SCHOOL ! SCHOOL

The bells will soon be ringing to announce the re-opening School and with it the end of the joyous holiday season. The merry laughter of the girls' and boys' will soon be heard as they wend their way to school, and all this goes to remind fond parents that New Clothing of some kind is needed. Perhaps it is a New Dress that Isabel needs, or maybe Gladys wants New Stockings, or a New Apron. As for Tommy he will certainly need a new pair of our "Tough" as Leather Ribbed Hose, which are said to be almost impossible to wear out.

REVOLUTIONARY IDEAS

Held By Dr. Crummy Concerning

Methodist Mode of Worship. "Our services of worship are defective in many respects," said Rev. Eber Crummy, in his sermon at Bathurst Street Methodist church on Sunday. "It seems to me the congregation should take a greater part in the services. I should like the congregation, led by the choir, to join in 'Amen' after the singing of each hymn. The repeating of the Lord's Prayer should be more audible, and the responsive reading of the morning psalm more generally taken part in." Dr. Crummy pleaded for more rational me thods of worship. He said he regretted that many Methodists in the past did certain things just because their fa

"Why do we turn round and kneel at our seats, with our backs to the person who is offering prayer?" asked the doctor. "In the days of fathers of Methodism this was necessary because they had no backs their seats. Would it not be more noiseless, more devotional, more comfortable if we knelt with our faces towards the altar? Let us have kneeling stools if necessary, but let us not maintain obsolete institutions because our grandfathers, created

"The reason generally given for pro viding gowns for choirs, is that it provides uniformity and induces more worshipful attitude in the gregation. If the congregation is bothered by the hats in the choir, choir is annoyed with the many hats in the congregation.
