A SENSATION

Grand Duke Alexis and Admiral Avellan Resign.

**FORMER IN OFFICE**  
SINCE RUSSIA HAS BEEN FIRST CLASS SEA POWER.  
Washington Chosen by Belligerents as Place for Peace Conference—Japan Still Doubts Russia's Sincerity—Will Withdraw if She Sees Signs of Bad Faith.  
Special to the Whig.  
St. Petersburg, June 16.—The sensational announcement was made shortly before midnight, that Grand Duke Alexis, the high admiral, who is an uncle of the emperor, and Admiral Avellan, head of the Russian admiralty department, had resigned. This announcement was followed a few minutes later by an imperial rescript relieving the grand duke of the supreme direction of the navy, which he had held ever since the days of the emperor's father, Alexander III, when Russia resolved to enter the lists of first class sea powers.  
Washington Chosen.  
Washington, June 16.—The announcement that Washington had been selected for the location of the peace conference came in the form of an official statement issued by Secretary Lobb by direction of the president. The statement follows: "When the two governments were unable to agree upon either Chateau or Paris, the president suggested The Hague, but both governments have now requested that Washington be chosen as the place of meeting, and the president has, accordingly, formally been notified by the governments that Washington will be so selected."

CHARLES B. HARRIS.

Who sent first news of the great battle of the Sea of Japan, has been American consul Nagasaki since 1897. He is an Indianian, and at the time of his appointment was engaged in banking, dentistry and farming. During the progress of the present war he is credited with having sent most valuable information to his home government.  
The Times correspondent at Tokio said that the proposals to appoint M. Nelidoff, Russia's plenipotentiary for the suggested peace negotiations, and to make Paris the place of meeting, inspire Japan with grave doubts as to Russia's sincerity.  
The newspapers point out that Japan's prime objects are not to terminate the war, but to secure a lasting peace. Japan is fully prepared to continue the war, nevertheless, partly in the interests of humanity and partly in deference to the suggestion from President Roosevelt, she is willing to enter upon a conference, and formulate demands for justice which the world recognize, reserving, however, the right to withdraw on the first evidence of Russia's bad faith.  
"The telegrams from Manchuria do not confirm the alarmist reports to the effect that Gen. Linvitch is surrounded," says the St. Petersburg correspondent of the Times, "but it is evident that the Russians are withdrawing from their advanced positions on both sides of the railway bridge before the banking movements of the Japanese. It is feared they may have to fall back north on Kuntulund."

China Wants Indemnity.

Peking, June 16.—The Chinese government is urging the powers to support her in an endeavor to secure from the belligerent nations a definite understanding that she is to be compensated for the losses of life and property which have been inflicted on Chinese subjects in Manchuria, during the fighting which has been in progress there.  
With the warm weather you can buy cheaper than make. Try our sun-bath pie for Saturday. W. J. Crothers, Phone 141.

OFFICERS CHOSEN.  
A Present to the High Secretary and Wife.  
Special to the Whig.  
Gannaque, Ont., June 16.—The morning session was mostly taken up with a discussion of the amendments for the high court and the adoption of the same. The chief ranger called the court to order and on behalf of brethren from Hull and Ottawa, read a nicely worded address to Bro. George Faulkner, high secretary, and Mrs. Faulkner, former residents of Ottawa. Bro. Hodgins, Ottawa, presented a gold-headed cane to Bro. Faulkner and a pair of gold mounted opera glasses for Mrs. Faulkner. The high secretary made feeling address in response, Ottawa was chosen as the next place for high court meetings, although St. Thomas made a strong bid for the members' vote, in favor of the Railway City. The final vote was 130 for Ottawa and 94 for St. Thomas.  
The election of high court officers for 1905 took place as result:—  
High chief ranger (by acclamation), Bro. J. A. Stewart, Perth; high vice-chief ranger, Bro. D. Allan (elected), St. Catharines; high secretary, by acclamation, Bro. George Faulkner, Brantford; high treasurer (by acclamation), Bro. Robert Elliott, Ingersoll; high auditor (by acclamation), William L. Roberts, Horning Mills; high registrar (elected), Bro. D. R. ON THURSDAY

The Budget Speech Will Be Delivered.

AUTONOMY BILL

LIKELY TO BE FINISHED AT EARLY DATE.  
Monk Will Seek to Have the Dual Language Re-Established in the New Provinces—New Zealand Ready to Extend the Preference.  
Ottawa, June 16.—It is hoped by the government that the finance minister may be able to deliver his budget speech on Thursday next. The autonomy bills should be put through the house during the remaining days of this week and the first of next. The supplementary estimates are to be laid before the house some time next week and the government anticipates being able to have the session closed by July 10th.

It is known that Mr. Fielding will announce that tariff commission will be appointed to make trade enquiries during the summer and report to the next session of parliament. The commission will probably consist of the finance minister, 4th minister of customs and the minister of inland revenue.  
Mr. Larke, the Canadian commercial agent in New South Wales, reporting to the trade and commerce department, quotes Premier Ward, New Zealand, as having expressed his willingness to enter into negotiations with Canada for a further extension of the existing customs preference. The New Zealand first minister believes also that a preferential arrangement can be made between his colony and Australia.

D. W. Campbell has notified the government that the draft contract has been forwarded to the Elder Dempster company and that the first boat of the Canadian-Mexican service will sail from Montreal about July 20th.

**Breeze in Senate.**  
In the senate Hon. Mr. Cloran cast quite a breeze to spring up by referring to the results of the by-elections. He said that he had tried to draw attention to the autonomy bill, but that he had been choked by the late speaker (Mr. Power).  
Hon. Mr. Ferguson raised the point of order that Mr. Cloran was referring to a previous debate.  
Mr. Speaker, having decided that the objection was well taken, asked Hon. Mr. Cloran said that he would ask the members of the government if they had received any information about the elections in London and North Oxford.

Hon. Mr. Scott said the government had not received any official information.  
Hon. Mr. Perley said that he had been informed that banners had been used in the London election bearing the words "Vote for the king" and the pope won. He twitted Senator Domville about his cables to the emperor of Japan, congratulating him on the victories of the Japanese, and advising him to cable to the pope and tell him that in the light in London the pope had beaten the king.  
Hon. Mr. Domville defended his action in cabling to the emperor of Japan the emperor's victory, and called attention to an occurrence during his own election contest in King's, N.B., when an image of the Virgin Mary was brought out to fight against him in an unusual wing of the prison. Careful tests will be made during the coming week and every precaution taken to prevent any bungling in the execution.
