BREAD AND CONSUMPTION.
Urge the Introduction of Dough-
Kneading Machines.
Paris, Aug. 8.—The board of health
advises the introduction of bread
kneading machines in bakeries as well
as in households, and there seems to
be good reasons for making this ob-
ligatory. As Dr. Petit stated before
the International Consumption Con-
gress, tuberculosis bacilli may be
easily introduced into the dough by
the person manipulating it if he or
she suffers from the disease. "And a
great many bakers do as the busi-
ness, as it is now conducted in sub-
collars, is unhealthy."
The baker, it is argued, raises up a
large lump of dough and lets it drop
down. In the act, he breathes hard,
and the bacilli may enter the dough
as a consequence. The same holds
true when a girl, or consumptive
mother, tends to bread making at
home. The baking process does not
kill the bacilli, as the temperature
does not reach a hundred degrees in
the interior of the loaf. The fact that
bread is eaten when warm or soon af-
ter it leaves the oven, only makes the
danger the greater.

APPLE CROP A FAILURE.
Less Than Half of Normal
Quantity.
Halifax, N.S., Aug. 8.—A careful
examination of the Nova Scotia apple-
bearing districts by men interested in
the transportation of the fruit has just
been completed. As a result of their
report, it is estimated that the crop this
year, which should be 600,000 barrels
to be up to the mark, will not be
more than 200,000, or possibly will
reach only 300,000 barrels. The short-
age this year, will be chiefly in the
late winter varieties, though Green-
steins and Ribston also will be very
light. Nova Scotia's fruit finds its
chief export market in London. Early
in the season there was a very heavy
frost, which badly injured the bloss-
oms.

SAVE CHRISTIAN READER.
J. C. Lathrop Believed of Man-
slaughter Charge.
New York, Aug. 8.—The charge of
manslaughter pending against Chris-
tian reader John C. Lathrop, of New
York, since 1902, was dismissed by
County Judge Platt, White Plains.
Lathrop was called to attend several
years ago in Albany, N.Y., with diph-
theria, and whose life was not saved.
Judge Platt decided that the indict-
ment was defective.

Took Carbolic Acid.
Syracuse, E.Y., Aug. 8.—His life
wrecked by drink, and rather than
face a penitentiary term, Edward S.
Doollittle drank carbolic acid on the
front veranda of the boarding house
at No. 629 Montgomery street, last
evening. In the presence of his wife,
and in full view of the street,
he died at St. Joseph's hospital.

Found in the River.
New York, Aug. 8.—Policeman Gal-
lagher of the West 162nd street sta-
tion took to the shore the body of
a middle-aged man found floating in
the Hudson river near 174th street.
Attached to the body by means of a
stout wire twined around the waist
was a stone weighing fifty pounds.
No money was found in the clothing,
and the only clue to the man's iden-
tity was supplied in a bunch of keys,
a necktie fastener, the button of a
coat and a pair of eyeglasses. The
man's nose was broken.

Will Shoot Jews on Sight.
St. Petersburg, Aug. 8.—The chief
of police at Gomel, government of Mo-
rochov, has caused placards to be
posted about the town warning the
inhabitants that as some of the low-
est classes of Jews have twice tried to
kill him, with bombs, he has ordered
his Cossack escort to shoot such Jews
on sight, if they approach within fifty
paces of him while he is driving on
the streets. The Cossacks will also fire
at houses, the occupants of which
abuse him verbally.

Professor Heads Cabinet.
The Hague, Aug. 8.—A new cabinet
took office yesterday, under the pre-
siership of G. A. Van Hamel, profes-
sor of philosophy at the University of
Amsterdam. Jan Hendrik R. De Mar-
es Van Swinderen, minister at Wash-
ington, has been appointed minister of
foreign affairs.

King Drinks Health of President.
Copenhagen, Aug. 8.—King Edward last
night gave a dinner to the French
officials of the visiting fleet aboard the
royal yacht Victoria and Albert. The
king, in proposing the health of Pre-
sident Loubet, expressed the hope that
the friendship that existed between
France and England would prove a
guarantee of universal peace.

Ministers, lawyers, teachers, and
others whose occupation give but
little exercise, should use Carter's Lit-
tle Liver Pills for torpid liver and
biliousness. One is a dose. Try them.

FOR SALE.
