The report of the committee on Sabbath school publications, having been supported by the synod of Manitoba, Rev. R. G. Macbeth, of Paris, presented the report of the committee on Sabbath observance and legislation.

It is recommended that the synod of Manitoba should take up the work of the Lord's Day Alliance to the central support of all members and adherents of the church, and urged upon all pastors and teachers to impress upon their people and Sunday school scholars the importance of their own and their fellows' highest good in their use of the hours of the holy day.

Mr. J. H. Macdonald, of Toronto, who succeeded the late Principal Caven, as president of the Lord's Day Alliance, spoke briefly of the legislative work sought by the alliance during the last year.

He sounded a note of warning regarding the encroachments made upon the Sabbath, and pleaded for a more active interest on the part of the people on behalf of Sabbath observance.

By permission of the assembly, a recommendation, not yet prepared, was added to the report. It was to the effect that parliament and Ontario legislature be asked to put into effect as soon as possible effective Sabbath legislation.

A petition was presented from Mrs. Susan Campbell, Polly Village, N.S., asking the assembly to rebate in her favor the interest on a bequest of \$10,000 left by her late husband to the Presbyterian Church of the Valley, through the illness of her son in law, David. The latter cannot recover, and in the meantime requires time and attention, which she cannot afford to give.

Dr. Sedwick moved that no action be taken on the petition, but that sympathy be given to the widow. Rev. Dr. Falconer, Pictou, N.S., said the synod of the maritime provinces had decided that Mrs. Campbell's request could not be granted. Similar requests had been refused before.

Rev. Dr. Torrance presented the report of the committee on statistics. There was an increase in the past year of 460 self-maintaining and 183 augmented congregations. There has been an increase of 2,296 in the number of sittings in churches. Total number of families 125,790, an increase on the previous year of 3,994.

That may be taken as representing a population of 625,930. Number of communicants, 202,734, an increase of 3,149. Congregations have paid during the past year for stipends \$1,203,826, an increase of \$47,655. There was an increase of \$21,094 to expenses of the church, the total of \$2,020,046. Of this the Woman's Foreign Missionary Society contributed \$79,925. The total payments for all purposes were \$2,880,022, an increase of \$143,403. Debt on churches increased \$390,939, the whole amount being now \$1,212,884.

Dr. Torrance made reference to the difference between the assembly and the government statistics as to Presbyterian population in Canada. The latter returns showed nearly 200,000 more Presbyterians in Canada than the assembly had record of. Not much reliability was to be put on the government statistics, but Dr. Torrance said there were no doubt thousands of Presbyterians of whom the churches and homes and cities had no record. The time for noon adjournment arrived before the report presentation was completed.

It was announced that the delegates from the Church of Scotland would likely be present at four o'clock to address the assembly.

June 12.—All attempts to create an impression that there is a hitch in the preliminary negotiations are probably without the shadow of foundation. Foreign Minister Lansdorff has, formally, notified several legations that a meeting of plenipotentiaries, to see whether it is possible to agree to terms of peace, is assured. An indictment against James Connee, M.P., for \$4,000, on an action brought against him by A. E. Ames & Co., was confirmed by the divisional court to which Mr. Connee had appealed this morning. Justice Anglin dissented. The amount was the balance due on 3,000 shares of Consolidated Lead Superior common stock, which Mr. Connee purchased through Ames & Co., on April 28th, 1903, at 30c. The stock rose to 31c, dropped to 13c, and in July, 1903, was finally sold out to Ames & Co. at 28c. Mr. Connee had marginally twice on the stock \$3,000 and \$1,900, and there was still \$4,000 due to Ames & Co. In his dissenting judgment Justice Anglin said that the law, in giving the right on the part of the brokers to hypothecate a client's stock for the part they had been compelled to advance but it was an entire, different proposition to say that brokers had the right to pledge customers' stock and secure their own indebtedness. Joseph Pollard, a laborer, appeared in the police court, this morning, on a charge of bigamy. He is alleged to have married on November 12th, 1904, Mary Collins, the ceremony being performed by Rev. John Pearson, and on February 15th, 1905, Charlotte Robinson, the knot in this case being tied by Rev. Mr. Oeman, both marriages taking place in Toronto.

Children's Festival. In the Danish character is a simplicity and freshness which many nations must envy. Their great characteristic is extraordinary love of children. A children's day has been inaugurated in Copenhagen, and the population throw themselves with zest into the affair. The day is given up to fun and frolic. Processions of fishermen's wives from neighboring villages, vegetable sellers of Copenhagen, and other women in characteristic costume walked through the streets, preceded by bands. Booths were erected, concerts and various entertainments given and flowers distributed. The women marched to the Amaliborg palace to pay their respects to King Christian, and the old man cordially greeted them. The children's movement has been taken up with hearty good will, and a large sum of money will be secured for children's institutions. The idea inaugurated in that far northern country might be carried out in every country where children's welfare is held of paramount importance.
