WHY DOCTORS FAIL  
AND MRS. PINKHAM SUCCEEDS  
Plain Reasons Are Here Given to Explain  
Why Lydia E. Pinkham's Vegetable Compound Cures When Doctors Are Powerless

Why do doctors fail?  
A woman's sick, some disease peculiar to her sex is fast developing in her system. She goes to her family physician and tells him a story, but not the whole story. She holds something back, loses her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and thus completely mystifies the doctor. Is it any wonder, therefore, that the doctors fail to cure the disease? Still we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her family physician.

It was for this reason that years ago Mrs. Pinkham, at Lynn, Mass., determined to step in and help her sex. Having had considerable experience in treating female ills with her Vegetable Compound, she encouraged the women of Canada to write to her for advice in regard to their complaints, and being a woman, it was easy for her ailing sisters to pour into her ears every detail of their suffering.

In this way she was able to do for them what the physicians were unable to do, simply because she had the proper information to work upon, and from the little group of women who sought her advice years ago a great army of her fellow-beings are to-day constantly applying for advice and relief, and the fact that many thousands of them have been cured by following the advice of Mrs. Pinkham during the last year is indicative of the good results which are produced by her unique experience and training.

No physician in the world has such a training, or has such an amount of information at hand to assist in the treatment of all kinds of female ills, from the simplest local irritation to the most complicated womb diseases. This, therefore, is the reason why Mrs. Pinkham, in her laboratory at Lynn, Mass., is able to do more for the ailing women of Canada than any other physician. Any woman, therefore, is responsible for her own suffering who will not take the trouble to write to Mrs. Pinkham for advice.

The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

LORD CURZON MAY RESIGN  
Owing to Kitchener Being Given Control of Army.  
Simla, India, June 27.—It is freely rumored that the viceroy, Lord Curzon, has either already tendered his resignation or shortly will do so, in consequence of the decision of the home government, whereby Lord Kitchener, commander-in-chief of the forces in India, has been given complete control of the army in India. It is not believed that it will be accepted, or that the viceroy will insist on quitting his post, at least until after the Prince and Princess of Wales have completed their tour of India, extending from November to March.

MRS. MYERS MUST HANG.  
Murderer Smiles When Sentence is Pronounced.

Kansas City, Mo., June 27.—Another woman is added to the list of those sentenced to hang in this country for the crime of murder. Mrs. Aggie Myers, who was found guilty of the first degree murder of her husband, was sentenced to be hanged on August 11th.

An appeal will be taken to the state supreme court. Mrs. Myers was convicted with Frank Hottman, who was infatuated with her, of killing her husband, Clarence Myers, a printer, at their home in this city in May, 1904.

The crime was most cold-blooded. Hottman, who is now under sentence of death for his part in the crime, testified at the woman's trial that she had urged him to kill Myers, had let him into their home on the night of the murder, had given her husband a sedative to put him to sleep, and then, while he cried to her for help, she first struck him over the head with a bed slat and then slashed his throat and back with scissors and razor.

Hottman had first stunned Myers with a billiard cue. Hottman was arrested in Montana, where he had escaped from a woman furnished by Mrs. Myers.

Mrs. Myers stood while Judge Alexander passed sentence upon her. The judge was visibly affected, and there were tears in the eyes of the court stenographer, a young woman.

The group of men who heard the sentence were affected by it. The one person in the court room who was seemingly unmoved and unconcerned was the murderer herself.

Mrs. Myers stood smiling squarely at the judge. There was not a tremor of a muscle. Her face was expressionless. She sat down, and later there was a smile upon her face as she chatted in an undertone with her lawyer.

The defendant will have until November next to file an appeal.

THE HOSPITAL AID  
Got Through Much Work at Yesterday's Meeting.

There was a large attendance of the members of the Woman's Hospital Aid Association at the meeting on Monday afternoon, and much business was done. Arrangements were made for getting supplies of jam and fruit from housekeepers, and also for procuring vegetables from farmers. These will be left at some central station in town, and will be delivered at the hospital by the shop's delivery wagon.

The matter of the bazaar, to be held next October, and in which the teachers are interesting the children of the public schools, was fully discussed. All promise to work with enthusiasm throughout the summer for the good object.

During the month \$55 has been spent on crockery and cutlery and the hospital is now very well supplied. Sampson ward is in great need of renovation, and the committee will, with the \$50 on hand, see what can be done towards its refitting.

So far the work has gone on smoothly and well. Nothing has transpired to pull it back, and the officers of the association feel greatly encouraged. It is felt that people have been at all times ready and willing to help our worthy institution for the sick, and only needed some little organization through which to give their bounty. The committee adjourned to meet again in September.

A R.M.C. Graduate Drowned.  
A. A. Blanchard, one of the staff of the Dominion Bridge company, Montreal, was drowned on Sunday by the swamping of a canoe in which he was coming from Ile Heron. Blanchard was employed in the engineering department of the company. He graduated from the Royal Military College, Kingston, in 1902, and McGill, Montreal, in 1903.

He was a son of Dr. Blanchard, of Charlottetown, P.E.I. He had been in the employ of the Dominion Bridge company since May, 1902.
