Ald. Mowat And The Mayor. Ald, Mowat arose, after the adopttion of the reports, to make a state ment in connection with the discusson on the water works' report, but the mayor ruled him out of order. "Very well," Ald. Mowat said, "the ress will make the explanation I desired to make. It has reference to a statement made by yourself, Mr. Mayor.

Ald. Mowat walked into the centre of the horseshoe and placed a bound copy of last year's council minutes upon the press table, marked at a certain page.

Mayor McFarlane had stated that Mrs. R. A. Singleton, for remission of last year's water works' committee last year he opposed placing meters of taxes on account of vacancy. Rethe adoption of the report of the water works' committee, presented to the city council on March 14th, 1904 was moved by Ald. Meek and second ed by Ald. McFarlane. In the report was this clause (No. 2); "That recommends that rates for water be for lantern slides illustrating the city, gaging of Mr. Campbell as manager collected according to the registration of the meters in the places for which they have been ordered by the committee

This was what Ald, Mowat wanted to read, in order to show that the mayor was not altogether correct in what he had said.

The Waterways' Matter. Ald, King said he wished to correct a statement made by Capt. Thomas Donnelly in a letter published in Monday's Whig. Capt. Donnelly had found fault with the city council over the way it handled the International Waterways commission. The facts are these: The council left the matter to the finance committee, No word was received as to when the commission clerk wired to Montreal. It was then said that the commissioners were well heart's content. pleased with what they learned here, days. All who spoke before the commission had gone into the matter as fully as possible before hand. Ald. King said he regretted being unable to get Capt. Donnelly at the time, the latter being out of town.

The council decided to hold a special meeting next Monday morning at ten o'clock to pass twenty-two local improvement by-laws. Adjournment took place at 10.35 o'clock.
