COMMERCIAL MATTERS.

What Is Going On In the Business World—The Markets.

Achievement net earnings for eleven months highest since 1902. Y.P.C.A. gains reduction for first half of 1905 will break all records. A company of which Dr. Beattie Nesbitt, Toronto, is president in negotiating to start a third factory in Stratford. The Twin City Rapid Transit company's earnings for the third week of June amounted to \$91,180, being an increase over the same period last year of \$5,871, or 6.89 per cent. The Lake Erie and Pittsburgh railroad, now in course of construction between Lorain, Ohio, and Pittsburgh, has been purchased by the U.S. Steel Corporation at a cost of several million dollars. A seat on the Montreal exchange sold for \$20,000, it was sold by a broker, who was turned down at its price, and was bought by George Southern. This is a gain of \$3,500 from the price a few weeks ago. The grain-growing districts all over the province received by grain dealers and other in Toronto, report a pronounced change for the better in crop prospects, and say that with a continuance of present conditions prospects are excellent for perhaps somewhat better than an average crop of all grains.

The Cheese Markets.

Pictou, June 28.—14 factories hoarded 1,945 boxes; 1,605 sold at 91c. Montreal, June 28.—1,015 white cheese offered at 97-100c. Woodstock, June 28.—1,160 boxes white and 1,500 boxes natural cheese. Prices bid, 91c. to 94c.; 880 boxes sold at 91c.

A Military Concert.

The first military concert ever given by the citizens to the campers at Barfield will be held in the city hall, on Sunday afternoon, at three o'clock. It is for soldiers only and under the auspices of the W.C.T.U. and Y.M.C.A. of Kingston. Some 2,500 tickets have been issued for distribution among the volunteers, who will no doubt appreciate the interest displayed in their welfare. The music will be under the direction of Mrs. Hobbs and furnished by Chalmers church choir. Rev. Mr. Lipscombe, curate of St. Paul's, will give a fifteen minutes' talk. During the afternoon cold lemonade will be disposed of to the soldier lads.

Highlands' Moonlight.

Some five hundred people took advantage of the moonlight excursion of the Highland Clipper last night. It was what will probably rank as the success of the season. Perfect order on board and plenty of music by the 14th band made it all an enjoyable one. During the cruise, ice cream and cake were served in the cabin by the ladies. The America took the pleasure-seekers down the inside of Howe Island and returned by the outer channel reaching the city about ten minutes past eleven. Capt. Hughes was amply repaid for his pains in making the excursion a success and only words of praise are to be heard regarding the outing.

Died At Herkimer, N.Y.

Word was received here, Monday evening, that Thomas Bedard had died at Herkimer, N.Y., that afternoon. He was the eldest son of John Bedard and left here for the States many years ago. His brother, James Bedard, took the morning boat on Tuesday to attend the funeral. A sad farewell is connected with his death is that his daughter, died in Kingston, on Saturday, and was buried in that city on Monday—the day her father died.

Should Be More Liberal.

The managers of the city baseball league ask for more liberal contributions when the hat is passed round at the Cricket Field on Saturday afternoons. Last Saturday only \$1.50 was collected, though there must have been 600 people in attendance. The league needs some money for outfit expenses.

TO STAY THE RIOT
GOVERNMENT DESPERATE IN STAMPING OUT REVOLT.

Officials Fear That Men on Other Ships Will Refuse to Fire Upon Rebellious Sailors When Ordered Uprising Spreads to Liban.

St. Petersburg, June 30.—The Russian government, although paralyzed by the events at Odessa and news that the sailors at Liban also have mutinied, is making desperate efforts to stamp out the flames of revolution before they can spread to the army, the last bulwark of the autocracy.

With Poland red with revolt, the Caucasus disorders spreading rapidly, the whole country profoundly stirred

VICE ADMIRAL SKRYDLOFF.

and the intelligent classes splitly arrayed against the government, all conditions seem ripe for the long-predicted revolution.

The first act of the government after dispatching Admiral Kruger's squadron from Sebastopol was to summon the Kniaz Potemkin, whose mutineers have now been joined by the crew of the two torpedo boats which accompanied it to Odessa, to surrender under the threat of firing upon and sinking the vessel.

This was followed by the declaration of martial law at Odessa and Liban, and the clothing of the military commanders with plenary powers.

Pear is expressed that many regiments are honeycombed with sedition, and there is grave doubt of their loyalty should they be called upon to fire on the revolutionists.

The most startling stories involving the unreliability of the troops are being repeated.

Precautions to keep the news from the public have been in vain, the revolutionaries and the liberals everywhere spreading it by word of mouth, and within twenty-four hours it will be known in the uttermost confines of European Russia.

When the news reaches the armies in Manchuria it is bound to create a deep impression.

Kruger were not unanimously approved. Among others Vice-Admiral Skrydloff openly expressed the opinion that Kruger's blue jackets would not fire on their comrades on the Kniaz Potemkin but that they, too, might revolt should they be ordered to shoot.

It is reported that the crew of the battleship captured two English ships loaded with provisions and is holding them alongside.

The fact that Kruger had not arrived at Odessa up to midnight gave rise to rumors that the crews had actually seized the other ships of the squadron.

Odessa dispatches state that millions of dollars worth of property, including ships, has been burned or otherwise destroyed. The city is terror-stricken, and hundreds have been killed or wounded.

STREET CAR SITUATION.
More Concessions Are Asked From The City.

The civic finance committee, which was appointed by the city council to deal with the street railway situation, had a conference yesterday afternoon with representatives of the bondholders. Some revisions will have to be made in the concessions offered by the city council if the road is to be got in operation soon.

The finance committee was asked to recommend to council the exemption from taxation of the barns on King street east and also the extension for another month, or to September 1st, of the offer of power from the city's engines, so that more time be afforded the new company, being formed, to arrange for the purchase of a separate engine for the road. A special meeting of the light and power committee will be held to consider this latter question. It is expected that the whole matter will be settled at the city council meeting on Tuesday evening.

Agreement With Portsmouth.

Last evening, W. F. Nickle and H. W. Beardon, representatives of the bondholders of the company, conferred with the Portsmouth council and agreed for concessions. Reeve Fisher and Councilors Kennedy, Baiden and Mathewson, were in attendance. The council decided to concede the following things:

1.—To keep in repair the road intersections opposite Short's hotel, the one at Church street and a short piece at the corner of Union and Front streets, providing this does not conflict with any clause in the present agreement regarding liability in case of accident.

2.—Twenty-five years' exemption from taxation providing the city does likewise.

3.—Reduced service from September 15th to June 15th.

4.—Cleaning snow from street, and if the snow is not removed by corporation between Short's corner and asylum gate, to allow the cars to stop at Short's corner during the winter.

ODYSSA.

The Russians of Odessa comprise scarcely one-third of the 600,000 inhabitants of the city, about 150,000 of the residents being Jews and the remainder Greeks, Armenians, Poles and people of various European nationalities. In general the members of the lower classes of Odessa are persons of the most desperate character.

There are about 40,000 troops of all arms at Odessa, but there are no fortifications in which they could stand a siege if the rioters and mutineers got the upper hand.

\$3,000 TO THE TON
A GREAT YIELD IN SILVER ORES.

The Succession Duties Are Running Very High—Prof. Miller Returned From An Inspecting Tour.

Special to the Whig. Toronto, June 30.—The province received in succession duties, this month \$32,846.01. For the half year duties amounted to \$322,803.63 as against \$291,127.94 for the same time last year, an increase of \$9,475.72.

Professor Miller, the provincial geologist, has returned from the Temiskaming district, where he has been investigating the mining properties. He states that the new mines found on Kerr Lake, three miles east of Cobalt station, are as rich in silver cobalt as are the cobalt mines. These mines are now steadily shipping ore that yields \$3,000 to the ton.
