

CORBETT'S

American Twin Freezer
—the only freezer in which two different frozen desserts can be made at the same time

Any two flavors of ice cream, an ice and an ice cream, a sherbet and a custard, etc.

No. 1000000 crank to turn, either, simply rock a lever to and fro.

See the Premier at

CORBETT'S

SHINGLES SHINGLES

Did you ever have the Shingles? Our British Columbia Shingles are made of quarter-sawn, straight grained clear Red Cedar, as fine as ever grew. They will not warp nor twist and will last for years.

S. ANGLIN & CO.

No Breakfast Table complete without

EPPS'S COCOA

An admirable food, with all the natural qualities intact, fitted to build up and maintain robust health, and to resist winter's exasperating cold. It is a valuable diet for children.

The Most Nutritious and Economical.

It's Safe

To order my coal, even without looking at it. You don't have to know good coal when you see it, you get it in me. You know it, you will, know after you find it is free from clinkers or foreign matter. It is a dear coal that is one-third dirt. Crawford coal is as pure as the fire that burns it. Not only is it pure, but it is of the slow burning, heat giving kind. You save money by burning it because you don't burn so much of it.

Crawford coal doesn't COST any more. It simply gives MORE heat.

"Opiter per Orbem Dicor."

Lesson Of A Life.
Senator Wark reached the unusual age of over a hundred years ere he was called to rest. He was the oldest legislator in the world, and he caused considerable enthusiasm when last he visited the Canadian senate and made a short address.

A medical authority some time ago asserted that most people would live to be an hundred years and over if they only followed certain rules. They should avoid the cankering cares, the distressing worries, the foods and drinks that wreck the tissues, the toils or the dissipations that injuriously affect the human system.

How simple this all seems, and how hard to carry out. If the motto "Know Thyself," were only studied more, the race would be longer lived. Would it be the more useful?

Senator Wark preached a sort of temper sermon when, in speaking upon the 100th anniversary of his birth, he commended active, sensible, rational service, and said it should be pursued with the consciousness that at any time, and perhaps suddenly, it may call for its reward.

It is a grand thing when one reaches old age and in its sunset reflects that life has not been barren of result. The happier people are usually the busier. They have not time to idle and to rest. Their hands are constantly ministering to some good and their associations are hallowed with sweet and tender memories.

Crisis In India.

The friction in India, between Lord Curzon and Kitchener, has reached an end. It had its origin in the reconstruction of the army. Kitchener proceeded according to plans of his own. In Egypt he had been allowed a tolerably free hand, and he set out in India to exercise "it as his judgment dictated.

In India there was a somewhat antiquated system. The military member, though nominally a member of the cabinet, was in a sense his superior. In India, the military member passed upon the reforms of the commander-in-chief, and there was no appeal. If there was no appeal, a change was suggested, and was presented to the Indian government, but to the secretary of war objected. Lord Curzon was determined that his choice should be recognized, and when he pressed for the appointment the crisis came. The governor of India was politely informed that the secretary of war was responsible for all appointments of a military character, and that the nominee of Lord Curzon would not be given the place. Lord Curzon thereupon resigned.

Public opinion in England is divided upon the result. The governor represented the king in India, and he did not follow Lord Kitchener in all his operations. That he is aggressive enough was shown by his hand in the Tibetan expedition and his warnings against Russian aggression. He is the best governor that India has had, it is said, and the phrase means much when it is remembered that Curzon's predecessors included two men who rendered conspicuous service in Canada, Lansdowne and Dufferin.

A third of Canada's governors becomes Curzon's successor—Lord Minto. What does it signify Minto is a military man, and a great friend and admirer of Kitchener. He will probably agree on the army question and that is the thing of vital consideration at the present time. In the acute condition which obtained it was difficult to see what else Mr. Balfour could do than sanction the retirement of one of the men in India, and he seems to have concluded that Curzon's good as he was, could most safely be withdrawn. Great Britain cannot or will not just now put any chill upon the military spirit, and Lord Kitchener is not the one to permit of any interference with his plans. The world knows nothing of them, but it knows that whatever he undertakes succeeds.

A Very Deliberate Body.

The International Typographical Union is composed of some of the brightest men in the land and hence its discussions have been generally of a very high order. Apart from its deliberance on the eight hour day question—which must be considered on its merits—the union disposed of very important issues.

It denounced the book rings that exist in the United States and the work of which has a tendency to make school books very expensive. The cure lies with the individual states, and the plan is to agitate for the possession by them of the copy-

CLAIM INJUSTICE

Boaters must not crow, dogs bark, nor bells ring. New York, Aug. 22.—Boaters are forbidden to crow, dogs to bark, bells to be tolled and engines to toot their whistles in the suburb of Mt. Vernon between ten o'clock at night and six o'clock in the morning, according to a decision reached yesterday at a meeting of the board of health.

The ban will be placed upon these so-called nuisances Saturday, and after that owners of indifferent, howls and restless watch dogs will be subject to fines ranging from \$5 to \$50.

It is said that the ordinance is aimed at two railroads which handle all of their freight to Mt. Vernon at night. These roads bring most of their freight into the city between one and four o'clock in the morning. Aside from the corporations, however, the new regulation reaches nearly every resident, as the majority of them possess either a dog, or chicken, and most of them have both.

OWNERS OF SMALL CRAFT FIND THEMSELVES AT A DISADVANTAGE WITH THEIR CANADIAN NEIGHBORS—AN APPEAL MADE.

Clayton, N.Y., Aug. 21.—As a result of the recent action of the government in Canadian ports, the American vessels under tonnage certificates of satisfactory inspection, the attention of the American consul general at Ottawa has been called to the apparent injustice done to American boat owners and federal action is likely to follow that will remedy the matter. Boat owners along the American side of the St. Lawrence river are watching with keen interest the progress in the international policy.

At the present time small boats under tonnage plying between Canadian ports for hire are compelled by the general act of Canada to pass satisfactory inspection. Under the American laws no such regulation exists, so that boats under tonnage can ply for hire between American ports without inspection certificates.

As a result of this difference in the international laws Canadian boats are allowed to enter American ports and carry on trade between them without limitation, but American vessels under tonnage are restricted to doing in Canadian ports, as they have no inspection certificates. This certificate of inspection is issued by American authorities.

An attempt was made by a prominent captain from Clayton, last week, to gain a certificate of inspection for his launch in order to carry on the business of ferrying passengers, but this was refused by the inspectors, on the ground that the inspection must be made by American authorities. As no American regulation can grant inspection to small under-tonnage boats the captain has applied to the United States customs officials here.

Frank D. Lowe, United States customs deputy at Clayton, has referred the matter to the consul at Kingston, who in turn has called the attention of the American consul general at Ottawa, to the injustice of the present regulations, which grant Canadian boatmen privileges which are forbidden to American owners.

Public sentiment on the American side of the river favors the American laws compelling boats under tonnage here to pass satisfactory inspection, thus affording better protection to life and property. Deputy Lowe has not yet received information from the American consul of Ottawa and pending this American vessels under tonnage will continue to be excluded from doing any carrying business in Canadian ports.

EARTHLY PARADISE.

Roosters mustn't crow, Dogs bark, nor bells ring. New York, Aug. 22.—Boaters are forbidden to crow, dogs to bark, bells to be tolled and engines to toot their whistles in the suburb of Mt. Vernon between ten o'clock at night and six o'clock in the morning, according to a decision reached yesterday at a meeting of the board of health.

The ban will be placed upon these so-called nuisances Saturday, and after that owners of indifferent, howls and restless watch dogs will be subject to fines ranging from \$5 to \$50.

It is said that the ordinance is aimed at two railroads which handle all of their freight to Mt. Vernon at night. These roads bring most of their freight into the city between one and four o'clock in the morning. Aside from the corporations, however, the new regulation reaches nearly every resident, as the majority of them possess either a dog, or chicken, and most of them have both.

HUMOR OF THE HOUR.

Nurse—See, Charlie, the stork has brought you a nice little brother!

Charlie—Yes, that's the way! Just as I'm getting on in the world competition begins.

Effkins—I wish I could get rid of this horrible toothache!

Spiffkins—When I have it I get rid of it very simply. A kiss from my sweetheart, and it's gone.

"Is that so?" Do you mind giving me her address?

Judge—You are accused of having beaten this person cruelly.

The accused—Well, I had to beat him to make him do his work. He is an idiot.

Judge (severely)—You should remember that an idiot is a man like you or me.

Clubman—It's astonishing how many fools there are in the world!

Philosopher—Yes, and there's always one more than we think.

A small girl who had begun "nature study" in school, was telling some of the things she had learned. Her mother listened with interest, and finally asked: "Can you tell me the name of the poor worm mamma gets her silk dresses from?"

The child pondered deeply and then said suddenly: "Oh, I know! I know!"

THE BISHOP'S ERROR.

The late Bishop Thomas L. Clark of Rhode Island, was at a lecture in Boston one evening when he saw two seals ahead of him, a man whom he took to be an acquaintance. Seeing no other way to attract attention, the bishop asked a stranger sitting next to him to punch the other man with his umbrella. This was done, and as the disturbed man began to turn his head, the bishop discovered that he was not the person he supposed. The bishop immediately lost all interest in the lecturer, leaving the man with the umbrella to settle with the man he had mistaken for an acquaintance. The bishop turned rather indifferently to the lecturer, "Didn't you tell me to punch that person with my umbrella?" "And what?" "Did you want?" "I wanted to see whether you would punch him or not," was the reply.

SEVERE BUT JUST SENTENCE.

The master of the Sheraton Otter hounds, Walter Bell, and his two huntsmen were before an English magistrate charged with cruelty. Evidence was given that this man of property and influence, charged his hounds to buy cats, put them into a wooden tunnel, and the terrier dogs were trained to go into the chute and worry them to death. It was set up for the defense that in this way the dogs were trained and that it was less cruel to use a cat than a dog, but an inspector from the Society for the Prevention of Cruelty to Animals prosecuted the master of the hounds, and he was sentenced to a month's imprisonment with hard labor.

The sentence has been much discussed, and to some has appeared excessive, but the calm brutality exhibited by a man whose education and surroundings should have made such cruelty impossible, demands a heavier sentence than that meted to the coster who ill-treats his donkey, or the miner who takes part in a dog fight.

A GREAT DISCOVERY.

Rumors have come of a most important discovery in Palestine of ancient cave burials of the Armoiric period, three millennium before Christ. It is believed that much light will be thrown upon the character of the civilization and population of Palestine a thousand and more years before the Israelite occupation, and hundreds of years before the time of Abraham.

SCHOOL SUITS

Getting the boys ready for school, isn't it a great and perplexing problem? It's apt to make the pocket-book work overtime.

To be sure the average healthy boy, while he dotes on a neat suit, also unconsciously takes pleasure in knocking the spots out of that suit as soon as possible. However, it is a common home-talk that our Boys' Clothes wear longer and withstand all sorts of boyish frolics better than any other boys' clothes sold anywhere hereabouts.

\$3.50, \$4.50 and \$5 will do wonders here in procuring School Suit satisfaction for both parents and boy.

FARMERS SAVE MILLIONS. Great Northern Railroad Meets Grown Situation.

St. Paul, Minn., Aug. 22.—The Great Northern railroad has announced a sweeping reduction in grain rates throughout its eastern territory, extending to the boundary of Montana.

The reduction, according to a prominent railroad official "affects the entire grain product of the northwest, for the same rates have been made by the Missouri Pacific and must be made by other lines doing business in the same territory."

"On a crop of 200,000,000 bushels farmers will make from \$2,000,000 to \$3,000,000 extra on reduced freight."

The Great Northern will contribute at least half of this saving."

William Becomes Independent. Berlin, Aug. 22.—Emperor William announces, through the North German Gazette, that he and the empress will not receive presents on the twenty-fifth anniversary of their wedding, but that contributions of money from members of societies or corporations for charitable purposes will be welcome.

One shipped from Cobalt is being held in storage by a firm in New York. Its real value is very much greater than you estimate yet placed on it: \$2,250,000 worth of ore has been mined and drawn from Cobalt within the past three months.

KIDNEY TROUBLE

Increasing Among Women Sufferers Need Not Despair THE BEST ADVICE IS

Unless early and correct treatment is applied the patient seldom when once the disease is fastened upon. Lydia E. Pinkham's Compound is the most efficient remedy for kidney troubles of all kinds, and is the only medicine prepared for this purpose.

When a woman is troubled with pain in the loins, backache, or painful or scalding urination, or limbs or feet swelling, or eyes, an uneasy, tired feeling, or just sediment in the urine, she loses no time in commencing treatment with Lydia E. Pinkham's Compound, as it may be the means of saving her life.

Now proof, read what Lydia E. Pinkham's Compound has done for Mrs. Emma Sawyer:

"I cannot express the terrible pain I had to endure. A derangement of the organs developed, nervous system, and serious kidney trouble. The doctor said I was in a bad way, and I was unable to do anything. I was so weak I could not live. I finally tried Lydia E. Pinkham's Compound, and in a few days I was able to get up. I cannot praise it too highly. I tell every suffering woman about it. Mrs. Emma Sawyer, Cooper St., Boston, Mass."

Mrs. Pinkham gives free women; address in confidence Mass.

BUSH TRAGEDIES.

Kill Whites and Eat a Breed. London Leader.

News has reached Perth, Australia, of a successful bush murder by Australian aborigines, who, in at least one case, at Victoria, had slain the same victim.

Aboriginals win the same old story. Two white men, one a half-caste, who were camping near a creek, were attacked by natives. The white man was killed, but the half-caste was not. The natives were then attacked by another party of natives, who were also killed. The natives were then attacked by a third party of natives, who were also killed. The natives were then attacked by a fourth party of natives, who were also killed.

Another swagman, who was while he was having his hair cut into small pieces and his remains buried away. Altogether twelve bodies were committed, and most of them were found afterwards to be mutilated. In two cases bodies cannot be found. At the Creek station, however, the silver, being brought in quantities, the missing swagman was found. In each case the same aborigine said to have been concerned.

The same mail brings news of a crime in Melbourne. A man, who was a white man, was killed by a native. The man was a white man, and the native was a native. The man was a white man, and the native was a native. The man was a white man, and the native was a native.

The Minister's Double New York Globe.

A Scottish minister and his wife, who were coming home from a wedding, began to consider the late which their potatoes were rotting. The minister said, "I am not content until I have a white man killed in revenge."

It is stated in a message from the British government that the British have no jurisdiction in the New York Globe.
