**Disgraceful Mail Delivery.**  
Montreal has the worst postoffice delivery in all Canada. Its office needs "clearing out," and up-to-date officials. On Friday evening, something urgent was mailed from the Whig office, and a telegram announced that it had just arrived at the Montreal address this Monday morning. This is only one of many like instances.

Cincinnati, Ohio, Aug. 21.—After a lapse of fifty years, during which time she was supposed to be dead, Mrs. Margaret Howe, of St. Thomas, Ont., has been found by brother Culbert Kieker here. The brother and sister were brought together indirectly through the post. A few months ago Mrs. Howe heard that her brother was alive and enquiring about the services of the police in her town. She learned that her brother, whom she believed to be dead, was living in Louisville, Ky., and Mrs. Howe will go there to meet him.

**SUIT FOR PERPETUAL INJUNCTION SOUGHT.**

**Want to Prevent Lowering of Channel in Ottawa River—Report on Anthrax Outbreak in Collingwood.**  
Special to the Whig.  
Toronto, Aug. 21.—The suit for a perpetual injunction, sought by the Ottawa Power and Manufacturing company, against John R. Booth, the Ottawa Electric company, the Ottawa Electric railway company, the Ottawa Investment company and the Brascan company, limited, to prevent the lowering of the channel in the Ottawa river south of Albert Island, will be heard, here, at O'Connell Hall, this week. A jury number council will be heard in the case.  
It was reported at the department of agriculture, to-day, that a dominant veterinary inspector had been sent to Collingwood to report on the anthrax outbreak there.

**MUCH SPURIOUS MONEY.**  
Many People Make a Living by Counterfeiting.  
London, Aug. 21.—It is estimated by the police that at the present time there is more spurious money in circulation, exclusive of forged bank notes, than at any other period during recent years.  
The ranks of the "smashers" are being augmented yearly, and as fact as the police "smoke out" one criminal they become aware that another has sprung into existence, the number of increasing being greater than at any time during the present generation.  
An experienced detective reports that there are in Great Britain no fewer than 2,000 persons engaged directly in the coining, counterfeiting and uttering of bad money, and that probably two-thirds of them live in London or its suburbs. The number of private "smashers," he considers as probably not far short of 100.  
Why the profession should prove so attractive all of a sudden he is at a loss to understand, as the profits are, after all, very small. The expenses incidental to obtaining the moulds, tools, machines, etc., for this illicit traffic are very great, and it is calculated that the net profit of turning out a spurious half crown is as much as a frequently destroyed through fear of detection.

**MADE SURE OF DEATH.**  
Will Ordered That Arteries in Head Be Severed.  
London, Aug. 21.—The will of John Nash Peake, of Bellevue, Congleton, a just admitted executor, contains the following curious passage, showing that the deceased was anxious to make sure of death:  
"And lastly, I make it a strict and solemn charge to my executors that before my body is buried in my coffin, they shall engage my own family doctor, or some other medical man of few of ten guineas, to perform on me the operation, to thoroughly sever the arteries of the head, so as to render my revival in the grave absolutely impossible."

**Can Have Canadian Stock.**  
Special to the Whig.  
Detroit, Mich., Aug. 21.—Unprecedented in the history of this country is the order received from Secretary Willson of the department of agriculture, granting permission to the Michigan state fair commission to import Canadian cattle to the state fair for exhibition purposes without the formalities of the tuberculosis test by the state fair to be held here, September 11th to 16th, and is, in fact, the first time that Canadian cattle have been permitted to be shipped direct to the fair grounds from Canada. It is permitted to be shipped to the fair grounds, but before being shipped to the fair grounds they will be subjected to a tuberculosis test. The ruling applies also to swine and sheep. It is believed that this concession will result in one of the finest exhibitions of stock ever seen in this country.

**Widow Guards The Grave.**  
New York, Aug. 21.—Pearing last the children of Alan W. Wood, to obtain the body of their father, might disturb it secretly. Mr. Wood, formerly Goldie Mohr, a chorus girl, yesterday left her apartments in the Barmans in Central Park West, and went to Mount Kisco, where Mr. Wood's body now lies. While the remainder of Mr. Wood's children say Mrs. Wood's fears are groundless, it was known that they existed for possession of the body. In a Pittsburg cemetery, and when Mr. Wood died the first thing his children did was to make arrangements to have him buried there with his first wife, their mother.

**Enforced The Law.**

At the ferry dock he enforced the law allowing the steamer Wolfe Island to carry the remainder being put back on the dock. Adm. Wolfe Island was equally strict in enforcing the law and property. When the steamer was put back on the dock, the customs officer was vigilant in performing his duties on Sunday.

Legislation Relative to the New Provinces—Prince Henry's Visit—Not "Chief Pettifogger" Lively Police Court Scene.  
Special to the Whig.  
Ottawa, Aug. 21.—The cabinet ministers are gathering for tomorrow's session, when it is likely the new lieutenant-governors, and other applications, relative to the new provinces will be made.  
Although it is announced that Prince Henry of Battenberg will be the guests of the city, on Thursday night, the city finance committee knows nothing of the proposed visit of his highness. This will probably be a reception at government house, and the visit will be a semi-private affair.  
A case occurred in police court, this morning, between Chief De La Roche and Edward Mahon, a criminal of local reputation. The chief handled in a record of the prisoner while the trial was going on. Mr. Mahon objected to the chief's report, and Mahon replied: "Remember you are not conducting a regiment here." Major De La Roche replied: "No, nor am I a chief petty officer." Acting Magistrate Rosenthal stepped in and prevented further disturbance.

At eleven o'clock this morning, the fire brigade received a call from No. 3 Queen, at the corner of Montreal and Queen streets. The men from both stations were quickly on the scene and found that the alarm was rung for a test, by F. W. Slater, Toronto, representative of the Underwriters. Five steamers were attached to three hydrants at Montreal, and Bagot streets, and both engines were brought into requisition. The test lasted nearly two hours. Mr. Slater would not express any opinion concerning the test, or as regards time of arrival, and handling of streams. Mr. Slater went over the waterworks' plant this afternoon. Special to the Whig.  
Manila, Aug. 21.—Advices from Jolo, where Secretary of War Taft, and his party visited last week, their tour being made of the Philippines, state the climax to the festivities, arranged in honor of their visit, came when the Sultan of Zulu offered his hand in marriage to Miss Alice Roosevelt, the president's daughter, and asked her to become the sultana of the Zulu archipelago.

The first carpet arrived in London, and is being exhibited at the office of Messrs. Warne & Gillow.
