IS FAINT HOPE

That Peace Conference May Not Be Abortive.

JAPAN'S REQUEST

FOR FURTHER ADJOURNMENT ACCUSED TO.

Nove Vremya Accuses Roosevelt of Partiality for Japan Saying He Wants Japan's American Creditors Paid—Twenty-Four Hours Gained.

Special to the Whig. 28.—At the very moment when the peace conference was about to end in failure, President Roosevelt has stepped in to the breach and caused a postponement of what was generally regarded as the final meeting. The mere fact that through the president's efforts the meeting fixed for to-day will not be held until Tuesday, may not appear to be a very important development, but it means another twenty-four hours gained, and every additional day that the conference lasts, affords reason for hope of a successful outcome. It was at the solicitation of the Japanese envoys that the arrangement for the postponement of the next meeting was made. They were impelled to this course by a message from Baron Kaneko, Japanese financial agent in this country, who acted as the spokesman of the president, with whom he has had frequent conferences recently. The purpose of the president in requesting that there be no session of the plenipotentiaries until Tuesday, has not been disclosed authoritatively. There is reason to believe that the president expects the Japanese government will send new instructions to Baron Komura and Mr. Takahira, which may have some effect upon the outcome of the negotiations.

When the conference adjourned, on Saturday, it was with the understanding that the envoys should next assemble at three o'clock, this afternoon. The Russians did not hesitate to state that unless something unforeseen and entirely unexpected, occurred, to-day's meeting would mark the ending of the present negotiations. So convinced were they that there was not the slightest prospect of peace that they began packing their trunks, paying their bills, and making every preparation for their departure.

The Russian envoys are seemingly now encouraged by the faint hope that their adversaries will submit new proposals, which may be acceptable to the czar. The Japanese, abandoning their usual reticence, frankly admit that it was at their request that the postponement, until to-morrow, was agreed upon and that they were actuated by a sense of courtesy to President Roosevelt. They decline, however, to say whether or not to-morrow's meeting will submit new proposals to the Russian envoys.

Unqualified Refusal. London, Aug. 28.—The St. Petersburg correspondent of the Times says the czar's final reply to the suggestions of President Roosevelt was considered, through Ambassador Meyer, on Saturday. It was an unqualified refusal to entertain the Japanese demand for the payment of an indemnity. The correspondent adds that he is assured, on the best authority, that the recognition of the conquest of Saghalin has been settled, thanks to President Roosevelt's good offices, the czar consenting to allow so much as a token of his personal regard for Mr. Roosevelt, and his high office. Those behind the scenes, however, he says, suggest that the concession was made under the firm conviction that it would not suffice to cause peace, yet would give Russia a conciliatory character in the eyes of the world.

The Nove Vremya, while recognizing the humanitarian motives of President Roosevelt, charges him with partiality for Japan, attributing this partly to his desire to assure the repayment of Japan's American creditors, by means of an indemnity, and partly to his idea of the relative importance of Russia and the Russians, whom he knows almost exclusively from books and accounts by Jewish immigrants.

Cabinet in Session. Tokio, Aug. 28.—The conference of the cabinet and elder statesmen called together in special session early this morning, has been prolonged for several hours. It is understood the question under discussion is the abatement of Japan's demand for a money indemnity from Russia.

Roosevelt Working Strenuously. Washington, Aug. 28.—There is a persistent report that President Roosevelt has made a new appeal to the emperor of Japan. Shortly after midnight Baron Komura was called to the telephone at Hotel Westworth, and talked for fifteen minutes in Japanese to someone.

The Canadian Associated Press understands that Dr. Gregory, principal of the Children's Homes, maintained by the Wesleyan commission, called, Saturday, from London for Canada. It is said that the executive of Children's Homes are more than ever convinced of the value of Canada as a field for emigrating children.

MRS. EDDY'S PRECEPTOR.

First to Tell Christian Science Leader How to Heal.

Boston, Aug. 28.—Miss Sarah G. Good Bagley, a mental healer, said to have given Mrs. Mary Baker Eddy her first instruction in mental healing, died at her home in Amesbury, aged eighty-one.

Miss Bagley had been blind for three years. Although it has been denied, it is generally known in Amesbury that Mrs. Eddy resided there about thirty years ago, before she became interested in Christian Science and before she was married to Mr. Eddy. During her residence of a year and a half in Amesbury she was a lodger in the home of Miss Bagley, who was an active healer at the time.

Mrs. Eddy became interested and received, it is said, her first lessons in the healing art from Miss Bagley. Mrs. Eddy afterward elaborating her system, now known as Christian Science. Mrs. Bagley never adopted the principles promulgated by her former pupil.

In the Dunbar township shooting school, the coroner's jury found a lenient view and returned a verdict of accidental death, exonerating Charles Gow, who had admitted firing of a gun while passing the Hill dwelling, from blame.

A petition by Mrs. Clara S. Hay, widow of the late secretary, John Hay, for the probate of Mr. Hay's will, was filed Saturday, in the probate court. The petition states that Mr. Hay left property, real and personal, to the value of more than \$250,000.

Japanese Consul-General T. Noso, Ottawa, thinks that if the conference at Portsmouth results in peace, Baron Komura, the Japanese envoy, who has been invited to Canada, will accept the invitation. If there should be no peace, he thinks the baron will not come to Canada.

The court martial of 137 mutineers of the Russian battleship Kniaz Potemkin has just been completed. Eight prisoners were sentenced to be hanged, but it was recommended that if any action was taken by the convention in regard to lynching a resolution should be passed commending the whites.

Other mutineers who were sentenced to be hanged were the negroes aided the whites in the capture of Williams. Every law-abiding negro was said to be in favor of lynch law in cases of this kind. They refused to pass resolutions denouncing the burning.

TUNNEL BENEATH RIVER. Work, Now Commenced, Will Take Three Years to Complete.

Detroit, Aug. 28.—Work on the railroad tunnel, being constructed under the Detroit river, between Windsor and Detroit, began Friday, when a force of workmen were set to work, sinking the initial shaft on the American side. A similar shaft will shortly be sunk on the Canadian side. The actual length of the underground portion of the tunnel will be two and six-tenths miles and the distance from surface to surface almost exactly three miles. It is estimated that between two and three years will be occupied in the construction.

HAIL DESTROYS TOBACCO. Loss in Connecticut Will Reach Figure of \$50,000.

New Haven, Conn., Aug. 28.—In only one section of the tobacco raising district of Connecticut did the electrical storm do heavy damage. The peach crop in this state will be a record breaker and had this storm swept across the state the loss to peach growers, tobacco raisers and market gardeners would have been enormous.
