..ROBERTSON BROS..

Paris, Aug. 9.—Diplomats and government officials are manifesting the greatest interest relative to the outcome of the conference between the Russian and Japanese plenipotentiaries. The recent pessimism has almost entirely disappeared, and the feeling of confidence reigns that the wisdom of the governments concerned will overcome all difficulties, and that the conference will eventually in a satisfactory arrangement. The buoyant tendency of the Bourse, on which Russian securities are very firm, shows that the view is also prevalent in commercial circles.

LANDED IN SIBERIA.

The Japanese Captured Guns and Keoper.

Special to the Whig. The navy department announces that a force of Japanese landed at Port Imperator, 150 miles south of Khatyr Bay, Siberia, and captured the lighthouse keeper, who, however, was subsequently released and allowed to continue in his duty. The lighthouse guard fled inland without making any resistance. When the Japanese first landed at Khatyr Bay, they captured two eight centimetre bronze guns with which the Russians were bombarded.

Until her daughters are married no mother is satisfied, before they have departed for the honeymoon she thinks how much better they ought to have done, and the rest of her life she spends lamenting her loneliness without them.

There is a great deal of pleasure in the work for those who don't hunt too hard for it.

Australia is reaping a bad reputation; out of 2,843 divorces and separations in New South Wales, 1,634 were for mere desertion.

### HE DESERTED HER

And Married Another—He Was Collared.

Special to the Whig. Detroit, Mich., Aug. 9.—A young woman, with two children, accompanied detectives, last night, to a home on First High street, where A. W. Hazeltine, who says he is manager of a Canadian electric railway, was arrested in company with a woman, who claims to have married him in Lennington, Ont., seven weeks ago, being satisfied that Hazeltine was free to marry. This woman refused to give her maiden name. She and Hazeltine were locked up. The complainant, who complains that Hazeltine's only wife, says Hazeltine deserted her in Detroit last week.

### BETWEEN THE CZAR AND M. DE WITTE.

OVER PEACE TERMS

THE COURT IS NOT IN PEACEFUL MOOD.

Cipher Telegrams Flying From Portsmouth to Peterhoff Without Any Intermediary Interruption—Paris Thinks Peace Terms Will Be Reached.

Special to the Whig. St. Petersburg, Aug. 9.—The exchange of cipher telegrams between the czar and M. De Witte continues on the eve of the opening of the peace negotiations at Portsmouth. These messages pass to and from Portsmouth without the intermediation of the ministry of foreign affairs. While the contents can only be conjectured it is accepted as a fact, by all parties, that a feeling of harmony exists between the czar and his chief plenipotentiary. The preponderance of sentiment at the court is now so unpeaceful that the hope is expressed that the terms of Japan will be so severe that it will be immediately seen that they cannot be accepted.

What Paris Thinks.

Paris, Aug. 9.—Diplomats and government officials are manifesting the greatest interest relative to the outcome of the conference between the Russian and Japanese plenipotentiaries. The recent pessimism has almost entirely disappeared, and the feeling of confidence reigns that the wisdom of the governments concerned will overcome all difficulties, and that the conference will eventually in a satisfactory arrangement. The buoyant tendency of the Bourse, on which Russian securities are very firm, shows that the view is also prevalent in commercial circles.

May Astonish The World.

St. Petersburg, Aug. 9.—Officials connected with the foreign office have been greatly impressed by a telegram received from London, which says: "President Roosevelt will not be able to bring about peace in the event of the failure of the negotiations." The message has caused a great deal of discussion, as to just what the "other means" may be. One high official, commenting upon the telegram, said: "A very clever and energetic statesman like President Roosevelt may astonish the world."

Greetings At Portsmouth, N.H.

Portsmouth, N.H., Aug. 9.—The landing and reception of the envoys, yesterday, were replete with ceremony. The envoys of both Japan and Russia were affected by the demonstration accorded them and constantly acknowledged the salutes. Three carriages were occupied by each mission and, in the procession through the streets of Portsmouth, the Russians and Japanese received alternate positions the first, third and fifth carriages were Russian and the second, fourth and sixth, Japanese. The public were excluded from the navy yard, where the envoys landed.

The envoys were met at the court house by Assistant Secretary of State Pierce, who first presented M. Witte to Governor McLane and then Baron Komura. Then the senior Russian representative presented his suite to the chief executive officer of New Hampshire and the Japanese plenipotentiary did likewise.

As the guests of Rear Admiral Reid, the plenipotentiaries and their suites, last night were introduced to about sixty invited guests.

The envoys will meet, to-day, in the Naval Stores Building, of the navy yard, for the purpose of examining each other's credentials and powers.

The First Session.

Portsmouth, N.H., Aug. 9.—The first session of the peace conference began shortly after ten o'clock, this morning, in the General Stores Building, where the plenipotentiaries, with their suites, were escorted by Secretary Pierce to the rooms on the second floor prepared for them. Their Mr. Pierce when all were gathered in the big council chamber announced it was his pleasure, as the United States government representative to turn over the rooms for the use of the plenipotentiaries of Japan and Russia, and to assure them of the deep interest the United States felt in the happy outcome of their labors. Then with a bow Mr. Pierce withdrew to the rooms reserved for himself and the envoys of the two warring empires were left face to face to settle down to business.

Many Still Missing.

Special to the Whig. Albany, N.Y., Aug. 9.—Twelve are known to be dead, twenty-seven injured and in the hospitals, and more than forty are missing, as a result of the collapse of John G. Myers' department store, yesterday morning.

WOULD-BE TEACHERS.

Many Flucted at Winnipeg Because of Spelling.

Winnipeg, Aug. 9.—Spelling, knowledge of English, and good penmanship do not seem to be strong features with Manitoba students. This year on all papers marks was deducted for every misspelled word, and the result showed that a special examination will have to be held for hundreds of students who passed in other matters.

The writing of these future teachers is also nothing to boast of, and it will be made a special subject hereafter. Knowledge of English, likewise, makes a poor showing.

Maryland's "Grand Old Man."

Special to the Whig. Baltimore, Md., Aug. 9.—Former Governor William Pinkney Whyte, Maryland's "grand old man," was the recipient of many congratulations today on the occasion of his eighty-first birthday. Governor Whyte has filled nearly every office in the power of his city and state to bestow. In 1846 he was admitted to the bar and the following year was elected to the legislature. He was elected controller of the state in 1853 and a delegate to the democratic national convention in New York in 1868. From 1868 to 1870 he was United States senator and was governor of Maryland from 1871 to 1874, serving in the United States senate again from 1875 to 1881. He has also been attorney-general of the state, mayor of Baltimore and chief of the law department of the city.

It is an interesting fact that one of Governor Whyte's most intimate friends and business associates is H. G. Davis, of West Virginia, who likewise is a staunch democrat and former United States senator, and almost of the exact age as Governor Whyte.

Almost Buried Alive.

New Orleans, Aug. 9.—A remarkable fever case created consternation in the Italian quarter, Sunday. Emil Lopez, sixteen years old, had been pronounced dead by the family physician. Preparations were made for the funeral, and the body was placed in a coffin. The mother walked to the side of her son to take a parting look. She stooped to kiss the lips, and found them warm and moist. A physician was called, and after a hasty examination the doctor pronounced the boy alive, and he was taken from the coffin and replaced in bed. It is said fever patients sometimes fall into a trance and remain as dead for hours.

### HEAD CHOPPED OFF.

Colony of Reptiles at Mountain's Base Invaded.

Head Chopped Off.

Special to the Whig. Hazleton, Pa., Aug. 9.—A lumberman named John Stackhouse, who lives at St. Johns, while at the base of the Nesquehanna mountain stumbled into a colony of black snakes and with his axe and club killed twenty-three.

When the job was finished he was fatigued, every nerve in his system being strung to a high tension, and while sitting on a log, viewing the surging mass of dying reptiles, a rattle in the rear reminded him that all danger was not over, for gliding toward him was a six-foot rattlesnake, which he beheaded with one blow of his axe.

From this snake he detached fourteen rattles and hastily left that section of the woods.

He GOT THE MONEY.

The Infjunction Came a Bit Too Late.

Special to the Whig. Ottawa, Aug. 9.—An infjunction was issued by Judge O'Meara, to-day, to restrain the city from paying Fire Chief Prescott \$100 to go to the fire chief's convention at Duluth. As the treasurer had paid the money over an hour before the infjunction reached him it was rather useless. There is no record now but to see the aldermen personally. The infjunction was got in the name of F. W. Forde, who has made himself famous as a city trainer.

INDIAN GIRLS SOLD.

Purchased by White Men in Wilds of Northwest.

Vancouver, B.C., Aug. 9.—A report has been made to the provincial police by Constable Jones, who just returned from the Indian village at Cape Nadge, that in that settlement there is open traffic in Indian girls. Jones found a number of well authenticated cases where half-breed and quarter-breed girls have recently been sold to white men at prices ranging from \$100 to \$200. A complete investigation will be made by the authorities.

First Session In November.

St. Petersburg, Aug. 9.—In principle the national assembly, which the czar is about to institute will be a deliberative and consultative body for the discussion of such measures as are laid before it. It will have the power to force the withdrawal of ministerial propositions by a two-thirds vote, which gives it at least a negative control over legislation. It will be a large body, probably of over 500 members, chosen by a system of indirect elections, and the first session, it is understood, will be held in November. The elections will take place in October.

Quarrel Over White Lover.

Victoria, B.C., Aug. 9.—The steamer Kanagawa Maru, from Hong Kong, brings news of a plot there to ship 10,000 rifles and 1,000,000 rounds of ammunition to Samar and other unoccupied districts of the Philippines. The scheme was discovered and the filibusters are in hiding.
