Hair Grower GREW THIS HAIR

MARY SUTHERLAND This lady is but one among the thousands whose hair was grown by the use of the 7 Sutherland Sisters' Hair Grower; but the fact that she is one of the 7 Sutherland Sisters, and well known, her experience, and the manner in which she recommends this valuable preparation to the public, cannot fail to invite the attention of all who are interested in the culture and preservation of the hair.

The 7 Sutherland Sisters have devoted many years to that important subject—the structure of the hair; the cause of its decay, and means by which it may be preserved or renewed in all its original nair; the cause of its decay, and means by which it may be preserved or renewed in all its original elegance. The 7 Sutherland Sisters can be seen and consulted without charge, and the magnificence of their own hair is the first and unquestionable proof of the merits of the preparations they manufacture and use, the 7 Sutherland Sisters Hair Grower and Scalp Cleaner. For sale by 7 Sutherland Sisters and all Druggists. Price of HAIR GROWER, 50c and \$1 per bottle. SCALP CLEANER, the only Dandruff cure. It kills the Dandruff germ. For shampooing it has no equal. Price 50 cents.

FREE To show how quickly it acts we will send a large sample free by return mail to any one who sends this advertisement to the 7 Sutherland Sisters, with their name and address and 10 cents in silver or stamps to pay postage.

Committee Vs. Council.

St. Thomas has acquired the eleclighting plant, by arbitration and purchase, from the private corporation which owned it, and once there is great public concern as to how the property shall be man aged. At present it is in charge of contemporary argues : "It is decidedly in the interests

the ratepayers that commissioners be placed in authority. In this way there would not be a continual build ing up and tearing down of the sys em. Too many cooks spoil broth,' and this is exactly what will where the city councillors dictate to the manager there is not the high state of efficiency that is brought about by commissioners. The aldermen do a little wire-pulling for the sake of placing friends in positions. 'St. Thomasites are tired of mismanagement of civic affairs and they desire that commissioners shall be placed in charge. The aldermen can surely have no objection to the commission as honest management would only necessitate extra work on their part and bring no reward. "If the commissioners are not and that is that the aldermen desire to do a little grafting. In the meantime electors will keep close tab on their interests are placed in the per hands. The electors of this city are tiring of Carnegie library storage battery and speedway deals, and they slept in the past."

All these remarks recall the emotions that possessed our people year ago when the city went into the lighting business, and debated for time whether its interests would not be safest in the hands of commission ers. The council decided eventually in favour of a committee, and there are some misgivings as to the wisdom of this course. The insinuation that the St. Thomas council may be under the influence of the grafters is a serious

Deferred Dividend Policies. One of the strong recommendations of the Frick committee in the Equitacase is that the business should be the report on this point meant anything it was this-that the sooner the society adopted the simple plan of life protection the less money is would have or hold and the less tempta- turned to his solicitor: "That's all tion there would be to gamble with the funds. The Frick report was re- tric chair, an' I hope they won't be jected in its entirety, because 'it was radical in its tendencies and meant a complete reform of the business

Its essentials, however, are being cutting his throat. carried out. The officers who have so seriously mismanaged things are down and out, and Mr. Jerome, the New York district attorney, is exam ining the record of wrong doing before proceeding against the wrong doers and moving for their reward. The report of the state superintendent of insurance is a startling revelation, and it is but a glimpse into the ini quity. All Mr. Hendricks has so far done is examine the expenditures. They look bad enough. The greater surprise may come when he examines into the revenue and resources of the society. And now the magazine Era, which did so much to expose the Equitable's nismanagement, is after the Mutual.

another of the "Big Three." It finds that the company has a cinch on the deferred dividends because the company can settle for them when the comes on any basis that suits who have learned by experience the proceedings was granted to neagreness of results on deferred di

Era, "prove that the treatment members in settlement of deferred dividend has been little short of swindling." A man pays from twenty to safeguarded and returned to him with earning, and in quantity to compensate him for his over-payments, and he gets "a gold brick"-without compensation. And, marvelous to relate, there are hundreds and thousands of sple who are being cheated in this

nsurance on the semi-tontine ferred dividend plan-as exemplified by Mutual-"is a delusion and a

DOCTORS FAIL

AND MRS. PINKHAM SUCCEEDS Plain Reasons Are Here Given to Explain Why Lydia E. Pinkham's Vegetable Com-

nound Cures When Doctors Are Powerless A woman is sick; some disease peculiar to her sex is fast developing in her system. She goes to her family physician and tells him a story, but not the whole

She holds something back, loses her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and thus completely mystifies the doctor. Is it any wonder, therefore, that the doctors fail to cure the disease? Still we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her

It was for this reason that years ago Mrs, Pinkham, at Lynn, Mass., determined to step in and help her sex. Having had considerable experience in treating female ills with her Vegetable Compound, she encouraged the women regard to their complaints, and being a woman, it was easy for her ailing sisters to pour into her ears every detail

In this way she was able to do for them what the physicians were unable to do, simply because she had the proper information to work upon, and from the little group of women who sought her advice years ago a great army of her fellow-beings are to-day constantly applying for advice and reand the fact that many thou them have been cured by following the advice of Mrs. Pinkhan during the last year is indicative of the and results which are produced by unequaled experience and training physician in the world has had ch a training, or has such an amoun of information at hand to assist in the treatment of all kinds of female ills from the simplest local irritation to the most complicated womb diseases This, therefore, is the reason why Mrs. Pinkham, in her laboratory a Lynn, Mass., is able to do more for the women of Canada than the family physician. Any woman, there fore, is responsible for her own suffer ing who will not take the trouble to The testimonials which we are con stantly publishing from grateful wo men establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases

LORD CURZON MAY RESIGN

Owing to Kitchener Being Given Control of Army. India, June 27.—It is freely rumored that the viceroy, Lord Cur zon, has either already tendered his resignation or shortly will do so, in consequence of the decision of th home government, whereby Lord Kit chener, commander-in-chief of the force es in India, has been given complet control of the army in India. It is not believed that it will be accepted

ting his post, at least until after th

rince and Princess of Wales hav completed their tour of India, extend ing from November to March.
