FARMER'S BRUTAL CRIME.

Blows a Boy's Brains Out in His Berry Patch.

Wheeling, W. Va., July 21.—George Brown, one of the best known farmers of Weisell county, living near New Martinsville, blew out the brains of his young son, William, a fifteen-year-old boy, because he found the lad in his black-berry patch. The boy did not vacate the premises as quickly as Brown desired and felling a shot gun he literally scattered his brains over the premises. The farmer was arrested and the community is so worked up that officers fear an outbreak.

WIDEN STREETS IN LONDON

May Cost English Capital \$150,000,000 or So.

London, Eng., July 21.—Wide streets may be given to London at a cost of \$150,000,000 or so. A royal commission appointed in 1903 to inquire into transportation problems in London, has just reported that the only cure for existing crowded conditions is wider streets. The plan submitted by the commission involves expenditure of \$150,000,000. The commission predicts 11,000,000 population for London in the near future.

AN ALLIANCE

Between Japan And Russia Is Mooted

AT ST. PETERSBURG

JAPANESE ADVANCE FROM KOREA ENERGETIC.

Russia Thinks Possibility of Coming to Terms With England, "Feasible and Logical"

Spirit of Linevitch's Troops Deteriorates.

Social to the Whig.

London, July 21.—The Paris correspondent of the Times cables as follows: M. De Witte, who arrived in Paris, on Friday, will sail from Cherbourg, by the German liner, on Wednesday next. His arrival is preceded by some interesting telegrams from St. Petersburg, one of which makes the important statement that the Russian plenipotentiary is expected to make light of certain difficulties, even that of a war indemnity, if he can only arrange an alliance with Japan.

The theory being advanced is that would imply an alliance, could not be regarded as ignominious. Allied with Japan, Russia would still be able to hold her own in the far east, and besides this idea, however, M. De Witte has so delighted the government that the question of offering Japan indemnity is no longer considered insurmountable. The possibility of later coming to terms with England is regarded as feasible and logical.

Spirit Deteriorated.

London, July 21.—The St. Petersburg correspondent of the Standard claims to have good information that although General Linevitch has been reinforced, and his army is well provisioned and well clad, the spirit of the troops has deteriorated. They do not share the faith of their commander in future victory, and since they became aware of the friendly initiative of the Japanese, they are longing to return to their homes. Some observers believe they would enter another battle reluctantly.

Advance More Energetic.

Russian Headquarters at the Front, July 21.—The Japanese advance from Korea is taking on a more energetic aspect, and is being pushed toward Mounan, Nangan, and Hangawa. The Japanese seem to have received reinforcements from Field Marshal Oyama's main army in front of Gen. Linevitch. A landing of Japanese near Vladivostok is being surprising, and the operations seem to be concentrating in that direction. The Japanese advance in the Island of Saghalien has reached Vladivostok. The Japanese artillery includes forty machine guns.

Baron Komura Arrives.

Seattle, Wash., July 21.—Baron Jutaro Komura, minister of foreign affairs, and peace plenipotentiary of Japan, arrived, on the Great Northern Railway last evening. Baron Komura declined to discuss his mission, but said it was to be hoped that the peaceful impulses of the two nations, thanks to the friendly initiative of Mr. Roosevelt, may be successful in bringing about a permanent cessation of hostilities.

To Land in Siberia.

London, July 21.—A despatch to the Express, from St. Petersburg, announces that the landing of Japanese troops in Siberia is imminent. It is expected the military operations will be transferred to the coast in the very near future, and that is where the Russians are weak.

MAY GET \$100,000 EACH.

Speculation as to Fees for Operation.

New York, July 21.—Senator Clark, after undergoing one of the most serious of surgical operations, is on the road to recovery.

An interesting feature of the case is the fee that will be paid by the company to the men who brought him through the crisis. The operation itself is admittedly one of the most delicate known to surgery. Rare skill and iron nerve are required, and both Dr. McKernan and Mason possess these to a marked degree. Fortunes have been paid by men far less wealthy than Senator Clark for the services of experienced surgeons. His majority of Russia is said to have rewarded the physician of the suppress at the birth of the heir with a fee of \$250,000 and a decoration.

Mr. Armour, of Chicago, paid more than \$100,000 to Dr. Lorenz, of Vienna, for curing the deformity of his little daughter. The late Dr. Evans, of Paris, the American dentist who assisted the Empress Eugenie to escape from a mob, was made many times a millionaire in return for his work on the teeth of royalty and his friends.

It is felt by many that for complete restoration to health Senator Clark will draw his cheque to each of his physicians for \$100,000. This means the Montana multi-millionaire possibly two days' income from his vast mining interests.

Summer Colds.

Laxative Bromo Quinine, the world wide cold cure, removes the cause. Call for the full name and look for signature of E. W. Grove. 25c.

For Campers.

Try Cook's English carbolic soap, prevents and cures mosquito bites, 5c. and 10c. McColl's Drug Store.

A WILD SCENE

When British Government Was Defeated.

IRISH LAND VOTE

REDUCTION PROPOSED BY REDMOND THE CAUSE.

House Rang With Cries of "Resign" Balfour Smilingly Says He Has Nothing to Say

Opinion is Government Won't Resign.

London, July 21.—At a quarter past twelve, this morning, the government was defeated by 99 to 92, a snap division, on the proposal of John Redmond to reduce the Irish land vote by £100.

A remarkable scene of excitement ensued. Nationalists and liberals rose to their feet and waved hats and handkerchiefs, while the glass ceiling of the house rang again and again with the cry of "Resign."

Sir Henry Campbell-Bannerman asked Mr. Balfour whether he had any statement to make. The premier, with a smile, replied that he had no statement to make at present. He would consult his league and give an answer on Monday.

The general opinion is that the government will not resign, but will re-introduce the motion.

May Take Second Vote.

London, July 21.—The result of the vote on the motion to reduce the membership of the Irish land committee, in which the government was defeated, in the House of Commons, shows the majority of the opposition was four, instead of three votes, as first announced.

Mr. Balfour will summon the cabinet for a meeting, at which it will be decided whether the ministry will resign, or demand a new vote on the question. If a second vote is taken, it almost certainly would result in a government majority.

FIERY PLACARDS POSTED.

In Industrial District of St. Petersburg.

Special to the Whig. Moscow, July 21.—At yesterday's session of the Zemstvo congress, after some very outspoken speeches, it was agreed by a vote of 230 to 7, that the proposed constitution be approved and remitted to the Zemstvos, Dumas, and citizens for consideration and re-discussion, in the light of their expressed views on the subject.

A proposal to petition the czar on the subject of the constitution was rejected. The discussion abounded in outspoken condemnation of the government, and in complaints that none of the reforms promised by the czar had been effected.

Fiery Placards Posted.

St. Petersburg, July 21.—Placards displayed by the revolutionary organization in the industrial districts of St. Petersburg, calling on the people to assemble next Saturday and celebrate the half year of the January massacre, are printed at the bottom of the placard.

CRUELTY IN ARMY.

German Officers Convicted of Gross Inhumanity.

Berlin, July 21.—To hang recruits and cut them down on the point of death by a flogging and recall them by whipping was deemed good military fun by two corporals in a Prussian regiment. They were sentenced respectively to three months and three years.

The two non-commissioned officers were shown to have committed hundreds of cruelties against their subordinates.

It was clearly proved that they used to make recruits go through the rifle exercise before gassing stoves until they fainted.

The liberal press finds the saddest thing about this story is the fact that no recruit dare complain, and that no officer noticed this wholesale torture which continued for years.

A civilian doctor discovered horror when treating a young man who had left the army. It was shown that the hanging practice had ruined his health. Reformers ask how they can improve matters when the soldiers are cowardly and silent, and the officers do not observe the flagrant cruelties.

The sentence inflicted by the court on the torturers is milder than the punishment of soldiers who in tempo have raised their hands against their officers.

What a Family Is This.

New York, July 21.—Mr. and Mrs. Leitman have twenty children. They occupied four small rooms at No. 245 Eldridge street. They have lived on \$8 during the last month. They were married twenty-six years ago. He was seventeen; she was fifteen. A child has been born to them every year: the oldest is twenty-five, the youngest two. The husband was committed to jail by Magistrate Wahl yesterday because he could not furnish \$300 bonds to guarantee \$5 a week for the support of his family.

For Ideal Sandwiches.

Clark's potted ham, tongue or game mixed with hard boiled eggs and spread between two thin slices of bread well buttered.

Shoe polish, 5c., at Abernethy's.

SHOT IN CELL.

Steel Walls Fall to Protect Accused Colored Lad.

New Braunfels, Tex., July 21.—A mob battered down the door of the county jail and lynched Samuel Green, a sixteen-year-old negro boy, who attempted criminal assault at this place Tuesday night, on the four-year-old daughter of William Kerbach, a merchant, who lives on the outskirts of the town. The mob could not break into the cell where the prisoner was kept, so the leaders thrust their guns through the opening in the steel walls and fired three shots. The negro sank to the floor dead, and the mob quickly dispersed. The negro protested his innocence to the sheriff.

BOUGHT A STEAMER.

The Iron Duke is to Go to Ogdensburg, N.Y.

Ogdensburg, N.Y., July 21.—The Great Hall Coal Company has purchased the steamer Iron Duke, formerly of the Corregan fleet. The boat was wrecked in the Charlotte harbor last fall but was later raised and is now lying at a wharf there. It will be brought at once to the Ogdensburg shipyard, where all necessary repairs will be made. As soon as this work is completed the Iron Duke will be placed in the coal forwarding trade and will be a necessary addition to the large fleet of Hall boats now plying the lake and river.

FELL THIRTY FEET.

From Top of Electric Light Pole.

Special to the Whig. Niagara Falls, Ont., July 21.—John Sikes, about twenty years of age, employed by the Bell Telephone company, while stringing wires at the corner of Chilton avenue and Bridge street at noon to-day, fell off the top of the thirty-foot pole by the wire of which he had held, coming in contact with a live wire. Sikes fell to the pavement below, and his right leg was crushed so badly that the bone below the knee protruded, through the flesh, and he received other injuries. He was taken to hospital.

SENT TO PRISON.

For Having Passed a Forged Cheque.

Special to the Whig. Port Hope, Ont., July 21.—Edward Lang, who gives his address as Spadina avenue, Toronto, and who was arrested yesterday morning for passing a forged cheque for twelve dollars on John Steele, bookkeeper, Port Hope, was in the police court this morning, and was sentenced to one year in Central prison, Toronto. Before the trial, this morning, several places in Toronto where Lang said references could be obtained were communicated with by telephone but none were procurable.

TO BUY THE ROAD.

Ottawa Electric Company After the City.

Special to the Whig. Ottawa, July 21.—The Ottawa Electric company, at noon, issued a writ against the city, asking for injunction to restrain the city from leasing electric power and for a declaration
