WINDING-UP ORDER

ASKED FOR BY SHAREHOLDERS OF COMPANY.

Reticence as to Its Operation, Annoys Them — Sharples Manufacturing Company in Court—Col. Geoffrey Porter Here.

Special to the Whig. Toronto, July 13.—An application by several of the shareholders of the National Share Copper and Smelting company, to wind up the company, was argued before Justice Anglin today.

The complaint of the shareholders was that they could get no information as to the operation of the company, not even when its directors, Judge Anglin, granted the application, but ordered that the winding-up order should not be issued for a week. If in the meantime, the asked for information is given, argument can be heard again.

The case of the Sharples Manufacturing company, of Pennsylvania, against the National Manufacturing company, of Pembroke, was heard in court this morning. The Sharples company asked for an injunction against the National company to restrain the latter from making a cream separator upon parts of which the Sharples company claim to hold a patent.

The latter company formerly sold the machine for \$100, but reduced the price to \$50, while the National company sold their machines for \$28.50. Judge Anglin refused to grant an injunction, as this would close the door to the National company, but suggested that the latter go on manufacturing separators, and pay royalties of \$15 on the smaller, and \$20 on the larger machine. The disposition of these royalties to be settled at the deal.

Col. Geoffrey Porter, R.E., director of the mint at Calcutta, India, is coming to investigate the nickel mines at Sudbury, to see if the nickel produced there would be suitable for coinage, the Indian government having passed an act authorizing the use of nickel coins. The interprovincial boundary line of Quebec and Ontario, which has been run out forty-two miles off the height of land is to be further extended for 100 miles, if time will permit, this season. E. T. Gibe, deputy commissioner of crown lands, mines and fisheries, Quebec, had an interview with Hon. Frank Cochrane, this morning, with a view to the appointment of commissioners for this purpose, and Mr. Gibe afterwards said Mr. Kirkpatrick, director of the surveys, of the subject. It is desired to prolong the present boundaries which runs on Meridian about 7 1/2 degrees longitude to meet Spatz line of 192 north of Lake Abitibi. This would leave about 130 miles more to James Bay.

FIVE WERE INJURED

STRUCK BY LIGHTNING WHILE WATCHING PARADE.

Banner Also Destroyed—Team of Horses Was Killed and a Grist and Sawmill Was Set Afire.

Renfrew, Ont., July 13.—Five persons were injured by lightning here yesterday while watching the Orange parade, a team of horses was struck, and the grist and sawmill was set afire, but the flames were extinguished before any considerable damage had been done. The injured were: Samuel Adams and M. New, of Ottawa.

Peter Phillips, of Douglas, together with his wife and son.

Those injured had been standing close by a tree watching the parade, and when rain began to fall ran to the shelter of the tree. From a shower the rain increased in volume, and accompanied by thunder and lightning, became a storm. The lightning flashed continuously, and when the storm had been in progress for ten minutes a bolt struck the big tree under which those mentioned in the foregoing had taken shelter. The bolt tore part of the tree away, and all those in the immediate vicinity were prostrated and rendered unconscious.

Medical aid was hastily summoned, and all five were resuscitated, and afterwards returned to their homes, yet suffering from the shock.

A banner of Ottawa lodge had been placed for protection under the tree, and it was torn into ribbons as one effect of the lightning's work.

WHEN THEY COME.

James Robinson, bandmaster of the 14th Regiment, has received a letter from Richard Lake, a former member of the band, and last year's president of the Ottawa Old Boys' Association.

The writer is at present in the Capital City, and a member of the Governor General's Foot Guards' band. He informed the local musicians that the band would be in Kingston, accompanying the Ottawa contingent, during the reunion. It is altogether likely that the members of the 14th will meet their fellow bandmen on their arrival and the massed bands will play to the visitors' quarters. The Ottawa musicians will probably be the guests of their local comrades during the visit here.

Construction will begin in the vicinity of Portage la Prairie, and the first contracts will cover a section 400 miles in length. The reason for starting so far from Winnipeg is the fact that terminal facilities have not been settled definitely.
