The Tidings From Various Points in Eastern Ontario—What People Are Doing And What They Are Saying.

Recovered From Illness.
Vennachar, July 11.—Simon Ball is able to be out again after his severe illness. Samuel Jackson, ill, is a little better. Misses Malinda and Ethel Bebes are spending vacation at Watertown, and other parts of the States. Miss Annie and Mr. Connor spent a few days at Snake Creek recently, visiting friends. Lester Goodrich has returned to Kalarah, N.Y.

Purchased New Engine.
Wilton, July 12.—George Simmons has purchased a new engine and boiler for his grist mill from a London firm. Bernard Mills is suffering with rheumatism. Mrs. A. A. McQuinn, Beachburg, and W. B. Storms, Montreal, returned last week after a visit with their parents, Mr. and Mrs. R. Storms, M. G. Storms and wife, Mississippi, spent several days at E. Storms' James Bullock, Lynn, has been visiting his son, C. W. Bullock, Mr. and Mrs. B. B. Shibley spent the fourth with friends in Rochester. Miss McLennaghan, Perth, is the guest of Miss Paula Mills, Mrs. Emerson, and Mrs. (Dr.) Jaquith, Newark, N.J., are spending a few weeks with friends in Wilton. Miss Pearl Switzer was the guest of the Misses Frank and Hattie Lake, Kingston, for a few days last week.

Sent To Jail.
Stoco, July 11.—Farmers have started hay cutting. William Cassidy has opened a store with a stock of groceries. Peter Murphy has once more become a resident of Stoco. Peter Lennahan's new barn is somewhat differently planned from anything of the kind in this locality; E. Kehoe, Elvira, is the architect. The angle over the feeding of pigs in Stoco cheese factory has terminated somewhat seriously, namely, in a short term of imprisonment for one of the patrons. While Peter Lennahan was working around his barn, in course of erection, a board fell eighteen feet, striking him in the arm and inflicting a painful wound. Thomas Masterson and Miss Alice Irvine, youngest daughter of the late Dennis Irvine, were united in marriage at the Roman Catholic church by Rev. Fr. Quinn, Monday. Miss Mesinger, teacher, has taken her departure for her home in Campbellford. Miss Laura Leveck is residing with good success in her canvassing tour.

A Pretty Wedding.
Maberly, July 11.—The 12th of July promises to be a big day here. A very pretty wedding took place in St. Albans church, Wednesday, when Miss Gannah, Bathurst, and Mr. Watt, Drummond, were married by Rev. Mr.

FROZEN DAINTIES!

Warm weather intensifies the craving for frozen things, and the Ice Cream Freezer becomes the hard-worked friend of the family.

This year we have the

Peerless Iceland

From 1 pint to 10 quarts. One motion and only takes three minutes to freeze.

Warm weather is thirsty weather, and suggests for cold drinks, and if you are an expert mixer you will want a Lemon Squeezer, an Ice Pick, and probably a Cork Screw, and the best can only be had at

BOAT IN COWS.
How to Treat Animals Affected by Overfeeding Clover.
Death from bloat is not infrequently caused by eating clover with heavy dew on it or after a rain. The following treatment is advised and has been given quickly in severe cases: Spirits of turpentine, two ounces, or eight tablespoonfuls; raw linseed oil, 1 pint; common soda, 1 tablespoonful. Mix and give as a drench, and if the animal does not get relief in one hour and a half give, epom salts 1 pound; sweet spirits of nitre, 2 ounces, or 8 tablespoonfuls; common soda, 2 tablespoonfuls. Dissolve in a quart of lukewarm water and give as drench, after this give the following drench every hour until the animal gets relief: Sweet spirits of nitre, 1 ounce, or 4 tablespoonfuls; common soda, 2 tablespoonfuls. The after-treatment is to give lukewarm water to drink and light feed, thus give the stomach a rest. If an animal is found very badly bloated, it should be bled. The way to do this is to cut a small hole in the skin on the left side, midway between the point of the hip bone and the last rib, and about four inches down from the back bone. After the hole is cut in the skin take a trocar and cannula and insert it. The trocar and cannula is an instrument consisting of a hollow tube in which is contained a pointed instrument. After it is inserted the instrument is pulled out and the tube left so that the gas may escape. If one of these is not at hand a knife may be used and a large goose quill used to keep the hole open until the gas has gone away. When the quill or cannula is removed the wound will heal.

FIGHT FOR HIS MONEY.
Already Started Since Suicide of Chicago Millionaire.
Chicago, July 13.—Lewis W. Stone, a pioneer business man, worth probably \$2,000,000, has lost his life by shooting himself at his home on Michigan avenue. He was eighty-eight years old and had not been well for some time. The fight for his fortune is already on, his widow and nephews trying to prevent any of his wealth passing into the hands of his adopted daughter, Mrs. Frederick Howard. Stone wrote this note before shooting himself: "Mary, Be good to John and his wife. Look out for them. You have not long to live, so you will be provided for, and give the rest to the children and children of Chicago. I have lived too long. L. W. S."

A Tale Of Horror.
Special to the Whig.
St. Petersburg, July 13.—News of the horrors committed at Nakhichevan, in the province of Erivan, which is published here, relates that the Armenians in that region have been completely ruined. Their houses have been demolished and burnt down, their personal belongings looted, their cattle carried off, their crops destroyed or left to perish, churches and schools sacked, and holy images torn down and broken. At Badamli 800 Christians and a priest were converted by force to Islamism, a dozen boys were mutilated, and the church was transformed into a mosque. At Djagrakh, women are stated to have been outraged before their husbands and sons, while thirty-seven men were beheaded in the presence of their wives and children. These atrocities are said to have been the result in part of the agitation carried on by certain persons who find excellent ground for their propaganda in the gross ignorance and brutality of the Tartar and Russian population, and enjoy the secret protection and encouragement of provincial officials.

Crop Outlook In The Northwest.
Special to the Whig.
Chicago, Ill., July 13.—Officials of the Northwestern, Burlington, Rock Island and other railroads of the northwest are optimistic regarding conditions in that section. They declare that while there has been more or less bad weather the reports have been much exaggerated as to the damage done.

Three applications of Peck's Corn Salve will cure hard or soft corns, etc., at Wade's drug store.

HE HAS THE MONEY SO MUCH COIN HE CAN'T USE IT SAFELY.

Los Angeles Visitor is a Man of Mystery—Tosses Big Sums Around Like Chaff—Source of Wealth a Secret.

Los Angeles, Cal., July 12.—Walter Scott, mysterious millionaire, proposes to travel via Chicago from Los Angeles to New York by special train. He will pay \$5,500 for the train. He has offered to pay \$500 more if the train reaches Chicago within forty-eight hours after leaving Los Angeles, and \$20 extra per minute for every minute less than forty-eight hours, if the road will agree to forfeit \$20 for every minute over forty-eight hours. The road has declined this proposition.

Six years ago this mysterious young man, hard of muscle and tanned to a leather finish, was one of Col. Cody's men, and the best "broncho buster" in the entire Wild West outfit. He used to ride the peevish and fretful buckles known as broncos for \$60 a month, taking risks twice a day.

Now Walter Scott is the richest man who calls in at Los Angeles, to judge from the way he spends money. Where he gets it no one knows. It comes from back in the hills or from Death Valley or from some place to which he has never been trailed. He is said to have killed eight men who tried to follow him from Los Angeles to his camp far off to the east, but this he has always stoutly denied.

In California the legend runs that he has rediscovered the famous "Pegleg mine," one of the lost mines of the west, and known to have been the most fabulously rich piece of land in the world. There is nothing improbable in the story that it has been located by Scott.

"Scotty," as he is known in Los Angeles, has eliminated coins and small bills from his calculations. He buys and thinks in hundred, five hundred and thousand dollar bills. He purchases champagne enough in the course of a day to flood a swimming tank and drinks his own share of it. He carries dollar cigars around in his pocket in shaves, and it is estimated that he has never given away less than \$100 a day in tips. The bell boys who wait on him when he is in Los Angeles usually buy race horses when he leaves and take to the track.

It is one of his customs when buying cigars to toss a hundred dollar bill on the counter in payment. When told that the bill cannot be changed he tears it in half and tosses one fragment to the cigar salesman. "That's an easy way to change a bill," he says, as he walks away.

A GREAT BATTLESHIP
Will be Built in Portsmouth Dockyard.

Special to the Whig.
London, July 13.—Construction of the largest and most powerful battleship in the world is soon to begin at the Portsmouth dockyard. It is planned to build the vessel from the laying of the keel plates to the hoisting of the pennant in a period of sixteen months. Thirty to thirty-six months is the average time of present devoted to the building of battleships of smaller size. This rapidity is calculated to result in a great economy, but, nevertheless, the cost is estimated at nearly \$10,000,000. So heavily will this vessel be armed that she will be equal to any two battleships now afloat, and her striking power at such a range as that at which the engagement opened in the battle of the Sea of Japan will be great as any three battleships of the ordinary type. The displacement will be about 18,000 tons. The Dreadnaught, as this battleship will be called, will mount twelve 12-inch guns of the latest type, throwing three 550-pound shells every two minutes. The vessel will be driven by turbines, and will be able to steam at upwards of 20-knots at some time. She will carry no secondary armament.

The elimination of the 6-inch guns, borne by practically all the battleships of the world hitherto, is one of the main lessons deduced from the long-range actions which have been fought in the far east. The essential feature of a battleship in modern conditions, it is now realized, must be the ability to deliver stunning blows at a distance of five or six miles, and this the Dreadnaught, with her dozen great guns, will be able to do with terrific effect. No battleship has hitherto mounted more than four of these weapons.

Have It In The House.
There is nothing else you can have in your house worth so much that costs so little as a bottle of Smith's White Lintment. It will enable you to escape the discomfort of sprains, bruises, swelling, neuralgia, rheumatism and the various aches and pains apt to come to anyone. Costs but 25c. for a big bottle at Wade's.

For tan and sunburn, use McLeod's witch hazel cream, 15c. per bottle. Only at McLeod's drug store.

Perfectly pure soda water, pure ice cream, pure fruit syrups, and luscious thin glazes at Wade's soda fountain. V. R. Marshall returned from Florida to Brockville, two years ago, bringing a baby alligator seven inches long. Now it is four feet long, has a prodigious appetite, and is a great curiosity in the Brockville Lumber company's yards.
