COMMERCIAL MATTERS.

What Is Going On In the Business World—The Markets.

It is reported the Mackay issues will
shortly be listed in New York.

The output of 316,200 ounces of gold
in the Transvaal during the month of
May is a record monthly production.

Failures last week numbered 216 in the
United States, against 227 last year, and
30 in Canada, compared with 20 a year
ago.

Wm. Van Horn has been elected a
director of a millinery sub-marine
signal company of which J. P. Morgan
has taken \$500,000 of stock.

More than 10,000 people are employed
in the various cotton mills and factories
and about 100,000 in the cotton gin
houses of the cotton industry in the
United States.

The Royal Company, London, has pur-
chased 1,625,000 Canadian Atlantic con-
solidated first mortgage four per cent.
gold bonds, guaranteed by the C.P.R.,
now offering them at 99.

The American Railway Company will
close its fiscal year ending June 30th,
with about \$1,450,000 gross earnings for
its subsidiary companies, an increase over
11 months having been \$56,000.

The Helena mine, near
Butte, Mont., has more than 1,000 tons of ore
per day are now being taken out and al-
ready this season 70,000 tons have been
shipped. The entire output for this
year has been disposed of. Excellent ore
has been found at a deep level in aban-
doned.

The Dominion Textile interests, which
desire to acquire the business of the
Montreal Cotton Company, have offered
to advance in their offer of
\$137.50 per share \$100 to be in six per
cent bonds and 37 1/2 in seven per cent pre-
ferred stock. An alternate offer is made
of taking \$100 in bonds and the balance

March, which was 1,936,264 tons. On the
other hand, the rate of production
had been reduced at June 1st, by 4,000
tons per week to 441,992 tons, compared
with 452,081 on May 1st. Furnace stocks
on hand, sold and unsold, increased by
900 tons during the month to 399,754
tons. The increase during May was 37,
000 tons, being the first month since
an increase since August last, when the
total was 670,340 tons.

Pictures To Be Named.

County Councillor Pillar offered a
very good suggestion when he referred
to the unnamed portraits which adorn
the council chamber. He was of opinion
that name-plates should be affixed
to each portrait, containing such
data as may be of information to fu-
ture generations, giving the record of
the original of each. He presented his
suggestion in the form of a resolution
which Councillor Franklin seconded,
and the warden was empowered to
have name-plates prepared and affixed
to the portraits.

Removed The Machine.

This morning the agent of the Clima-
tic Band Machinery company took
possession of the road scraper that
the city had on trial last winter, and
refused to accept. The machine has
been stored beneath the verandah,
fronting the island market for the
past five months, awaiting the com-
pany's pleasure to remove it. The com-
pany threatened to sue the city for the
value of the machine, but apparently
see the folly of proceeding with the
suit.

MATTER LAID OVER

CITY PROPERTY COMMITTEE
DELAY ACTION.

Regarding Extensions to City Buildings—Question of Stor- ing Vehicles at Fair Grounds Discussed.

At the city property committee
meeting, Wednesday afternoon, there
were present Alds. Sears, Givens, Mc-
Cann and Walker. Chairman Sears
referred to the fact that vehicles are
being stored at the fair grounds con-
trary to by-law, and advocated that
such practice should either be stopped
or the by-law changed. After a search
of the files, it was found that it was
a portion of the caretaker's duty to
store such vehicles should be
stored without the permission of the
chairman of the committee. The
chairman suggested that a charge be
made for the privilege of storing
goods there and the question then
was referred to the city council.

An itinerant preacher addressed a
somewhat small audience on the mar-
ket square this morning and after his
discourse distributed large illustrated
tracts. When asked by Market Clerk
McCann as to where his home was,
he immediately replied "heaven."
Questioned further he admitted that
he came from Port Hope.

MANY WOMEN GATHERED.
At the Meeting of the Home
Mission Committee.

There was a large gathering of the
women of Kingston interested in the
newly-organized Home Mission So-
ciety of the Presbyterian church, at
Queen's, yesterday afternoon. Rev.
Dr. McLaren, Home Mission secretary,
was in the chair, and among the pro-
minent workers present were Mrs.
Alexander Laird, president of the
Kingston Society, Mrs. Mowat, vice-
president; Miss Holt, treasurer of the
society; and many of the energetic
mission workers in the Methodist
church.

Rev. C. H. Munro, of Ethelbert, N.
W.T., gave a most interesting ad-
dress on his work among the Gallicians,
urging the need of supporting these
strangers within our gates.

Work among the miners in the
Kootenay district, was the subject
of the young minister from Ymin, B.C.,
Rev. Henry Young, who for six years
has been the "sky pilot" of the
mines in that far off province. Both
speakers, who spoke with the elo-
quence bestowed by thorough knowl-
edge and deep interest in work, were
listened to with great interest, and
their plea for missionary aid for our
own home land will doubtless bear
good fruit.

The consolidation of the Home Mis-
sion Society of the Presbyterians
has been a move in the right direc-
tion, and will bring mission work in
our own country out of the obscurity
where it has been overshadowed by
the plans of the foreign missionary
side of the church's work.

SPLENDID WORK DONE. In Putting a Wheel on the Steamer Dorothy.

The work on the steamer Dorothy
was completed last evening and the
vessel left for Balgonie early
this morning. The work of putting on
the wheel was no small undertaking.
The contract was taken by Captain
Thomas Donnelly, who would far pre-
fer to put on the wheel with his
divers, and the aid of a pump,
but the owners and the crew of the
boat insisted on the use of a caisson
so that the work could be examined
and completed to the satisfaction of
the engineer.

The Dorothy is the deapest vessel
that has ever been pootioned in such
a manner on inland waters. An extra
precaution had to be taken to make
everything safe and secure on account
of the cargo. The vessel's stern was
raised five feet and the pootion leak-
ed so little that ten minutes use of a
siphon every two hours kept the water
out of it. The pootion was built
by Mr. Turcotte, foreman carpenter,
and did his work well and the whole
job was under the direct supervision
of the contractor, Capt. Donnelly. The
master and engineer of the boat ex-
pressed themselves as perfectly satis-
fied.

After Seventeen Years.
It was with great reluctance that
the directors of the Frontenac Farm-
ers' Institute accepted the resignation
of Alexander Ritchie, Inventory who,
for seventeen years, has been the cap-
able and painstaking secretary-tre-
asurer of the organization. Increasing
responsibilities rendered it necessary
for him to surrender some work that
was demanding so much of his time,
and he decided to cut loose from of-
fice-holding in the institute, though
the directors pressed him hard to re-
consider his decision. However, in
Joshua Knight, he has a worthy suc-
cessor, one who has always taken a
deep interest in the work.

Affected With Measles.
The hospital at the Royal Military
College has grown too small to ac-
commodate the cadets who have been
attacked by measles, a disease quite
epidemic in the city for months past,
and the old gymnasium has been trans-
ferred into an isolation ward. The boys
are not very ill but require to be
quarantined.

How to Avoid Catching Cold.
Allow yourself to "run down" and
catch cold from the first germ that
comes your way. Wade's Iron Tonic
Pills make you cold proof by giving
you rich healthy blood, the kind that
kills all disease germs in boxes 25c.
at Wade's Drug Store. Money back if
not satisfactory.

A Steamer Sunk.
Special to the Whig.
London, June 15.—The German
steamer "Lara" was sunk by the Rus-
sian cruiser "Don" on May 30th. The
"Lara" was on her way from Odessa
to Tien Tsin, with a cargo of
wooden sleepers.
