

DIAMONDS!

Diamond Jewelry is something about which expert advice must usually be taken.

Our knowledge of Diamonds is a part of every purchase of Diamonds-Set. Jewelry you make here-a very valuable part for which you pay nothing.

We have the newest designs in Brooches and pendants. Our rings have a style and quality of workmanship not excelled.

SPANGENBERG, Jeweler, King Street.

FROZEN Dainties!

Warm weather intensifies the craving for frozen things, and the Ice Cream Freezer becomes the hard-worked friend of the family.

Peerless Iceland

From 1 pint to 10 quarts. One motion and only takes three minutes to freeze.

Warm weather is thirsty weather, and suggests ice cold drinks, and if you are an expert mixer you will want a Lemon Squeezer, an Ice Pick, and probably a Cork Screw, and the best can only be had at

COMMERCIAL MATTERS.

What Is Going On In the Business World-The Markets.

A Chicago Board of Trade membership sold at \$3.12 1/2 per cent. A crop of 21,000,000 bushels of wheat is the estimate for California this year. It was 17,474,000 last year.

The Canadian Salt company has declared a quarterly dividend of \$2 a share, payable July 2nd, to shareholders of record June 28th.

The New York Journal of Commerce estimates total July interest and dividend disbursements at \$140,300,000, an increase of \$5,500,000 over July a year ago.

Gross earnings of all railroads in the United States reporting for the two weeks of June are \$10,398,494, a rate of 8.1 per cent. over the corresponding period last year.

The Twin City Rapid Transit company's earnings for the second week of June amounted to \$20,380, being an increase over the same period last year of \$7,153, or 5.54 per cent.

At the present time the unpaid dividends in Canadian banks amount to \$2,000,000,000. This amount is not small, and the chances are that it will never reach their owners. The unclaimed balance in the banks amount to over half a million dollars, which is the largest amount for some years.

Poisonous Candy.

A Montreal journal calls attention to the evil done by poisonous candy in the east side of that city. The health inspectors, after weeks of investigation, have revealed amazing conditions. Some candies are so harmful that immediate legislation is being demanded, for prevention as well as punishment. Deaths have been greatly increased through these sweets. Caramels contain paraffin to give them consistency, and it remains a dead weight upon the stomach because it is unaffected by gastric juices. Some candies were found to be colored by aniline dyes. Glucose, freely used, is made from grape sugar, and will not assimilate in the stomach either.

County Examinations.

The county schools close on Friday for summer vacation. Entrance examinations are now being held at Wolfe Island, Cataraqui, Sydenham and Sharbot Lake, and the number of candidates writing, Inspector Spangin says, is larger than ever before.

There is a great field of horses for Gananogue races on Saturday.

50c. Tape Girde corresponds for 30c. New York Dress Reform.

THE TORONTO WORLD

WILL BE DEFENDANT AGAINST FOUR ACTIONS.

On Account of Articles on Civic Affairs-Waterways Commission to Meet in July-A Fashionable Wedding.

Special to the Whig. Montreal, June 28.-Four actions, for \$200 each, were taken out by Aldermen Payette, Contino, Lavallee and L. A. Lapointe, to-day, against the Toronto World in connection with the recent articles on civic affairs.

The international waterways commission, composed of representatives of the United States and Canada, will meet at the board of trade, in Montreal, in July, to consider the matter of the proposed damming of Lake Erie.

A very fashionable wedding took place this morning, in Archbishop Pruchesi's chapel, when Bishop Burke, Albany, married Kathleen, youngest daughter of Hon. James McShane, to William Howard Buckley, Albany.

A BUNCH OF ANGRY BEES.

Drive Folk From Home, Send Doy To Hospital.

New York, June 28.-A swarm of bees disturbed during building operations at One Hundred and Thirty-Sixth street, and Brown Basin, in the neighborhood into a panic, drove people from their flats, stung a score of women until they were in a frenzy, and killed a boy so badly that he had to be taken to hospital.

A gang of laborers were blasting away rock for the foundation of some flats, and seeing the storm approaching, Antonio Alfieri, the foreman, prepared a particularly heavy charge, with the idea of blowing out enough rock to keep the men busy after the rain ceased.

This blast threw out a piece of rock weighing 400 pounds, which fell directly in the track of the waggon, which haul the stone. Alfieri ordered the men to roll it to one side, and swarmed out and angrily attacked the men. The bees alighted on them by the score, and stung viciously. The men shrieked and fled in all directions, pursued by the angry bees.

The fierce little creatures entered the open windows of flats in the vicinity and in many instances drove the occupants, frantic with pain, to the street.

Warren Kraus, a small boy who lives at No. 827 East One Hundred and Thirty-Fifth street, was terribly stung about the hands and arms, which he had so badly he was taken to the Lincoln Hospital. Later he was sent home, still suffering excruciating pain.

The bees finally returned to the hole in the rock, and a policeman secured a piece of burlap, which he placed over the hole. The bees came out and alighted on the burlap. Then the "cop" walked off with the bees.

REPORT OF TRAINING.

Play Began in Amateur Golf Championship.

Special to the Whig. Toronto, June 28.-In his report to the educational department, Albert H. Leake, inspector of manual training, gives information as to the progress that has been made in the development of manual training, from the mere elementary training to wood-turning and metal work, and in some cases for both.

Hamilton, Brantford, Stratford, Kingston and Berlin. The best equipment and accommodation, so far provided, is at the last named place, where, in addition, admirably suited for the purpose, has been made to the Collegiate Institute.

Play in the amateur championship of the Royal Canadian Golf Association began on the links of the Toronto golf club, this morning. The qualifying round is eight holes, and the sixteen players returning the best scores will be drawn against each other for the championship.

FOUND THE MULES.

A Mystery of War Has Been Cleared.

Johannesburg, June 28.-One of the darkest mysteries of the Boer war is partly cleared up by the first report of the public accounts committee, just issued. It will be remembered that 84 mules which were landed at Beira in Portuguese East Africa for service with the Rhodesian field force unaccountably vanished immediately afterwards. Lieut.-Col. Beale, director of the transport, has now discovered, however, that 600 of these mules actually reached the force, and went on service with it. This leaves only a deficit of 151 mules.

VESSELS SEEN.

What Vladivostok Has Been Looking For.

Special to the Whig. Vladivostok, June 28.-Japanese warships believed to be torpedo boats, were seen on the horizon yesterday.

Before August 10th. St. Petersburg, June 28.-The foreign office has issued a communication confirming the dispatches that Russia has accepted the first ten days in August as the time within which the first meeting of the peace plenipotentiaries will take place.

The New Barracks.

When here last week, the minister of militia paid a visit to Lake Ontario Park, which had been recommended as a good site for the new barracks. He stated that the barracks would soon be commenced, but would not say whether the park would be the site. It is thought that a change of location may be made.

Right Now Is The Time.

For canning strawberries as they are now at their best and cheapest. Fresh stock every morning, at Carnovsky's. Baskets of cherries are also coming daily.

FITH OF THE NEWS.

The Very Latest Culled From All Over The World.

The condition of Secretary of State John Hay continues favorable. The Guelph city council decided to purchase an electric light plant in Galt.

The city engineer has men employed laying asphalt crossings at the corner of Division and Union streets. They are laying three instead of one as was first intended.

Among the real estate transactions at Thousand Island Park, is the purchase by C. J. Lunstrom, Little Falls, N.Y., of a valuable lot at Crystal Bay, formerly owned by W. B. Skinner, of Kingston, Ont.

Ex-Cadet Constantine really accepted a commission in the R.C.E.A. stationed here, he will prove a well-earned addition to the sporting fraternity. His ability on the track and in football and hockey circles was amply demonstrated during his sojourn at the R.M.C.

Chief Engineer Resigns.

New York, June 28.-John F. Wallace, chief engineer of the Panama canal, and member of the commission, has resigned both these positions to accept a \$60,000 office with a New York corporation. Mr. Wallace was asked the cause of his resignation. He replied that his position in the matter was a delicate one and referred his questioner to Secretary Taft.

Situation Is Quiet.

London, June 28.-The conditions, at Leeds, are unchanged, excepting that most of the workmen have returned to work. Martial law still prevails. The universal condemnation of the strike movement has had the effect of quieting the situation.

Master William and John O'Neil, Portsmouth, are visiting friends at Amherst Island.

GRADUATE DROWNS

HE WAS A BROTHER OF J. C. ALMON.

The Remains Were Sent to Milwaukee for Burial-A Report Sent to Mr. Almon of This City.

News reached the city to-day of the death of Mather B. Almon, brother of J. C. Almon, accountant of the local branch of the Bank of Montreal, and well-known to many residents of this city. The sad fatality was of a dual nature and due to the swamping of a canoe upon the Upper Ottawa river on June 16th. Deceased was a graduate of the Royal Military College, and a son of Mather B. Almon, Halifax. The remains were sent to Milwaukee for interment, where his wife resides. Robert Smallian, roddman of the survey party, and the survivor of the mishap, sent a report in to Chief Engineer Lumsden of the Transcontinental railroad at Ottawa. In a letter to J. C. C. Almon, of this city, Mr. Lumsden sets forth the particulars of the regrettable incident:

"On the morning of June 16th, 1905, Messrs. Almon, White and Smallian left for the upper Ottawa river with canoe to explore a creek supposed to cross the line ahead, to get supplies in. At 5 p.m. while going down the swift current with White in bow, Almon at centre and Smallian steering, the canoe upset. All held on for a few minutes until they were washed shore from above. Almon and White let go trusting to swim, but failed to reach a place of safety. Smallian clung to the canoe. A paddle came floating along. He seized it, and after a hard struggle managed to reach shore with the aid of the eddy. Smallian walked up and down shore shouting, but neither heard nor saw any signs of them. He remained on the scene of the accident all night, and arrived back at camp at 2 p.m. on the 17th, and reported the accident.

"A. F. Pickering, leveler with the party, started Sunday morning, June 18th, with Smallian and four Indians for the scene. They searched Sunday, Monday and Tuesday, and found Mr. Almon's body at 8 p.m. on the 21st, and took it to shore. They then sewed blankets and canvas tarpaulins around the body and Smallian and two of the Indians started with the remains Thursday for Ville Marie, Pickering and the remaining Indians, on Thursday, found White's body floating in the river one and one-half miles below the scene of the accident.

"There was a very strong current approaching the Falls at the place where the mishap occurred. The Falls are about fifteen feet high with another very swift current for 800 feet. The spot is located four miles below the portage, starting from the Otte-tawa river and heading north-easterly to reach the waters running into Seal's Howe Lake."

The late Mather B. Almon was born in the year '61 and graduated from the Royal Military College in 1883, being at the time of his death on the reserve of officers.

RATS ON A WIRE.

Blondin Outdone By 150 Hungry Rodents.

Sligo, June 28.-A graceful exhibition of wire-walking was given by a number of rats at Sligo this week. An excise officer, who was cycling by the town hall, happened to look up, and saw an enormous rat making its way along an overhead electric wire. He pointed out the Blondin rodent to the town hall officials, and they watched nearly 150 of the rats pass along, until they were hidden from sight by a lofty beam mill. The rats used their tails as the professional walker on the lofty wire uses his balancing pole, and although they were watched for more than 200 yards they were no casualties.

A Lawn Social.

Harrowsmith, June 27.-The Presbyterians are preparing for their annual lawn social to be held on Tuesday evening next in their church grounds.

Rev. G. S. Milligan's mother and sister, Mrs. John, N.B. have arrived, and will spend the summer with him in the manse. J. Delina is building a new house for his son, R. Delina. Cement walks are being laid on part of Ottawa street. A number of men from this vicinity are in camp with the volunteers. Miss Myrtle Cook has returned from visiting friends in Kingston. Miss Theresa Davidson is visiting friends at Verona. Miss Myrtle Gallagher is home from Toronto, conservatory of music. Several of our public school pupils are writing on the entrance examinations at Sydenham. Miss Duff leaves on Thursday for a two months' visit with her parents, Mrs. Boigt and little son, Gerald, have gone to Nova Scotia to visit Mrs. Hoyt's parents. William Woodruff has purchased the property known as Close's Mills, and will move there this week. B. Cook, of the steamer Arabia, made his parents a short visit on Sunday, returning to Kingston on Monday. Mrs. Myles, Nanapanee, spent a few days with Mrs. Callaghan at the Albion hotel.

New Street Watering Limits.

To-day, for the first time the extended street watering limits were covered. There are seven watering carts at work, but the district is pretty large for them to cover. Next year another cart will likely be added.
