FROZEN DAINTIES!

Warm weather intensifies the craving for frozen things, and the Ice Cream Freezer becomes the hard-worked friend of the family.

This year we have the **Peerless Iceland**

From 1 pint to 10 quarts. One motion and only takes three minutes to freeze.

Warm weather is thirsty weather, and suggests ice cold drinks, and if you are an expert mixer you will want a Lemon Squeezer, an Ice Pick, and probably a Cork Screw, and the best can only be had at

COST OF INSURANCE

AN ENORMOUS OUTLAY ON ACCOUNT OF EXPENSE.

The Calculations of Actuary Harvey-Room for Reform—Who is Paying for the Waste?—Fraternalism Commended.

Kingston, July 6.—(To the Editor): Charles J. Harvey, Fellow of the Institute of Actuaries, and a consulting actuary, has a very able article on "Fraternalism the Solution of the Expense Problem in Life Insurance" in the Insurance World. Actuary Harvey is one with old line insurance leading and training. The thorough and comprehensive comparisons which he has instituted between the fraternal orders and the old line companies has led him to conclusions that ought to be interesting to all fraternalists. He summarizes the report of eighty-one old line, industrial and ordinary, as per their reports for the year ending 31st December, 1903. These companies had 19,239,972 policies in force; they received in premiums \$447,197,820; their actual expenses and management were \$121,950,708; their mean insurance in force was \$11,036,251,000; and their expense of management on insurance in force was 1.10, and the percentage of expense of management on premiums was 27.27.

Excluding the industrial companies, it is shown by Actuary Harvey that the percentage of expenses on insurance in force per \$1,000 was 394, and the percentage of expenses of management on premiums received was 24.13.

Mr. Harvey then takes twenty of the largest fraternal societies as forming a fair average of the whole. These twenty have a membership of 3,274,657; their expenses of every description for 1903 were \$5,145,577, and their mean insurance in force was \$2,903,571,000. Their percentage of expenses was .105, as compared with 1.10 for the industrial and ordinary old line companies. In other words, the expense element was \$10, as compared to \$1 of the fraternal societies.

Actuary Harvey closes his article as follows: "It cannot, I think, be questioned that reform is needed, but it will never take place until the public awakes to the fact that it is yearly paying an enormous sum unnecessarily: 8.38 per cent. of \$346,889,562, the premium income of the seventy-two old line companies is \$29,069,370, and the difference between this sum and \$83,703,346, the expense of management actually expended is \$54,633,976 upwards of \$54,000,000 per annum. All of this would have been saved if companyism was conducted on the same economical lines as fraternalism, as I think, and others doubtless will think, it ought to be."

Every gentleman representing fraternal societies should carefully ponder these figures, and every citizen should also read them carefully. They contain information which is at once striking and most gratifying to fraternalists.—Yours, CITIZEN.

SEEKS PRESIDENCY.

Tom L. Johnson Expects the Backing of Dunne.

TOM L. JOHNSON.

Chicago, July 7.—Tom L. Johnson, of Cleveland, has his eye on the presidency. He is the democratic nomination for presidency in 1908. If he gets it he will run on a platform declaring for government ownership of telegraphs, telephones and railways. These state matters are freely made in political circles in Chicago.

These ambitions are said to be the underlying motive of Johnson in taking so active an interest in the effort to municipalize the Chicago traction lines. Mayor Dunne is grooming the Cleveland man for the presidency and, it is understood, hopes to deliver him the Illinois delegation.

DEATH IN A KISS.

The Facts Related at Medical Gathering.

Dr. T. H. Thornton, of Coneseon, at a medical council in Toronto, related a significant case that had come under his observation. A young girl from Coneseon had gone to visit relatives at Kingston. While there she had kissed a person afflicted with tuberculosis, and in this way contracted the malady. On her return to Coneseon she, in turn, was kissed by several friends in the village, and by this means three families became infected with the disease and three deaths resulted. The malady he regarded just as contagious as small-pox, and in order to stamp it out, or at least prevent its spread, provision should be made so that consumptives could be isolated and at the same time given the treatment necessary to their recovery.

Good For Stomach Trouble And Constipation.

"Chamberlain's Stomach and Liver Tablets have done me a great deal of good," says C. Towns, of Bat Portage, Ont., Can. "Being a mild physician after effects are not unpleasant, and I can recommend them to all who suffer from stomach disorder." For sale by all druggists.

THIS IS RICH, INDEED!

The Lord's Day Alliance and Ontario Synod.

Toronto, July 5.—(To the Editor): Over a week ago there appeared in the daily papers a so-called report of some discussion regarding the report of the Lord's Day Alliance committee adopted by the Church of England Synod of the Ontario diocese. That report purported to state what G. F. Rutan of Napahaw, said, and did not even suggest what was contained in the synod committee's report, which strongly supported the Lord's Day Alliance, and was unanimously carried. Surely the report was more important than the remarks of a member of the synod, and yet even these remarks were inaccurately stated, and appeared under glaring headlines doing a gross injustice to both the Church of England and the Methodist church, as well as to Mr. Rutan. I wrote Mr. Rutan about the matter, and quote from his reply, dated June 28th, as follows: "In reply to yours of the 27th inst., would say that I deeply regret that my remarks at the session of the Ontario Synod should have been reported as they were. In speaking on another subject, I incidentally remarked that the Sunday excursion referred to by you, was not got up to accommodate people who wished to attend the Methodist conference at Picton, and I further stated that I believed that the excursion was promoted by the captain of the steamer Reindeer. I have no reason to believe it was promoted by the Methodist church. I am in sympathy with the Lord's Day Alliance in containing one day of rest under the statute laws of Canada for the laboring people, and must say that it is unfortunate that the reporters for the public press enter so much to the sensational loving public. Make such use of this letter as you wish in connecting the false impression given."

I hope you will give this letter a prominent place in your columns, and thus help to correct a very great and grave wrong to the Christian church, and to an important cause.—T. ALBERT MOORE, Secretary, Lord's Day Alliance.

This letter would pass without comment did not Mr. Rutan go out of his way to have a ding in newspaper fellows. Their catering to sensationalism is not very evident in connection with Ontario Synod, whose treatment has been kindly and indulgent. Assuredly Mr. Rutan was understood as reported. Interviews with members of synod to-day substantiating confirm this view. Mr. Rutan's remarks were not made when Mr. Moore was present in synod, nor upon the alliance committee's report, but was intercepted into the editorial debate. The alliance report came up several hours later and was passed without reading or comment, having been printed. If Mr. Rutan's remarks had been made, as they should have been when Mr. Moore was before the synod, all misunderstanding would have been avoided, in the explanations exchanged. By-the-way, for a lawyer, the manufacturer of sensation before jurors, to be accusing others of it, is too rich for church blood.

The Oxford Chancellor Range has two distinct grates and fire-box linings for coal and wood. Either is supplied as requested.

The hard coal-burning fire-box of the Oxford Chancellor Range is fitted with "iron-stone" front and back linings and iron end linings and a patent duplex grate. The grate may be removed without disturbing the linings. For soft coal burning cast-iron linings throughout are supplied.

Oxford Chancellor Range

There are many excellent, exclusive features in the construction of the Oxford Chancellor Range which we would like to explain to you. Your address on a post card will bring our booklets, and the address of the nearest dealer who can show you the range.
