SUPPORT HOME TRADE.

changes in regard to supporting home trade. The practice of some people who spend their money at the large stores in cities and neglecting the merchants in their own town, where they make their money, is not a fair er, importer, or local merchant. The following from the Signal of Goderich, of June 22nd, is well to the point: Every mail that comes to town brings numerous catalogues, and many of them beautifully and artistically illustrated, from the large wholesale and retail stores of the cities. They are received by the townspeople and the farmers. Did you ever stop to think of the real purport of these catalogues? They are merely advertisements calling your attention to firms that have goods to sell. In these catalogues you attention to things our home merchdraw your trade away from home as long as you can find what you want credit when you are in need; and in 14th, 1900, as his troops filed past to merit a portion of your trade? APPENDICITIS.

The true cause of appendicitis is sluggishness of the bowels, constipation and the gases which are formed in consequence produce germs known to the scientific physician as the Bacilli Colli Commensis. Now to avoid this formation of gas germs, constipation and the resulting inflammation, take Smith's Pineapple and Butternut Pills, which have been tested in all the various diseases of the stomach, bowels and liver, and found to be the greatest and best preventative remedy known.

THE FARMER'S WIFE

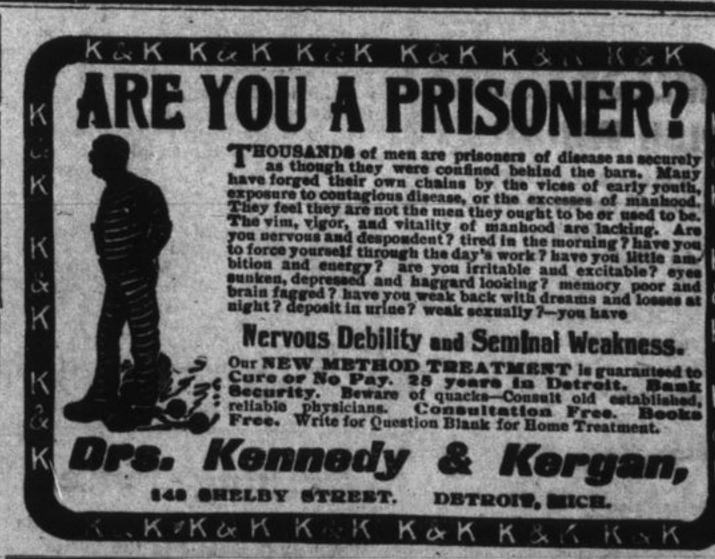

May Make Money By Raising and Selling Poultry.

Each year more farmers' wives are realizing that profits are to be de rived from poultry cultivation and are raising better poultry and more of it. The fact that there is money made out of raising chickens and selling eggs becomes a strong inducefowls are made to pay for the gromishing a part of the meat used

of the opportunity of making this extra money and who spend a little farm will be surprised at the profits that can be derived from their efforts. It is not necessary to invest a large amount of capital in order to engage

in raising poultry.

It can be started on a small scale, and the flock can be increased each year with little expense until you have as many fowls as you have room to keep and time to care for. When starting in the poultry business it is very important that you select a good breed and continue with it, and raise good healthy birds. Consider very carefully before starting the business, selecting a suitable breed of fowls. The fowls should have a good house, not too warm and large enough smith's Pineapple and Butternest Pills seld in the winter. It is better to have a separate house for every hundred birds. They do much better when they have plenty of room, Make plenty of nests for them and keep the nests clean and at all times well filled with good, clean straw. In the summer time give the flock a good park to run in with plenty of shade, fresh water and grit. Proper food and good care will result in ample returns for your time and money invested.
