### ROBERTSON BROS.

Special to the Whig.

St. Petersburg, Aug. 10.—The de-liberations, at Peterhof, on the projected national assembly, have ended. Many wild rumors are current concerning the manifesto to be issued by the czar, on Saturday, but the only fact is known that he will earnestly appeal to the patriotism of the Russian and their loyalty to the throne and dynasty.

The reports that the czar will go to Moscow to proclaim a constitution are baseless.

More Optimistic.

St. Petersburg, Aug. 10.—Government officials now take a more optimistic view of the outcome of the peace conference, in progress at Portsmouth, and it is noticeable that they are hopeful the war will be brought to an end. It is reported that M. Witte has telegraphed the czar that he already knows the Japanese terms and that these are acceptable with a few amendments. He believes Japan will agree to the changes which he will propose.

### TROOPS GO FORWARD.

Reinforcements Still Going to Manchuria.

Special to the Whig.

St. Petersburg, Aug. 10.—Despite the fact that the peace negotiations are now under way at Portsmouth, troops continue to be sent to the front in Manchuria in increased numbers. After the end of the current week general merchandise will not be accepted for transportation on the trans-Siberian railway, all the cars being devoted to the use of the military.

### Rains Stopped Engagement.

London, Aug. 10.—A despatch to the Telegraph from Yinkoo, says that heavy rains and the Russian retreat have postponed the expected general engagement. The mud is three feet deep in the roads along the front. Gen. Mischenko's cavalry remains in Eastern Mongolia, trying to attack the Japanese flank and rear.

### On The Tumen River.

London, Aug. 10.—The Japs, corresponding to the Telegraph, says it is estimated that there are fifty thousand Russians on the Tumen River. They are commanded by Gen. Resadora, who hopes to defend his position and the Russian communications along the Kirin-Changshun line. Whether this is possible will soon be decided.

### ARMED TO RESIST ARREST.

Man Hiding on Shore of Rideau Lake.

Brookville, Ont., Aug. 10.—Albert Gallagher, J.P., Portland, recently issued a warrant against one "Col." Green, who was charged with having stabbed Robert Scott. On learning that a warrant for his arrest had been issued, Green armed himself with a rifle, and is now hidden on the shore of Rideau Lake, determined, he says not to be taken alive.

The officers of the law near Portland are somewhat nonplussed at this unusual state of affairs, and to-day the magistrate was in telephonic communication with the county crown attorney, and other law officers here. As a result of their deliberations, a constable has been sent from here to round up the irate Green.

### Girl's Horrible Death.

Dunkirk, N.Y., Aug. 10.—Miss Edith Rose Kent, aged sixteen years, living on a farm at Centralia, south of Dunkirk, met a horrible death. Hurrying to attend a Sunday school picnic, while passing by a gasoline engine, which runs a churn on her father's farm, her hair caught in the shaft and wound her about it, frightfully injuring her body, and producing death before medical aid could be rendered. Coroner Charles Blood, of Dunkirk, was notified.

### Murdered For Money.

Red Deer, N.W.T., Aug. 10.—The badly decomposed body of a man, named Hanson, was found near the track, about two miles north of here, with his throat cut. No clue to the murderer has yet been found. Hanson was supposed to have had about sixty dollars on him, when last seen, and his pockets have been emptied, giving rise to the suspicion that he was murdered for his money.

### Struck By Lightning.

Tweed, Ont., Aug. 10.—The worst storm of the season visited this locality, this morning, at three o'clock.

The lightning was the most vivid ever seen here. One bolt struck the barns of Henry Butler, who lives about four miles from Tweed, completely destroying the buildings with contents. The house was struck, but was saved from being destroyed.

Ministers, lawyers, teachers, and others whose occupation gives but little exercise, should use Carter's Little Liver Pills for torpid liver and biliousness. One is a dose. Try them.

Headache and neuralgia cured by Dr. Chown's headache powder. No had after effect. 25c. a box.

### Baseball On Wednesday.

American League.—At Washington, 4; St. Louis, 12.

Eastern League.—At Montreal, 4; Buffalo, 6. At Toronto, 6; Rochester, 10.

### Bought A Hotel.

Special to the Whig.

Sault Ste. Marie, Mich., Aug. 10.—The Park Hotel company has sold the Park Hotel to M. E. Leland, of the Canadian Soo, for \$24,000. This is one of a chain of hotels created by J. H. Hayes and one of the leading hotels in northern Michigan. Leland bought for investment, looking to the future developments of the Soo.

Earl Selborne, high commissioner for British South Africa, has accepted the presidency of the Bible Society's auxiliary at Johannesburg.

### THE NEW CONTROLLER

He is Head of the Equitable Society.

WILLIAM A. DAY, Special to the Whig.

New York, Aug. 10.—William A. Day, the new controller of the Equitable Life Assurance Society, resigned the position of assistant attorney-general of the United States, to take charge of the financial affairs of the insurance organization. During his connection with the attorney-general's office, Mr. Day was conspicuous for his investigations into the affairs of the so-called illegal trusts.

### PITH OF THE NEWS.

At Aylmer, Que., Joseph Bonizer was shot by Mrs. Guay, and then turned his pistol on himself. Neither wound is fatal.

The royal commission's report on the problem of food supply in a war time is unfavorable to preferential tariff.

Five per cent. mortgage gold bonds for \$940,000, of the Nova Scotia railway were offered on the London market.

A female "ghost," which several persons have seen at different times, has taken up its abode in the house of John Landry, Peterboro.

London and Russian police agents are in London for the purpose of unearthing a plot which is supposed to be on foot to assassinate the czar and the Russian grand duke.

Drowned In A Cellar.

Buffalo, N.Y., Aug. 10.—Charles J. Hinshbrugh, seven years old, whose parents live in Fuller avenue, was drowned yesterday in the cellar of a new house a few doors from his home.

Heavy rain filled the cellar of the new house with about three feet of water. The three Hinshbrugh boys, three, five and seven years old, were floating in the cellar in a number of boards. One of the brothers was making a raft, when Charles, who was standing on a board on the first landing, suddenly tumbled into the cellar.

Albert, the brother who was in the cellar, began to scream. Two men passing noticed the boy, who was too frightened to tell of his other brother.

Mrs. Hinshbrugh was in her bed with pneumonia. She was overcome when she heard the news, and her condition is critical.

### Made Good Rescue.

Special to the Whig.

Honningsvåg, Norway, Aug. 10.—The Arctic steamer Terra Nova, which went to the relief of the Fiala-Ziegler Polar expedition, has rescued Anthony Fiala and the others connected with the expedition, with the exception of one Norwegian seaman, who died from natural causes. The ship America, which took out the expedition, was crushed in the ice early in the winter of 1903-04, and lost with a large part of her coal and provisions.

### Standard Oil In Turkey.

Constantinople, Aug. 10.—Owing to the strikes which had prevailed among workmen employed in the petroleum industry at Batoum and Baku, Russia, which have practically tied up the Russian trade, the Standard Oil company is gaining a strong foothold in eastern markets. Recently, 100,000 casks of oil have been sent to this city by the Standard Oil company while 100,000 casks have been sent to Bulgaria, 60,000 to Syria, 50,000 to Smyrna and 25,000 to Salonika.

### Higher Education For Girls.

Vitebsk, Russia, Aug. 10.—General Klinefarth, vice-governor of Vitebsk, in an address to the graduating class of the grammar schools, endeavored to stimulate girl students from seeking to secure a higher education. In his speech he said: "You must not, please go from here to the universities. If you do you will be acting against the government. The highest university for you is to get married."

### HIS CRIMES

Horrible Cruelties Of A French Official.

### HE TOOK HIS LIFE

RATHER THAN UNDERGO THE DISGRACE.

Indo-Chinese Were Terribly Tortured—The Favorite Pastimes of the Officer—An Enquiry Revealed a Monstrous Condition of Affairs.

Paris, Aug. 10.—M. Liegeot, administrator at Tchek-Kam, Indo-China, has committed suicide without awaiting the result of the official inquiry into the charges brought against him. The Avenir du Tonkin states that M. Groleau, the commissioner, has received no fewer than 139 depositions of the heinous cruelties practiced by Liegeot on natives under his jurisdiction.

For venial offences he would crush with his heel the heads of his victims, or command his accomplices in cruelty to beat them over the face with spades, shovels and pickaxes.

In order to extort a confession he would intoxicate them with mixtures of absinthe, cognac, and spirit-distilled by the natives, or would cause them to be flogged with a silver pig-tail, studded with points, which tore the flesh, salt and ammonia being then rubbed into the wounds.

But should the prisoner still persist in declaring his innocence, and refuse to confess a terrible death awaited him. He was first of all bound fast, with his arms behind his back. He was then forced into a kneeling position and a bayonet was fixed on the ground in front of him, so that the point just touched his throat.

Every time the prisoner refused to answer a question he was struck on the back of the head, and the point being thus driven into his throat, if that torture proved unavailing, the coup de grace was given. A swinging blow on the head with a heavy iron instrument impaled it on the bayonet and drove it into the martyrdom was over.

One of Liegeot's favorite pastimes was to "iron" his victims with a red hot iron, and the ward guards who had to be traced on the scorched bodies would send him into ecstasies.

Newspaper For the Blind.

Special to the Whig.

London, Aug. 10.—The "Braille Weekly," a sixteen-page newspaper for the blind and the first of its kind ever published, has just made its appearance in Edinburgh. As its name indicates the paper is printed in the raised characters invented by Braille, a blind Frenchman, who died in 1822, whose system is the one in general use by blind persons the world over. A recent improvement in the embossing process renders the cost of production very moderate, and it is believed sufficient subscribers will be obtained to make the new venture a success. The paper contains editorial, war and foreign news, together with sporting intelligence and various light features. Special permission has been given by the leading papers and press agencies of the United Kingdom for the reproduction of telegrams and articles, and as far as possible, nothing has been left undone to give the blind the newspaper advantages possessed by those who have the blessing of eyesight.

### Custer Massacre Reproduced.

Special to the Whig.

Ottawa, Ont., Aug. 10.—The Custer massacre was reproduced with wonderful fidelity to detail at the Lewis and Clark exposition to-day, with Umatilla Indians and soldiers of the Oregon National Guard, and the 10th United States Infantry as the participants. The affair proved to be one of the most attractive in the programme of spectacular events arranged for the entertainment of exposition visitors.

The reproduction of the massacre had for its location a plot of ground near the government peninsula in Guild's Lake, near the river entrance to the fair. The lay of the ground was similar in many respects to the geography of the Little Big Horn, which circumstance added much to the interest of the spectacle. Indians from the Umatilla reservation, garbed in the war clothes of the plains, formed the attacking party, and the attack was maintained by them until the last of the soldiers representing Custer's heroic little band had fallen.

### IS ANTAGONISM

Offered at Action of Canadian Customs.

London, Aug. 10.—A Melbourne despatch states that antagonism between Australia and Canada has been rapidly developing during the last few months. During an anonymous debate in the house of representatives, Sir William Lyne, minister of trade and commerce, referring to his reassessment of value of Canadian harvesters, caused a sensation by producing a letter from the dominion customs department flatly refusing to allow Canadian officers to make enquiries concerning the commonwealth to ascertain for the purposes of taxation, the real value of articles sent from Canada to Australia. Sir William Lyne hinted that the dominion was unwilling to give any assistance in establishing a fair customs revenue. The Australian press is continually publishing articles depreciating Canadian progress and asserting that Australian development is on a sounder basis. Commercial men dread any form of preference which would strengthen the position of their Canadian rivals.

### THE ALBANY DISASTER.

Death List Reaches Thirteen; May Be Larger.

Albany, N.Y., Aug. 10.—The collapse of the John G. Myers company department store yesterday, resulted in the death of thirteen persons and probably the fatal injury of two others, will be investigated by a special commission.

Of those now in the hospital, Helen Donahue is believed to be near the point of death, and Mrs. William Forest, of Windsor, Minn., a shopper has only an even chance of recovery. It is believed that all the other injured, fifty in number, will get well. To-night all the employees of the firm are accounted for excepting half a dozen cash boys, who are believed to be on their vacations.

The small number of deaths, nearly when it is considered that nearly 100 persons went down with the wreck, is accounted for by the fact that scarcely any of the brick walls fell, and the debris consists mostly of wooden timbers and plaster, with only an occasional iron girder. One of these iron beams crushed the life out of four young girls.

### GOODY GRINDING THIS.

Mamachia Has Big Savings From Organ Collections.

New York, Aug. 10.—Back to Italy, rich from the profits of hand organ grinding, Villa Mamachia, and his wife will sail on the earliest steamer, leaving New York for Italian ports. The pair were arrested to-day and warned of the streets for playing without a license. The wife showed Magistrate Walsh, in Jefferson Market court, a bank book containing \$7,000, and said that this was the proceeds of hand organ grinding and this amount would make them rich in Italy.

### Playing In Ottawa.

Special to the Whig.

Ottawa, Aug. 10.—The Marlborough Cricket Club team arrived at 11 a.m. and is quartered at the Victoria Chambers. The men had just enough time to get ready for breakfast and don their cricket togs when stumps were pitched at noon. A rest for luncheon will be taken at 2:30 o'clock.

Ottawa went to bat and at lunch had fifty-six runs with four out. The scores were Saunders, 12; Hill, 12; Aikland, 0; Periera, 0; Bristow, 1; not out, 19; Barber, not out, 14.

### Cruiser Variag Floated.

Tokio, Aug. 10.—The imperial navy department has announced the successful floating of the cruiser Variag yesterday. In view of the difficulties encountered, there is a strong feeling of general satisfaction over the raising of the vessel. The Russian cruiser Variag and the Russian gunboat Korietz, were sunk by the Japanese in the harbor of Chemulpo on February 9th, 1904.

### The Late Capt. James Dean.

Detroit, Mich., Aug. 10.—Capt. James Dean, an old lake captain and boat builder, is dead here. He was born in England eighty years ago. When a young man he went to Canada, later coming to Detroit, where he had lived about fifty years. He was about the oldest living lake captain, but had not been in active service for twenty years.
