwinville, Ga., al-
ways keeps a bottle of Chamberlain's
colic, cholera and diarrhea remedy at
hand ready for instant use. Attacks of
colic, cholera morbus and diarrhoea
come on so suddenly that there is no
time to hunt a doctor or go to the
store for medicine. Mr. Barber says:
"I have tried Chamberlain's colic,
cholera and diarrhoea remedy which
is one of the best medicines I ever
saw. I keep a bottle of it in my room
as I have had several attacks of colic
and it has proved to be the best
medicine I ever used." Sold by all
druggists.

A man can make or lose a fortune
while two women are saying good-bye
to each other.

**SOMETHING EVERY
WOMAN SHOULD KNOW.**

Are You the One Woman Neglecting a
Mother's or a Wife's Duty, or Are
There Countless Thousands.

Many women formerly full of robust vigor,
with clear complexion and bright, vivacious
spirits find themselves slowly losing their good
looks and strength, fading under the influence
of an unknown cause, ignorant of the real
condition. Just when a woman should be at
her best she becomes depressed, irritable, ner-
vous, and unable to do her duty. She has no
easy planning, has been so absorbed with
her social duties, her work has been so
continuous, that she scarcely allowed herself
a moment's relaxation. She has neglected
her health and, where her food formerly
seemed to nourish, now she has but little ap-
petite and even what she does eat does not seem
to do any good. If you should ask her what
the trouble is, she would say, "I am just
tired out." But the real cause is constipation
and its resulting condition—bad blood. Just
think what habitual neglect of the bowels
means, sickness instead of good health; ner-
vousness instead of vigor; cheerfulness re-
placed by depression, happiness by misery.
A woman's use of Smith's Pinapple and Bala-
stern Pills in these cases will work wonders.
They will regulate the functions of the liver
and bowels, immediately relieve the constipa-
tion, cure the constipation and cleanse the
blood of impurities. It is possible to see
women with no color in their cheeks, without
ambition, always tired, with the exuberance
and vivacity of youth sapped as by some
dreaded vampire, just because nature has
been neglected, the bowels have been neg-
lected, the blood is impure, the system
gleaned and poisonous elements have been ab-
sorbed into the blood. Keep the bowels regu-
lar by using Smith's Pinapple and Bala-
stern Pills. Never allow constipation or a torpid
liver to develop. A stick in time will save
months of misery of bad feeling and de-
pression. These little pills are wonderful
health givers. They are Nature's true laxa-
tive and a positive cure for sick headache,
constipation and biliousness in one night. 25
cents at all dealers.

To See Sun Eclipse.

Special to the Whig.
Washington, D.C., June 4.—The first
of the expeditions to be made under
the auspices of American universities
and scientific institutions to observe
the eclipse of the sun which will oc-
cur August 29th, next, is scheduled to
sail from New York to-day. Three ex-
peditions are to be made to various
parts of the world, where the eclipse
will be total—namely, to a point near
Cortwright, Labrador, to Northeast-
ern Spain, and to a point near As-
suan, Egypt. The treasury depart-
ment has made arrangements to facili-
tate the shipment in bond of the ap-
paratus to be carried by the expedi-
tions, including a large quantity of

photographic apparatus, mechanic
tools and other necessities.

ARCHBISHOP RYAN.

Intimated He Will Be Made a
Cardinal.

Rome, June 6.—It is positively as-
serted that, last Tuesday, when Mon-
signore Ryan, archbishop of Philadel-
phia, was received by the pope in pri-
vate audience, he was given official in-
timation of his coming promotion to
the sacred college. The American pre-
late is staying at the American col-
lege, the guest of Monsignor Kennedy,
who returned from the United States
with him.

Ever since his arrival the Philadel-
phia prelate has been the recipient of
many attentions, which go far to
prove the high esteem he enjoys in the
Curia, and are also a certain sign of
his impending promotion.

Nearly all the most prominent pre-
lates and a great many cardinals have
called personally upon him, a compli-
ment which is never extended to an
ordinary bishop. The large amount of
Pope's power which is presented to
the pope, nearly \$30,000, has been the
subject of much comment here, because
it is felt that if every archdiocese of
the United States could make the
same offering as the Philadelphia
archdiocese the financial position of
the vatican would soon be assured.

It is not definitely known if the
nomination of Monsignor Ryan as a
cardinal of the church will take place
at the consistory to be held toward
the end of this month, as there has
been a hitch in the promotions to the
sacred college which were contemplated
by the pope, and it is possible that
because of this the new appointment
will have to be delayed to the consis-
tory of September, or even perhaps to
that of December.

Care Of Young Turkeys.

The first few weeks of a turkey's life
is the critical period. If the brood is
fended carefully through this stage
only a few losses will occur. A board
per 10 x 12 feet should be provided
for a brood of twenty or thirty. It
will not do to let them run at large
with the mother when first hatched
and weak. Even the enclosure must be
free from insects, which they might
drabble themselves. A good dry place
to roost is essential. A water-tight
barrel, laid horizontal on some planks,
makes a good coop. A nest of straw is
necessary, also protection against ver-
min. It is best to feed them in the
coop on rainy days. Baked corn
bread, crumbed into a pan and sprink-
led with pepper, is a good food for
young turkeys. But clabber cheese,
mixed with black pepper and onion
tops cut fine, is most excellent. The
little turks like it better than any
food you might prepare for them. If
corn meal is fed, put in plenty of pep-
per and onions.

Colds

It should be borne in mind that
every cold weakens the lungs, low-
ers the vitality and prepares the
system for the more serious dis-
eases, among which are the two
greatest destroyers of human life,
pneumonia and consumption.
