TO HAVE DOMINION MEET.

Cyclists Are to Have a Go at Iroquois.

Special to the Whig, Aug. 22.—The C.W. dominion championships will be held at Iroquois, on September 12th, in a programme of eight events to be held. Iroquois has one of the best half mile tracks in Ontario and the management will spare no pains to make the event a success. Instead of giving medals, as has been the case heretofore, they will give for first and second place in each race valuable prizes, such as gold and silver watches.

Leola's dentifrice in collapsible form in the form of paste, beads and lozenges tartar, and keeps the teeth and 15c. per package, at McLeod's drug store.

great spiritual movement in Norway and Sweden, there are many interesting coincidences between it and the Welsh val.

For the hair is sold at Dr. J. J. Red Cross Drug Store.

KIDNEY TROUBLES

Increasing Among Women, But Sufferers Need Not Despair. THE BEST ADVICE IS FREE

Unless early and correct treatment is applied the patient seldom survives when once the disease is fastened upon her. Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for kidney troubles of women, and is the only medicine especially prepared for this purpose.

When a woman is troubled with pain or weight in loins, backache, swelling of limbs or feet, swelling under the eyes, an uneasy, irritable feeling in the region of the kidneys or notices a brick-dust sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinkham's Vegetable Compound, as it may be the means of saving her life.

For proof, read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sawyer.

I cannot express my terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and a serious kidney trouble. My doctor attended me for a year, but I kept getting worse, until I was unable to do anything, and I made up my mind I could not live.

When I began to use Lydia E. Pinkham's Vegetable Compound, I am to-day a well woman. I cannot say too much for it, and tell every suffering woman about my case. Mrs. Emma Sawyer, Conway, Ga.

Mrs. Pinkham gives free advice to women; address in confidence, Lynn, Mass.

BUSH TRAGEDIES.

Kill Whites and Eat a Half-Breed. London Leader. News has reached Perth, Western Australia, of a succession of terrible murders by Australian aborigines, who, in at least one case, ate their victims.

Abduction was the scene of the latter crime. Two white men and a half-breed were camping; three were attacked by natives. The half-breed was killed, the white men were strangled; his body being afterwards eaten by the natives.

The same natives who killed the first white man is alleged to have been responsible for the death of a swagsman, upon whom he crept while the man slept, and chopped off his head. The body was cut into pieces, carried three miles by the murderer. The pig was recovered, but the murderer was unable to identify the murdered man.

With the assistance of two others the same murderer is also alleged to have speared two men, who had been seen with a packhorse in the neighborhood, and whose remains have not been found; and still another unknown man, who came into the place with five horses, and who was speared to death in the same way.

Another swagsman, who was killed while he was having his tea, was cut into small pieces and his remains carried away. Altogether twelve murders were committed, and most of the bodies were found afterwards to have been mutilated. In two cases the bodies cannot be found. At the Ethel Creek station, however, the natives have been bringing in quantities of silver, supposed to have belonged to the missing whites.

In each case the same aborigines are said to have been concerned. The same natives are reported as a revolting crime in Melanesia, where C. P. McConville, a gentleman well-known in sailing circles in Sydney, has been murdered by natives.

Mr. McConville was in the boat, one night, and, losing his way, one night in the darkness, landed in a boat some eight or nine miles from the mission station at the Island of Kowkwal. Here three natives were waiting for him. They attacked him with tomahawks and cut off his head, which they took to their chief.

Told in the Twilight

Miss Levin entertained a few of Mrs. Conway Cartwright's old friends last week at a little farewell party in her honor. A few very pleasant hours were spent.

Mrs. Edward Crumley has sent out invitations for a children's party on Thursday.

Among those whom the Quebec napers mention as being at the two balls given in honor of Prince Louis, of Battenberg, are Mr. and Mrs. Venn Henderson, and Mrs. Kenneth Fenwick. They were also at an afternoon dance on board the flagship Drake, and Mrs. Fenwick was one of the guests to a tea on one of the ships of the squadron.

Mrs. G. W. Mylks has returned from Glenora, with her baby. The very deepest sympathy is felt and expressed for Mr. and Mrs. Charles Low, who yesterday lost their first born baby, who stayed with them but a day.

Miss Dickson, of Niagara, is the guest of Mrs. John Hamilton, Emily Street.

Mr. and Mrs. Jeremy Taylor returned last week from a fortnight's holiday in Toronto, where they stayed at the St. George's apartments. Mrs. Taylor's niece, the little Miss Cotton, came back with her for a visit.

The Rev. Prof. Ross, and the Misses Ross, went up to Toronto yesterday.

Miss Jennie Drennan, M.D., is the guest of the Misses Wilson, Lachute. Miss Horsey, who had spent the week with her sister, at the rectory, returned on Friday for a week's visit to Abbotford. She will return to Longueuil before coming home.

Mr. C. W. McDunnough, of the Royal Bank, Ottawa, returned on Wednesday from his holidays, which were spent at Glenora camp, near Kingston. Mrs. McDunnough will return home this week.

The Misses Christie, daughters of the late Rev. J. Christie, of Ottawa, have gone on a trip to Vancouver and other western cities.

Miss Drugg, of Montreal, is visiting friends in Pointe au Pic.

Mr. Richard Hooper was registered last week at the Manoir Richelieu, Pointe au Pic.

Mr. William Waldron has returned from his trip to England.

Mr. Stuart Torrance has returned from Berlin on his boat.

Mrs. Francis Maceo has come home from Bay Vista, Maine.

Mrs. Walter Maceo and her children returned last week from a very pleasant holiday at Little Molis, Mrs. Rubidge, of Cornwall, is the guest of Miss Levin.

Miss Lola Henderson is visiting in town.

Mr. and Mrs. Francis King came from their holiday down the Rideau, on Saturday.

NAVAL VISITORS

Middlesex Got Treated As Well As the Admiral and Staff—Will Have Tournament in Aid of City Hospitals.

Special to the Whig. Montreal, Aug. 22.—Prince Louis, of Battenberg, accompanied by his staff, arrived at Plage Viger station, early this morning. The vessel, where his second cruiser squadron is lying, was met by a civic and military deputation, but there was no guard of honor, and very little ceremony.

At eleven o'clock the civic welcome to the prince was attended at the City Hall, when an address was read by Acting Mayor Clerique, in the presence of Mayor Laporte. Later in the day he drove out to the Forest and Street, where he was entertained at a luncheon. He will be entertained by the officers of the militia corps, and will later attend the naval tournament at the arena.

Three hundred sailors, the second man-of-war of the second man-of-war of the second man-of-war, commanded by Rear Admiral Prince Louis, of Battenberg, arrived at Quebec, on Tuesday, the 20th inst., and departed at the Westmount station of the C.P.R., and from there paraded to the Arena, where they will camp during their two days' stay.

The prince will take part in a football tournament in aid of the city hospitals, and will be liberally entertained by the city and private corporations during their stay. This afternoon the prince will be taken for a drive around the city, and will then board a steamer for a run down the St. Lawrence.

THE DAMAGE WAS QUITE EXTENSIVE. Alexandria Bay, N.Y., Aug. 19.—A storm of rain and high winds, together with the heavy and freshness of the sea, caused the motor boat, the Radium, lying upon the beach opposite Alexandria Bay, to be blown into the water. The boat, which was owned by Mr. Peacock, of Alexandria Bay, and was being used for a spin in this speedy boat in which a new sixty-eight horse power engine had just been placed. When 100 yards from the shore the boat burst into flames.

The tank of gas had overflowed, and a spark from the commutator ignited the vapor, thus causing the destructive fire which spread from stem to stern of the boat. The occupants jumped into the river and were rescued by a launch put out from Mr. Peacock's boat. The launch, which was rushed to the aid of the burning boat, and soon others began to gather to the scene from across the river on the Alexandria Bay side. Buckets of water and fire hoses were put into service. Alec Glad and Gus Clark, boatmen, by knocking a hole in the hull succeeded in tipping and scuttling her on the beach where she last daybreak, as it is believed that the disaster brings a serious responsibility not only to Mr. Peacock, but to others who were interested in the boat. The Radium is one of the speediest boats on the river and gave promise of being the champion. She was the entry of the St. Lawrence River Yacht Club for the gold challenge cup race to be held at Chappuau Bay, this week. Some reports claim that the loss is not entire, and that she may be put in shape to put up a strenuous effort to win the gold cup for the newly formed St. Lawrence Yacht Club.

LOCUSTS TERRORIZE ROME. Myriads of insects invade homes in morning. Rome, Aug. 22.—A plague of locusts descended on Rome last night, and thoroughfares were covered in a few moments with myriads of these insects, while swarms invaded the houses, through the open windows, and entered the rooms, and were more even than the mosquito visitation which has so severely tried the inhabitants. For two hours the locusts were in possession, and then at daybreak, as it is reported, a tremendous signal, the gay cloud of insects rose in dense masses, and gradually disappeared in their flight southward.

ADVANCE IN GRAIN RATES. Toronto Loses Car Service Department. Toronto Mail and Empire. Toronto, Aug. 22.—The G. T. R. has given notice to discontinue its car service in the city, and the grain rates from points in Ontario, to the Atlantic terminal, of two cents per hundred pounds. The order takes effect on September 1st. At present the rate is 1 1/2c. The increase does not apply to export grain.

STRIKING MACHINISTS. Of G.T.R. Are Giving Trouble in Stratford. Special to the Whig. Toronto, Aug. 22.—The Grand Trunk railway has begun suit against a number of striking machinists at Stratford. It is alleged that they have been interfering with the work of men now employed in the shops there. It is set forth in an application for an injunction, filed at Osgoode hall, that the number of men have been induced to quit work that non-union workmen have been hooted at and hissed, and that acts of violence have been committed.

A YOUTHFUL FORGER. Signs Grandfather's Name to a Cheque. Special to the Whig. Toronto, Aug. 22.—Frank Thornton, aged eighteen, came here recently from Dunlask, to visit his grandfather, yesterday afternoon, went to the bank of Commerce here, where his grandfather has a bank account, and signed a cheque for \$100. The cheque was signed by Thornton. This he succeeded in getting cashed. Soon after this he left town. Sometime later the discovery was made that the cheque was a forgery. It was at once telegraphed to outside towns and the young man was located at Waterford.

HINDU WOMAN KIDNAPED. Her Religion Renounced for Christianity. New York, Aug. 22.—Word was received at the office of the missionary society of the Methodist church, Friday, from Bishop William F. Oldham, missionary bishop for southern Asia, that on July 17th, Soobanagam Annamma of Madras was kidnaped. Soobanagam Annamma came from the Pantulus, the priestly class, the strictest sect of the despotic Hindus, but had become a Christian. Her uncle is the great high priest over the Saivite Brahmins.

EXPECT GOOD SHOOTING. At the Rifle Meet at Long Branch Ranges. Special to the Whig. Long Branch, Ont., Aug. 22.—The weather was decidedly warm when firing began, this morning, in the first matches of the second day of the O.R.A. The light was good and the air clear with moderate but steady northwesterly breeze just enough to clear off the early morning haze. As the day advanced the weather improved and by ten o'clock was almost ideal, making the chances for putting on big scores much more favorable than they were yesterday, particularly for the cadets and younger marksmen who are very confident of retrieving some of yesterday's defeats. Today's matches include the Macdonald rapid firing at 500-yards, the Bankers at 500, 600 and 800 yards and the extra series at 200, 300, 600 and 800 yards. All these were filled with close competition in the order of the day.

ARE IN THE WEST. Winnipeg, Aug. 22.—The first of the harvesters' excursion arrived this morning. During the morning three trains arrived bringing in all 200 men from the maritime provinces, to assist in gathering the year's grain crop. They will be distributed on the branch lines as rapidly as possible. A large party of Minnesota editors arrived today, on a tour of the Canadian west.

Matthew Parker, Welland, an old man, had five ribs broken by being gored by a bull. There is small hope of recovery.

LARGEST FARM IN WORLD.

It is Nearly Two Hundred Miles Square. The largest farm in Mexico, in the state of Chihuahua, it belongs to Don Luis Terraza, and contains eight million acres in a wild tract mountainous, mesas and prairies. Its boundaries are one hundred and fifty miles from north to south and two hundred miles from east to west, and the tract on the Mexican Central railroad take more than half a day to cross it. Don Luis Terraza does not know how many cattle he owns, but it is over a million head. He brands from 200,000 to 300,000 calves every spring. He has 500,000 sheep and 100,000 horses, and employs more than a thousand cowpunchers, shepherds, herd bosses and other cattle-men. He has more than one hundred ranch houses scattered over his estate, each being the headquarters of a division covering anywhere from 50,000 to 100,000 acres. He has his own slaughter house and packing plant near the city of Chihuahua, on the edge of his range, where he annually kills 250,000 cattle, as many sheep and a large number of hogs, and ships the carcasses to the capital and the other cities of Mexico, upon his own refrigerated cars. He also packs and preserves a great deal of beef, pork and other meats, but handles no animals that are not raised on his own place. Don Luis lives in a castle which cost two million silver dollars. Everything in it was brought from Spain. He lives like one of the ancient barons, monarch of all he surveys, but is an ardent supporter of President Diaz, and has several times placed his fortune and his entire force of men at the president's disposal. He once offered \$1,000,000 for the public debt of Mexico. His son-in-law, Enrique Creel, is the financial adviser of the administration and was the most active and influential force in bringing Mexico around to a going standard of money. Between thirty and forty thousand people live upon the estate of Don Luis, and he controls their destinies with a power more absolute than the Czar of Russia ever exercised in his domains.

EVIDENCE OF PROSPERITY IN ONTARIO. London Advertiser. The report of the registrar of loan companies shows that there are seventy-eight loan and trust companies in Ontario. The total mortgages reach \$108,327,400.81, and the land for sale, \$1,341,941.52. The amount loaned during the year was \$19,463,157.93—about \$2,000,000 more than the preceding year. The deposits show an increase of \$1,000,000, amounting in all to about \$20,000,000.

This we regard as the very best evidence of prosperity, because there is believed to be behind all these securities ample margins nearly equal to the amount loaned. This class of investment is not panicky, and is not so likely to be injuriously affected by hard times—should they come—as any other class of security. In fact, they are the very best security for good times. They are not speculative, liable to be called in if money tightens, but the reverse. Those who carry the loans want the interest only, and to know that the margin of security is sufficient. They are good backing for the chartered banks, whose prosperity shows the commercial prosperity of the country more accurately than the business transacted by trust and loan companies.

How To Live Long. A famous New York physician, now hale and handsome at seventy-five, sums up his half century of medical practice and observation in these simple things, in matters of anatomy, study as well as in regard to food and drinks. To be temperate in all things, however, does not imply that one must be a prohibitionist about anything. Don't be afraid to get up, sleep, for sleep is the best restorer of wasted energies. Sleep a certain number of hours every night, and then remember that a short nap during the day is a safer rejuvenator than a cocktail. Don't worry either about the past or the future. To waste a single hour in the regretful past is as senseless as to send good money after that which has been irrevocably lost.

An Old Teacher. Woodstock Express. It was in the country, and she was young and sweet and poetic, and he was young and mischievous. They were sitting out on the veranda in the moonlight, and she grew ethereal. "Oh, how I love to sit out here in the moonlight," she cooed; "to be fanned by the languorous perfumes of the roses, and to be kissed by the soft airs from the south!" Then he kissed her and she grew indignant. "How dare you?" she almost sobbed. "Why?" he said softly from the south." He replied, contritely. She didn't say anything when he leaved her again.

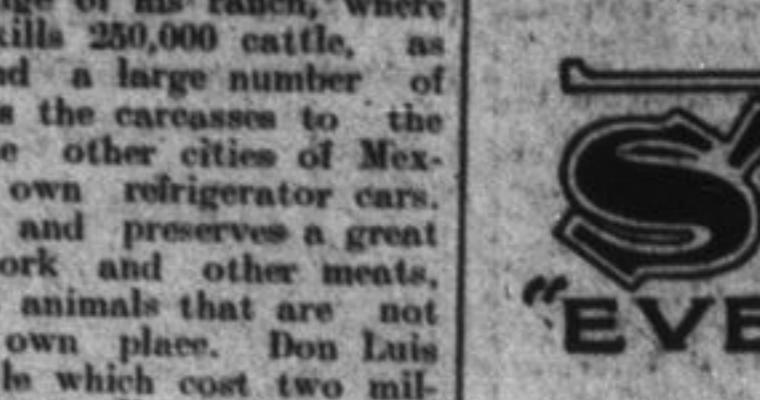

Women With Weakness. For all weakness from which girls and women suffer, no surer remedy exists than Dr. Hamilton's Pills. They maintain that bracing health, every woman so earnestly desires; they uproot disease, and bring strength that lasts till old age.

"No medicine could be more beneficial than Dr. Hamilton's Pills," writes Mrs. Mary E. Ayerton, of Victoria. "I have been strengthened, my digestion is better, I have improved in color and feel considerably better since using Dr. Hamilton's Pills." Sold everywhere, 25c. per box or five boxes for \$1.

SHREDDED BISCUIT WHEAT

Contains more nourishment than beef, eggs or milk, and is more easily digested. Unlike white flour it contains all the nutriment in the whole wheat.

Send for the "Vital Question Cook Book," postpaid. CANADIAN SHREDDED WHEAT CO., Limited, Niagara Falls, Ont. Toronto Office, 6 Church St.
