

REASON No 39 WHY YOU SHOULD USE

Red Rose Tea

Because it is put up in sealed packages.

These packages protect the flavor of the tea and protect you in weight and guarantee of quality.

No article of food is so easily tainted as tea—it absorbs the flavor of everything it comes in contact with.

Very few tea bins are tight enough to prevent tea from absorbing the odors of fruit, vegetables, cheese, etc., etc., usually mixed together in a grocery—and the ordinary tea chest is very little protection.

The Red Rose Tea sealed package preserves all the original flavor and freshness of the tea—open a package and smell its fresh fragrant aroma.

Packages of Red Rose Tea are always full weight and uniform in quality.

FACTS THAT ARE SURE-MONEY SAVERS.

A Simple Cure for Scours in Hogs - Good Breeding Essential if Best Results Are to be Obtained - Some Farm Hints.

Heifer calves should be raised from best cows of the herd. They do not need fat-forming food, but food of bone and muscle-forming kind.

Cows are creatures of habit, and one of the most regular habits they have is that of giving down their milk at a certain hour every day.

When you first go into his store, the first thing that meets your eye is a beautiful picture of a little pickaninny. Below are the words: 'This is not Tom's.'

Some weeks ago he made a specialty of selling cravatettes. His advertisements were headed: 'Come to my store and I will show you why I can sell you a fine cravatette marked at \$15 on State street for \$10.'

Women with pale, colorless faces, who feel weak and discouraged, will receive both mental and bodily vigor by using Carter's Iron Pills.

For over two years my little baby girl suffered with a raw, itching, and painful eczema, the pain causing her to scream day and night.

My baby's face was a mass of sores. The doctor treated it for eczema, but the child was getting worse, the disease eating the flesh away from his nose, and spreading to his body.

TALKS TO RETAILERS.

Tom Murray's Successful Advertisements.

It is a hard matter for the average haberdasher to make his head advertise.

Practically everyone in Chicago is acquainted with the wonderful results obtained by a local haberdasher by the name of Tom Murray.

There was a time when I could not believe \$10 would buy a top coat, suit of clothes, cravatette or overcoat fit for a gentleman to wear.

Some weeks ago he made a specialty of selling cravatettes. His advertisements were headed: 'Come to my store and I will show you why I can sell you a fine cravatette marked at \$15 on State street for \$10.'

No Soot in the "Bison" Hot Water Heater

Soot is a non-conductor of heat. If soot coats the surface of a hot water heater, half the heat from the fire is lost, half the coal is wasted.

That is why some furnaces do not heat well, their flat surfaces and sections collect soot.

In the "Bison" hot water heater, there are no flat surfaces - there is no non-conducting blanket of soot - you get all the heat in the coal direct on the water surfaces and you get it quickly.
