JUMPED THE TRACK.
Car Ran Into Open Switch When Going at High Speed.

One of the street cars, in charge of Conductor Mucker and Motorman Coffin, came to grief yesterday afternoon and was the cause of delay to the service for a time. It was the most serious case of a car running off the track that has possibly occurred yet. With his car going along at a lively clip, Motorman Coffin ran into the switch at the corner near MacDonald Park. It is one of the variety of tongue switches; the car going one way forces the point over and opens the switch for the car coming the other way. Some younger men must have been playing with it, and reversed things. However, the car struck the switch and jumped the rails. Two lady passengers were thrown forward against the next seats, a little lad with a parcel was landed on the road, and the conductor went head foremost through the glass front near window. Had the car entirely left the rails it might have struck the trees with worse results to the passengers, and annihilation to itself.

PASSED AWAY.
Several Years An Invalid, An Aged Resident Dies.

A well-known and much respected resident passed to her reward when Grace Dowling, beloved wife of Robert W. W. Dowling, departed this life on Tuesday afternoon, at the goodly age of seventy-two years. The deceased was a sister of the late James and William Downing and is survived by her husband and one daughter, Mrs. Joseph Hiseock. The late Mrs. Dowling was for several years an invalid despite which she endeavored herself to many friends by her cheery disposition. She was also a member of the Sydney street Methodist church. The funeral, which will leave her late residence, 119 William street, two-thirty Thursday afternoon, will be private in character. Service will also be conducted at the house at two o'clock.

MARINE INTELLIGENCE.
What is Going on About the Harbor.

Crawford's wharf: Schooner Annandale, from Oswego with coal. The wharf is now in a drawing card, down this morning, being repaired from South Bay.

The government tug Rooster Rippel have placed a gas buoy at the Narrows near Ganacque, where a barrel buoy formerly was.

Swift's wharf: Steamers Kingston, down and up; Althea, down and up; schooner Ariadne is loading coal for both; steamers, Rideau Queen, from Ottawa, to-night; Belleville, down, to-night.

At Lake Ontario Park.
The attendance at the pavilion at Lake Ontario Park, last evening, was large. Every seat was occupied and many were obliged to stand. The lighting in this respect is a drawing card, down this morning, being repaired from South Bay.

Miss Belle opened the programme with a taking song, "Tell Me With Your Eyes." Christ and Willis, in their juggling feats, kept the attention of the audience. They are experts at their difficult work and were right. Miss Willis' skilful dancing gave pleasure. She was repeatedly applauded. Wilson and Bell, the colored comedians, kept the audience convulsed with laughter. Miss Belle's singing was greatly admired. She possesses a beautiful soprano voice. Her rendition "When the Moon Shines" was a gem. She has to appear several times in the evening. The moving pictures were good, especially the fire scene. The company will introduce several new features in their programme to-night.

Canadians Too Patriotic.

Doubtless there is no remnant of the old animosity among sensible Americans, and sensible Englishmen equally certainly would be deaf, dumb, and blind to any conceits of the kind on the part of Americans. But, besides Americans and Englishmen, there are the Canadians to consider, and they are peopled. Just now they are raising questions about the preservation in a naval museum of the three warships sunk by Commodore Perry in 1813. We make no concealment that we like the British way better than the Canadian and we would like to have somebody explain why the Canadians are so much more British than the inhabitants of the united kingdom. Hidden in a Detroit museum, nobody would ever know anything about these relics, but now Canada is emphasizing their existence.

An Invitation Extended.

Messrs. W. H. Godwin and Thomas Smeaton left, yesterday, for Belleville to attend the meeting of the high court of Foresters for Eastern Ontario. The editor of the high court has forwarded an invitation to the high court to meet in Kingston next year.

Mother Superior Ill.

Rev. Mother Sister Mary Jane, who has been for many years the esteemed and respected superior of Notre Dame convent, is critically ill, and has been removed to the Mother house in Montreal for treatment. She was accompanied by Rev. Mother Cecilia, provincial of the order at Ottawa.

His Potato Supply Short.

The Freeman says: "The editor of the Cape Vincent Eagle was last week presented with a bag of fine eating potatoes. Evidently the farmers around the Cape know an editor's needs. The editor of the Freeman would be thankful for a bag of potatoes."

Light Debtors Issue.

LIGHT EXTENSIONS
BRIEFLY DISCUSSED BY THE COMMITTEE.

Increased Street Lighting Will Be the Point at Issue—Plant Revenue Going Into Queen Street Slip Must Be Stopped.

The light and power committee met yesterday afternoon, in attendance being Alderman King (chairman), Walkem, Givens and Toye.

The tender of the McCall Oil company, Petroles, for oil supply was accepted.

A letter was read from Walkem & Walker, on behalf of Robert Crawford and Mr. Kirkpatrick, asking that a certain nuisance be abated. It seemed that oil and tar refuse from the light plant flows into the slip at the foot of Queen street. Unless the nuisance be abated, a writ for an injunction was threatened. Mr. Campbell said that it would be almost impossible to prevent all the oil and tar from going into the slip. There would be some, probably one per cent, which still would create trouble. He was at present in communication with New York experts, who were preparing plans for a change, but there would be the one per cent issue. Alderman King asked as to the pipe into the harbor would it not effect a remedy. Ald. Toye said that some years ago, a pipe was contemplated because it would be too small. The new apparatus that Mr. Campbell had in view would cost between \$700 and \$800, a costly experiment, but Mr. Campbell said that much tar would be saved, which would result in a saving of over \$200 a year in fuel. The matter will be more fully looked into before the next meeting of the committee.

With a view to making a further reduction in the rate charged the large consumers of power, Mr. Campbell was instructed to have the committee meet the next meeting a day earlier than the next meeting of the city council, and the amount of power they use.

Authority was given to the chairman and Mr. Campbell to award tenders for repairs to the main shaft.

The salary increase was asked as to the works. This matter was left to a special committee last June, for a report, but Chairman King stated that he had in report ready yet. One of the employees of the works is now being paid the wages. He asked for more, as the amount paid him was rather small in proportion to the work. Others are in the same position.

The Proposed Extensions.

Ald. Givens asked if it was not time that the committee got to work and discussed the question of plant extensions, as proposed by the by-law handed in to the city council last December, but which has since become lapsed. Mr. Campbell stated that the machinery in the city would be demanded over next winter. The steam and electric station might stay as it is for the next year or two and the city council would have to meet the street lighting, then it would be necessary to go ahead and increase the electrical plant as well.

Ald. Givens thought that the people were satisfied with the present electric plant, but that the electric plant, but that the people were anything but satisfied. Instead, they were clamoring for more electric light.

Mr. Campbell stated that if the proposal of the city council, which would be to be ready for next summer, tenders must be called for this autumn. The cost of the holder would be about \$20,000, it would hold 150,000 cubic feet, so that if any accident occurred to the plant there would be enabling repairs to go on without affecting the gas lighting. At present an accident would cut off the gas, and houses where gas is used.

Speaking about street lighting, Mr. Campbell stated that it would cost \$20,000 to double the present number on the streets, to do so, the inside of the street lights, he would have to be increased. Ald. Givens said that if the extensions to the electric plant depended upon the installation of street lights, he would have to oppose extending any money in that way. The street lighting, he thought, was good enough if the trees were properly trimmed.

Ald. Toye claimed that well lighted streets would be one of the best advertisements Kingston could have.

Ald. Givens pointed out that the city would derive a revenue from the light, but would not from street lighting.

It was agreed that until the fire and light committee submit to the city council its report upon street lighting, the light committee could not go ahead with the by-law matter. Accordingly the question will be more fully discussed, after the next council meeting.

Bull Killed By Train.

There was some excitement at Kingston Mills Tuesday afternoon when a couple of Kingston young men witnessed a sight that filled them with fear. High into the air, above the trees, rose two pair of legs and they thought that a couple of section men had been killed. They hurried to the spot half a mile away and discovered that a train had struck and killed a large bull.

YOUNG MAN'S DEATH
Was Student at Queen's—Other Napane Notes.

Napane, Aug. 30.—The sad news was received yesterday of the death of George E. Huffman, youngest son of T. A. Huffman, early yesterday morning. The death occurred early yesterday morning, at Wheatland, Wyoming. Whether the deceased had gone about a year and a half ago, for the benefit of his health, to attend Queen's Medical College about two years and contracted a severe cold during the early part of the winter of 1903, and was obliged to come home in the spring. It was thought that a change of climate would prove beneficial. For a time reports came that he was gaining. About a year ago he went west to the same place, and George has been under his care ever since. He never seemed to regain his usual health, but gradually failed. Last week a message was received that he had taken suddenly worse and would not last. His wife, Mrs. Huffman, was but twenty-two years of age, a general favorite with all who knew him. The sympathy of the entire community goes out to his father.

SCHOOL!

The bells will soon be ringing to announce the re-opening of School and with it the end of the joyous holiday season. The merry laughter of the girls' and boys' will soon be heard as they wend their way to school, and all this goes to remind fond parents that New Clothing of some kind is needed. Perhaps it is a New Dress that Isabel needs, or maybe Gladys wants New Stockings, or a New Apron. As for Tommy he will certainly need a new pair of our "Tough" as Leather Ribbed Hose, which are said to be almost impossible to wear out.

SCHOOL!

The bells will soon be ringing to announce the re-opening of School and with it the end of the joyous holiday season. The merry laughter of the girls' and boys' will soon be heard as they wend their way to school, and all this goes to remind fond parents that New Clothing of some kind is needed. Perhaps it is a New Dress that Isabel needs, or maybe Gladys wants New Stockings, or a New Apron. As for Tommy he will certainly need a new pair of our "Tough" as Leather Ribbed Hose, which are said to be almost impossible to wear out.
